Alicia Givens is a beautiful, full-figured 23
 year old woman with an amazing voice.
 She sings like an angel. She's on her way
 to try and make it as a singer. Her friend,
 Shaunice Weathersby, has been her best
 friend since elementary school. Alicia feels
 she's always been the 'big girl' with the
 bubbly personality, yet she still has a few
 self esteem issues. She settles for guys
 who basically play around with her
 feelings until she finally gets tired of the
 game. Shaunice wants Alicia to find
 someone who values her and not Maurice
 Gibbs, who Alicia has been seeing. Alicia
 understands that Shaunice doesn't like
 Maurice, but Alicia feels she owes him a lot
 due to the fact that he has been trying to
 get her singing career off the ground as
 her manager as well as her boyfriend.
 Shaunice thinks Maurice is complete trash.
 Alicia is aware but she's so attracted so

much to Maurice: the sex is good and he
 makes promises of getting her noticed by
 being her manager. Shaunice doesn't trust
 Maurice at all and is willing to get Alicia to
 see him for who he really is. As luck would
 have it, Maurice is able to get Alicia an
 audition with the CFE group, owned by
 Marcus Harper and Franklin Studdard
 (That's Why I Love You) and things take
 off. Even after getting Alicia noticed,
 Maurice doesn't change his ways. Instead
 he gets worse. Fate steps in and opens
 Alicia's eyes along with the help of others
 playing 'Cupid' and she finds someone
 who shows her how she should be treated.
 Alicia finds herself torn between the
 person who was with her from the start of
 her career and a person who makes her
 feel like a Queen. She wants to move on,
 yet Maurice isn't ready to let her go just
 yet. Will Alicia allow herself to be love the

way she deserves? Will Maurice go away after all of the work he had done for Alicia? **This is a Stand-Alone book. If you want to know the story behind Marcus and Siedah - their story starts in THAT'S WHY I LOVE YOU and continues in LIKE I WANT YOU**

Descent "O'Reilly Media, Inc."

On the first day, a mist descended from the heavens blanketing Earth. On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began... There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

Trial of the Demon Fae Weiser Books Award-winning author Behcet Kaya has once again brought his PI protagonist Jack Ludefance to life in a novel of suspense and mystery, filled with indelible characters, and laced with threads of credible circumstances, in his latest book titled *Body in the Woods*. Set in the hills in Malibu, California, Jack is asked by his friend, a wealthy businessman in the military defense industry, to come to his aid to help solve a murder; because it seems his business partner's body has turned up murdered and the police have pegged him as the prime suspect. Although not yet formally charged, he needs Jack's help to find the real killer and thus secure his freedom, while solving the crime of who actually killed his partner. Jack obliges and travels from his home in Florida to Los Angeles to pick up the case.

What begins as a step-by-step private investigation into the evidence surrounding the death of the notoriously cunning, smart and cleverly manipulating business partner of Jack's client, turns into an international quagmire of intrigue, scientific secrets, and vast amounts of money. People with power, influence and fortunes are all jockeying for a once-in-a-lifetime business deal, while death surrounds the periphery of their involvement. *Body in the Woods* stands on its own merits as there is enough background to appease the fans of Kaya's books without bogging down the plot with historical events. This book is impossible to put down; at first due to the character development, then again when readers hit the critical mass plot point. It will surprise the savviest of readers with its twists and turns of logic, morality, integrity, and honesty.

The Rules for Disappearing KDP

This book explores why widespread predictions of the radical transformation in the recording industry did not materialise. Although the growing revenue generated from streaming signals the recovery of the digital music business, it is important to ask to what extent is the current development a response to digital innovation. Hyojung Sun finds the answer in the detailed innovation process that has taken place since Napster. She reassesses the way digital music technologies were encultured in complex music valorisation processes and demonstrates how the industry has become reintermediated rather than disintermediated. This book offers a new understanding of digital disruption in the recording industry. It captures the complexity of the innovation processes that brought about technological development, which arose as a result of interaction across the circuit of the recording business - production, distribution, valorisation, and consumption. By offering a more sophisticated account than the prevailing dichotomy, the book exposes deterministic myths surrounding the radical transformation of the industry.

agency that her dead boss unexpectedly left to her. Easing into middle age, Siobhan would generally rather have a donut than a romance, but when an old friend asks Siobhan to find her daughter who has disappeared from her dorm room, the rookie private detective's search begins in Llewellyn College. A private institution of higher learning in upstate New York, Llewellyn, for the first time in its two-hundred-year history, has opened its doors to men, causing a clash between the female students and their former fashion-model president. The financial reasons prompting the change seem like a ruse when fringe-group The Womyn of Llewellyn, aided by Siobhan, discover a newly built science center, which is under 24-hour surveillance. As Siobhan delves deeper into locating the missing girl and campus politics, she encounters vegan cooking that just might kill her, possibly deadly yoga poses, and politely dangerous billionaires.
