A practical guide for achieving equitable outcomes From Equity Talk to Equity Walk offers practical guidance on the design and application of campus change strategies for achieving equitable outcomes. Drawing from campus-based research projects sponsored by the Association of American Colleges and Universities and the Center for Urban Education at the University of Southern California, this invaluable resource provides real-world steps that reinforce primary elements for examining equity in student achievement, while challenging educators to specifically focus on racial equity as a critical lens for institutional and systemic change. Colleges and universities have placed greater emphasis on education equity in recent years. Acknowledging the changing realities and increasing demands placed on contemporary postsecondary education, this book meets educators where they are and offers an effective design framework for what it means to move beyond equity being a buzzword in higher education. Central concepts and key points are illustrated through campus examples. This indispensable guide presents academic administrators and staff with advice on building an equity-minded campus culture, aligning strategic priorities and institutional missions to advance equity, understanding equity-minded data analysis, developing campus strategies for making excellence inclusive, and moving from a first-generation equity educator to an equity-minded practitioner. From Equity Talk to Equity Walk: A Guide for Campus-Based Leadership and Practice is a vital wealth of information for college and university presidents and provosts, academic and student affairs professionals, faculty, and practitioners who seek to dismantle institutional barriers that stand in the way of achieving equity, specifically racial equity to achieve equitable outcomes in higher education.

Of the approximately 7,000 languages in the world, at least half may no longer be spoken by the end of the twenty-first century. Languages are endangered by a number of factors, including globalization, education policies, and the political, economic and cultural marginalization of minority groups. This guidebook provides ideas and strategies, as well as some background, to

help with the effective revitalization of endangered languages. It covers a broad scope of themes including effective planning, benefits, wellbeing, economic aspects, attitudes and ideologies. The chapter authors have hands-on experience of language revitalization in many countries around the world, and each chapter includes a wealth of examples, such as case studies from specific languages and language areas. Clearly and accessibly written, it is suitable for non-specialists as well as academic researchers and students interested in language revitalization. This book is also available as Open Access on Cambridge Core. This comprehensive anthology provides an overview of current approaches, issues, and practices in the teaching of English to speakers of other languages. Containing a broad collection of articles published primarily in the last decade, it illustrates the complexity underlying many of the practical planning and instructional activities involved in teaching English. These activities include teaching English at elementary, secondary, and tertiary levels, teacher training, language testing, curriculum and materials development, the use of computers and other technology in teaching, as well as research on different aspects of second-language learning. Organized into 16 sections, the book contains 41 articles by well-known teacher trainers and researchers. Also included are two sets of discussion questions--a pre-reading background set and a post-reading reflection set. The anthology serves as an important resource for researchers, M.A. TESOL students, and teachers wishing to design a basic course in methodology.

With origins in the late 1960s, a 'quiet revolution' in land use planning and control has taken hold across North America. First seen as a manifestation of the environmental movement, the revolution prompted governments at several levels to attempt to protect critical areas and vulnerable natural resources. Many of the most dramatic and far-reaching shifts in planning regimes

have occurred in large-scale, environmentally unique or sensitive regions. It is these big places, looming large in the American and Canadian psyches, that are the focus of this edited volume. Each of the chapters reflects on the contemporary challenge of environmental and land use planning. Ten leading distinguished scholars here provide thoughtful analyses and critical insights into the processes and contexts shaping the innovative planning and policy schemes in seven regional landscapes.

*Innovative Strategies for Heritage Language Teaching* Routledge  
This new edition surveys the major approaches and methods in language teaching.

**Approaches and Methods in Language Teaching** Routledge  
This volume focuses on priorities for research in language pedagogy. The aim is to give an up-to-date overview of current thinking about important research issues such as the viability of large scale comparisons, the quantitative/qualitative research controversy, new trends in language testing and evaluation, and the role of different learning environments. In their discussions of these issues researchers from the US and from different countries in Europe show to what extent the priorities differ on both sides of the Atlantic Ocean.

*Narrative Psychiatry and Family Collaborations* is about helping families with complex psychiatric problems by seeing and meeting the families and the family members, as the best versions of themselves, before we see and address the diagnoses. This book draws on ten years of clinical research and contains stories about helping people, who are heavily burdened with psychiatric illnesses, to find ways to live a life as close as possible to their dreams. The chapters are organized according to ideas, values, and techniques. The book describes family-oriented practices, narrative collaborative practices, narrative psychiatric practices, and narrative agency practices. It also talks about

wonderfulness interviewing, mattering practices, public note taking on paper charts, therapeutic letter writing, diagnoses as externalized problems, narrative medicine, and family community meetings. Each chapter includes case studies that illustrate the theory, ethics, and practice, told by Nina Jørring in collaboration with the families and colleagues. The book will be of interest to child and adolescent psychiatrists and all other mental health professionals working with children and families.

"This book is a wonderful introduction to one of history's greatest figures: Marcus Aurelius. His life and this book are a clear guide for those facing adversity, seeking tranquility and pursuing excellence." —Ryan Holiday, bestselling author of *The Obstacle is the Way* and *The Daily Stoic*  
The life-changing principles of Stoicism taught through the story of its most famous proponent. Roman emperor Marcus Aurelius was the last famous Stoic philosopher of the ancient world. *The Meditations*, his personal journal, survives to this day as one of the most loved self-help and spiritual classics of all time. In *How to Think Like a Roman Emperor*, cognitive psychotherapist Donald Robertson weaves the life and philosophy of Marcus Aurelius together seamlessly to provide a compelling modern-day guide to the Stoic wisdom followed by countless individuals throughout the centuries as a path to achieving greater fulfillment and emotional resilience. *How to Think Like a Roman Emperor* takes readers on a transformative journey along with Marcus, following his progress from a young noble at the court of Hadrian—taken under the wing

of some of the finest philosophers of his day—through to his reign as emperor of Rome at the height of its power. Robertson shows how Marcus used philosophical doctrines and therapeutic practices to build emotional resilience and endure tremendous adversity, and guides readers through applying the same methods to their own lives. Combining remarkable stories from Marcus's life with insights from modern psychology and the enduring wisdom of his philosophy, *How to Think Like a Roman Emperor* puts a human face on Stoicism and offers a timeless and essential guide to handling the ethical and psychological challenges we face today.
