*The Manchurian  
Candidate* Doubleday  
"The definitive account of  
covert election  
interference between the  
United States and Russia  
from the Cold War to 2016  
- and why the threat is  
greater than ever in  
2020"--

*Spy* Vintage

A landmark collaboration  
between a thirty-year  
veteran of the CIA and a  
Pulitzer Prize-winning  
journalist, *The Main  
Enemy* is the dramatic  
inside story of the CIA-  
KGB spy wars, told  
through the actions of the  
men who fought them.  
Based on hundreds of  
interviews with operatives  
from both sides, *The Main  
Enemy* puts us inside the  
heads of CIA officers as  
they dodge surveillance  
and walk into violent  
ambushes in Moscow. This  
is the story of the  
generation of spies who  
came of age in the  
shadow of the Cuban  
missile crisis and rose  
through the ranks to run  
the CIA and KGB in the

last days of the Cold War.  
The clandestine  
operations they  
masterminded took them  
from the sewers of  
Moscow to the back  
streets of Baghdad, from  
Cairo and Havana to  
Prague and Berlin, but the  
action centers on  
Washington, starting in  
the infamous "Year of the  
Spy"—when, one by one,  
the CIA's agents in  
Moscow began to be  
killed, up through to the  
very last man. Behind the  
scenes with the CIA's  
covert operations in  
Afghanistan, Milt Bearden  
led America to victory in  
the secret war against the  
Soviets, and for the first  
time he reveals here what  
he did and whom America  
backed, and why. Bearden  
was called back to  
Washington after the  
Soviets withdrew from  
Afghanistan and was  
made chief of the  
Soviet/East Euro-pean  
Division—just in time to  
witness the fall of the  
Berlin Wall, the  
revolutions that swept  
across Eastern Europe,  
and the implosion of the  
Soviet Union. Laced with  
startling  
revelations—about fail-  
safe top-secret back

channels between the CIA  
and KGB, double and  
triple agents, covert  
operations in Berlin and  
Prague, and the fateful  
autumn of 1989—*The  
Main Enemy* is history at  
its action-packed best.  
*America, Russia, and One  
Hundred Years of Covert  
Electoral Interference*  
Twelve

Call me naïve, but when I  
was a girl-watching James  
Bond and devouring  
Harriet the Spy—all I  
wanted was to grow up to  
be a spy. Unlike most  
kids, I didn't lose my  
secret-agent aspirations.  
So as a bright-eyed,  
idealistic college grad, I  
sent my resume to the  
CIA. Getting in was a story  
in itself. I peed in more  
cups than you could  
imagine, and was nearly  
condemned as a sexual  
deviant by the staff  
psychologist. My  
roommates were getting  
freaked out by  
government investigators  
lurking around, asking  
questions about my past.  
Finally, the CIA was  
training me to crash cars  
into barriers at 60 mph.  
Jump out of airplanes with  
cargo attached to my  
body. Survive  
interrogation, travel in

alias, lose a tail. One thing they didn't teach us was how to date a guy while lying to him about what you do for a living. That I had to figure out for myself. Then I was posted overseas. And that's when the real fun began.

The Mueller Report Xlibris Corporation

The FBI veteran behind the Russia investigation draws on decades of experience hunting foreign agents in the United States to lay bare the threat posed by President Trump.

**Venona** Random House  
The autobiographical story of a KGB spy sent to Washington to recruit Americans as Soviet agents also reveals the identity of "Socrates"--the former top State Department-White House advisor he actually enlisted

**Phenomena** Farrar, Straus and Giroux  
"When former KGB officer Vasili Mitrokhin defected to Britain he brought with him what the FBI described as 'the most complete and extensive intelligence ever received from any source'. The first resulting book, *The Mitrokhin Archive: The KGB in Europe and the West*, created a media storm. But it told only part of the story. Now The

*Mitrokhin Archive II: The KGB and the World* reveals for the first time the full extent of the KGB's global penetration, exposing its operations in Africa, Asia, Latin America and the Middle East."--  
BOOK JACKET.

