Classic Car Restoration Guide Aum Publications

Here Grof presents a useful model of the psyche—a model extended by his thirty years of studying non-ordinary states of consciousness. It is useful for understanding such phenomena as shamanism, mysticism, psychedelic states, spontaneous visionary experiences, and psychotic episodes. The model is also useful in explaining the dynamics of experiential psychotherapies and a variety of sociopolitical manifestations such as war and revolution. This book might have been entitled *Beyond Drugs*. The second part describes the principles and process of the non-pharmacological technique developed by the author and his wife, Christina, for self-exploration and for psychotherapy. Grof explores in detail the components of this technique. He describes its method, its effective mechanisms, as well as its goals and potential. Its practice is simple, since it utilizes the natural healing capacity of the psyche.

Psychoanalysis and Religion Atria Books

"Ordinarily, events that change our path are impersonal affairs, and yet extremely personal. My teacher, don Juan Matus, said this is guiding me as his apprentice to collect what I considered to be the memorable events of my life.... Don Juan described the total goal of the shamanistic knowledge that he handled as the preparation for facing the definitive journey: the journey that every human being has to take at the end of his life. He said that what modern man referred to vaguely as life after death was, for those shamans, a concrete region filled to capacity with practical affairs of a different order than the practical affairs of daily life, yet bearing a similar functional practicality. Don Juan considered that to collect the memorable in their lives was, for shamans, the preparation for their entrance into that concrete region, which they called the active side of infinity." In this book written immediately before his death, anthropologist and shaman Carlos Castaneda gives us his most autobiographical and intimately revealing work ever, the fruit of a lifetime of experience and perhaps the most moving volume in his oeuvre.

Fire from Within New Haven : Yale University Press

An approach to diet, which treats food as a powerful drug that when used wisely will bring benefits to health. It is based on the idea of controlling the hormones in the body by the food we eat to create hormonal balance, which then helps to burn fat, lose weight, fight disease and alleviate pains.

Don't touch this book! Routledge & Kegan Paul Books

You are surely now asking yourself why you are supposed to keep your hands off this book. Is it just a clever advertising strategy? Hardly so. As you know, two books of Jan van Helsing had been banned in Germany and Switzerland due to their highly controversial contents. And the mainstream media too barely lets a day go by without warning the populace about the ideas of "Germany's most dangerous author of specialized books". Now Jan van Helsing is once again shaking up someone's world view - yours! The advice, "Don't touch this book!" absolutely was meant to be taken seriously. Because after reading this book, it won't be easy for you to continue living your life the way you have been. Today, you could possibly still think, "Nobody told me this, so how was I supposed to know?" Today, you could also still hold the opinion that you, as an individual, have no say anyway and cannot change anything. However, after reading this book, this point of view will be history! If you are someone who is not interested in secrets, who has never felt the wish for internal and external wealth, who is unconcerned about success and health, then it will certainly be better if you follow the well-meant advice and keep your hands off this book. But if you have always felt that something isn't quite right with this world, if you are interested in the last secrets of this "enlightened" world, and if you are someone who wants to find out what else life might have in store, then this book is for you! But don't say you haven't been warned! Because Jan van Helsing will tell you about things and events that will give you a chance to have power over your own life and the power to let others partake in it. And those who have power also bear a huge responsibility. So now you have to make a choice: Do you want to continue being lived by others or has the time come for you to take charge of your own destiny? The decision is yours!