The Search for the "Manchurian Candidate"  
Penguin

The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker  
A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle).  
"Crammed with

suspense." —Chicago Tribune  
"Condon is wickedly skillful." —Time  
**Three Part Series of White Papers on Insider Threat, Counterintelligence and Counterespionage**  
Brookings Institution Press  
From the KGB to the Kremlin: a multidimensional portrait of the man at war with the West. Where do Vladimir Putin's ideas come from? How does he look at the outside world? What does he want, and how far is he willing to go? The great lesson of the outbreak of World War I in 1914 was the danger of misreading the statements, actions, and intentions of the adversary. Today, Vladimir Putin has become the greatest challenge to European security and the global world order in decades. Russia's 8,000 nuclear weapons underscore the huge risks of not understanding who Putin is. Featuring five new chapters, this new edition dispels potentially dangerous misconceptions about Putin and offers a clear-eyed look at his objectives. It presents Putin as a reflection of deeply ingrained Russian ways of thinking as well as his unique personal

background and experience. Praise for the first edition If you want to begin to understand Russia today, read this book. —Sir John Scarlett, former chief of the British Secret Intelligence Service (MI6) For anyone wishing to understand Russia's evolution since the breakup of the Soviet Union and its trajectory since then, the book you hold in your hand is an essential guide.—John McLaughlin, former deputy director of U.S. Central Intelligence Of the many biographies of Vladimir Putin that have appeared in recent years, this one is the most useful. —Foreign Affairs This is not just another Putin biography. It is a psychological portrait. —The Financial Times Q: Do you have time to read books? If so, which ones would you recommend? "My goodness, let's see. There's Mr. Putin, by Fiona Hill and Clifford Gaddy. Insightful." —Vice President Joseph Biden in Joe Biden: The Rolling Stone Interview. Best of Enemies Random House Trade Paperbacks The Bible prophesies the Queen of the South will rise at the judgment, but did not give her name or any other detail about her. The Queen of the

South in Matthew 12:42, authored by Soleilmavis Liu, is a strong and well-reasoned piece that demonstrates who the Queen of the South is, by using plenty of historical facts. It lets readers understand where the Ends of the Earth are, how the Queen of the South will come from the Ends of the Earth and what the judgment is. Ultimately, readers will come to know God's great plan regarding the Queen of the South. However, Satan and his followers will persecute her. Soleilmavis hopes that her presentation sheds new light on this important person, who will play a decisive role in the history. This book is a step in that direction. Baltic Winds: Testimony of a Soviet Attorney Pickle Partners Publishing Being taken into the USA Embassy in Hong Kong, and her brain was remotely controlled by electromagnetic mind control tech, Soleilmavis' story sounded weird, but it was true. Suffering horrible pain and many other strange symptoms, Soleilmavis Liu, one of many private citizens, discovered that she and many other people were test-subject victims for the study of

electromagnetic spectrums mind control weapons and global surveillance equipment. This book tells the true story that during her horrible period in the grave, her soul was waylaid, but God answered her cries, and gave her love and support. Losing her life to find God was a true consolation and brought joy to her soul and gave her the strength to be a soldier rather than a victim. She worked hard to seek justice by exposing these horrible crimes to the public, which - if not exposed and publicized - in the future humanity would no longer know the meaning of physical inviolability and privacy.

**The Moscow Rules** Yale University Press Former Director of Central Intelligence R. James Woolsey and former Romanian acting spy chief Lt. General Ion Mihai Pacepa, who was granted political asylum in the U.S. in 1978, describe why Russia remains an extremely dangerous force in the world, and they finally and definitively put to rest the question of who killed President Kennedy on November 22, 1963. All evidence points to the

fact that the assassination—carried out by Lee Harvey Oswald—was ordered by Soviet Premier Nikita Khrushchev, acting through what was essentially the Russian leader's personal army, the KGB (now known as the FSB). This evidence, which is codified as most things in foreign intelligence are, has never before been jointly decoded by a top U.S. foreign intelligence leader and a former Soviet Bloc spy chief familiar with KGB patterns and codes. Meanwhile, dozens of conspiracy theorists have written books about the JFK assassination during the past fifty-six years. Most of these theories blame America and were largely triggered by the KGB disinformation campaign implemented in the intense effort to remove Russia's own fingerprints that blamed in turn Lyndon Johnson, the CIA, secretive groups of American oilmen, Howard Hughes, Fidel Castro, and the Mafia. Russian propaganda sowed hatred and contempt for the U.S. quite effectively, and its operations have morphed into many forms, including the recruitment of global terror groups

and the backing of enemy nation-states. Yet it was the JFK assassination, with its explosive aftermath of false conspiracy theories, that set the model for blaming America first. *Spy Wars* Henry Holt and Company Baltic Winds, a nonfiction work, tells a life story of the prominent Soviet defense attorney, her family, friends, and clients. The narrative covers the period from the 1950s through the 90s and reflects lives of the characters on two continents, from Leningrad through Tallinn, Rome, and finally New York. The first part of the book, *Mothers and Children*, presents life in Russia. It provides first-hand observation about people from different ethnic groups and reveals the abominable conditions they live in, the struggles women encounter in every day life, their status as second-class citizens, their numerous abortions, domestic violence, and sexual abuse. The second part of the book, *Years, People, Countries*, takes the reader, along with the author through Europe to America. It shows how immigration and a teaching position in two universities again have brought the author close

to people this time Americans. *Baltic Winds* is a heartfelt contribution of first-hand experience and information, which brings to light the as-yet uncovered truth. *The Autobiography of Oleg Gordievsky* St. Martin's Press Oriented for a general reading audience, this book gives a unique and rare perspective on the KGB "special operations" in Soviet Ukraine, which targeted especially the USA and Canada, using issues related to Soviet Ukrainian identity and cultural diplomacy of Soviet Ukraine after Stalin's death in 1953 until the perestroika of the 1980s. Concentrating on the period of the Cold War after Stalin and combining the counterintelligence documents from the KGB archive in Kyiv, Ukraine, with the official KGB correspondence and reports to the political leadership of Soviet Ukraine, this book offers an experimental view of the political and cultural history of relations between Soviet Ukraine and "capitalist America" through the prism of KGB operations against the US and Canada. Written from a "hidden" perspective of KGB operations from 1953

to the end of the 1980s, this book covers intelligence and counter-intelligence operations and the active measures of the KGB, but also various problems of anti-American cultural campaigns in Soviet Ukraine, sponsored by the KGB, involving the issues of cultural consumption, knowledge production, youth culture and national identity. Using carefully researched archive materials, this is an invaluable resource for scholars and advanced students of KGB operations, the Cold War, counterintelligence and political and cultural history of the relations between Soviet Ukraine and the United States and Canada, and a role of cultural consumption in this history.

### **The Secret History of Agent Goleniewski**

Vintage

In this seminal work, published by the C.I.A. itself, produced by Intelligence veteran Richards Heuer discusses three pivotal points. First, human minds are ill-equipped ("poorly wired") to cope effectively with both inherent and induced uncertainty. Second, increased knowledge of our inherent biases tends to be of little assistance to

the analyst. And lastly, tools and techniques that apply higher levels of critical thinking can substantially improve analysis on complex problems.

### **The KGB and the World**

Crown

The bestselling author of *All the Shah's Men* and *The Brothers* tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA

officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.

[KGB Operations against the USA and Canada in Soviet Ukraine, 1953-1991](#) Yale University Press

An ex-Soviet KGB agent details his primary mission to work undercover in the United States for over a decade and discusses his change of allegiance and

defection from the KGB. -- Publisher's description. *Mr. Putin* Anchor Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally

gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB. *American Kompromat Corsair* "Oleg Gordievsky was the highest ranking KGB officer ever to work for Britain. For eleven years, from 1974 to 1985, he acted as a secret agent, reporting to the British Secret Intelligence Service while continuing to work as a KGB officer, first in Copenhagen, then in London. He gave Western security organizations such a clear insight into the mind and methods of the KGB and the whole system of Soviet Government that he has been credited with doing more than any other individual in the West to accelerate the collapse of Communism." "Here for the first time his extraordinary, meticulously planned escape from Russia is described. Peopled with bizarre, dangerous and corrupt characters, Gordievsky's story introduces the reader to the fantastical world of the Soviet Embassy, tells of the British MPs and trade unionists who helped and took money from the KGB, and reveals at last what the author

told Margaret Thatcher and other world leaders which made him of such value to the West."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved *The Last Great Spy Story of the Cold War* Independently Published This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various

investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

#### **Poisoner in Chief**

Twelve Years in the Grave  
- Mind Control with

Electromagnetic Spectrums, the Invisible Modern Concentration Camp.  
'A brilliantly researched and revelatory book, written with compelling authority and great narrative drive. Completely fascinating'  
William Boyd Love & Deception is the extraordinary story of how Eleanor, an able, cultured American living in the espionage hot spot of 1950s Beirut, fell in love with the kindest, most sensitive of men. Unknown to her, that man, a Lebanon-based journalist, Kim Philby, was under suspicion by the British and US intelligence services of having

secretly signed up to help the Russians fight fascism in the 1930s, and of remaining in their pay at the height of the Cold War. Despite his mysterious past, Eleanor adored and married Philby, who later begged her to defy his difficulties. As the net closed in on Philby, he manoeuvred to save himself, but would their love survive? The outline of Philby's story is familiar to many, but Love & Deception breaks remarkable new ground - even for spy buffs. Through in-depth research, Hanning produces an eye-opening tale of friendship, politics, love, and loyalty.
