The most student-friendly, contextual, and inclusive survey is now personalized, digital, and mobile for today's students. Art History 5th edition continues to balance formal analysis with contextual art history in order to engage a diverse student audience. Authors Marilyn Stokstad and Michael Cothren—both scholars as well as teachers—share a common vision that survey courses should be filled with as much enjoyment as learning, and that they should foster an enthusiastic, as well as an educated, public for the visual arts. This revision is the strongest and most comprehensive learning program for measuring student progress and improving student success in attaining the outcomes and goals of the art history survey course. Not only does the text address four overarching goals of the survey course, the new MyArtsLab further develops and reinforces these outcomes and skills with market-leading learning tools such as personalized study plans for each student and multimedia assets geared towards addressing different learning styles and abilities, such as chapter audio, student videos, Closer Looks, architectural panoramas and much more. The end result is a complete learning program designed to increase students' success with a personalized, digital and a highly mobile learning experience. A better teaching and learning experience This program will provide a better teaching and learning experience—for you and your students. Here's how: Personalize Learning – MyArtsLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructors gauge individual and class performance. Go Digital — Pearson Custom eText provides instructors and students with a whole new online customizable learning experience. Go Mobile — Make learning easy and convenient with our on-the-go eTexts and key learning applications. Improve Critical Thinking — Key Learning Outcomes encourage students to think critically about visual arts as part of the larger world. Engage Students — Updated scholarship, MyArtsLab, and the readability of the text provide a wonderful engaging student experience. Support Instructors — With a wealth of online resources, instructors have videos, images, and teaching support materials to create a dynamic, engaging course. This Book a la Carte Edition is an unbound, three-hole punched, loose-leaf version of the textbook and provides students the opportunity to personalize their book by incorporating their own notes and taking the portion of the book they need to class — all at a fraction of the bound book price.

In this book the beauty and meaning of Byzantine art and its aesthetics are for the first time made accessible through the original sources. More than 150 medieval texts are translated from nine medieval languages into English, with commentaries from over seventy leading scholars. These include theories of art, discussions of patronage and understandings of iconography, practical recipes for artistic supplies, expressions of devotion, and descriptions of cities. The volume reveals the cultural plurality and the interconnectivity of medieval Europe and the Mediterranean from the

late eleventh to the early fourteenth centuries. The first part uncovers salient aspects of Byzantine artistic production and its aesthetic reception, while the second puts a spotlight on particular ways of expressing admiration and of interpreting of the visual.

While remaining current with new discoveries and scholarship, the Reissued Eighth Edition maintains its focus on the object, its manufacture, and its visual character, and continues to consider the contribution of the artist as a key element of analysis. Throughout, the authors engage students by weaving a compelling narrative of how art has changed over time in the cultures that Europe has claimed as its heritage. Also available with MyArtsLab® MyArtsLab for the Art History Survey course extends learning online, engaging students and improving results. Media resources with assignments bring concepts to life, and offer students opportunities to practice applying what they've learned. And Writing Space helps educators develop and assess concept mastery and critical thinking through writing, quickly and easily. Please note: this version of MyArtsLab does not include an eText. Janson's History of Art: The Western Tradition, Reissued Eighth Edition is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn. For enrollments of at least 25, the Pearson Custom Library allows you to create your own textbook by combining chapters from best-selling Pearson textbooks and by adding your own content, such as a guide to a local art museum, a map of monuments in your area, your syllabus, or a study guide you've created. Priced according to the number of chapters, a custom text may even save your students money.

In tune with today's readers—rich but never effete—this is the art history book of choice for a new generation. Presenting a broad view of art through the centuries, it sympathetically and positively introduces the works of all artists. This includes women, artists of color, and the arts of other continents and regions, as well as those of Western Europe and the United States. The new edition contains even more full-color reproductions, larger images, redrawn maps and timelines, and new photographs and higher quality images. Balancing both the traditions of art history and new trends of the present, Art History is the most comprehensive, accessible, and magnificently illustrated work of its kind. Broad in scope and depth, this beautifully illustrated work features art from the following

time periods and places: prehistoric art in Europe; ancient art of the Near East, Egypt, the Aegean, and Greece; Roman and Etruscan art; Jewish, early Christian, and Byzantine art; Islamic art; art from ancient India, China, Japan, and the Americas; medieval art in Europe; Romanesque, Gothic, and Renaissance art; Baroque art; art of the Pacific cultures; the rise of modern art; and the international Avant-Garde since 1945. An excellent reference work and beautiful edition for any visual artist.

A Soldier of the Legion Routledge

Ben's 13th year was when his family fell apart, but his 14th year is when his whole world, or more precisely, the whole world, collapses. He had thought 13 was his unlucky number, the year that Time turned its back on him, but he was wrong; that year, it was he who had turned his back on Time. The following year, the fury of the sun turns back Time for everyone in the world. On PF (Power Failure) Day, a huge electromagnetic surge from the sun destroys the power grids and civilization as we know it. Living in the middle of downtown Kansas City makes survival nearly impossible. Starvation, dehydration, disease, freezing temperatures, and out-of-control fires imperil the desperate population. After facing unimaginable losses, Ben finds hope for the future when he meets Sara, who has endured her own share of agonizing loss. But when a murderous gang threatens to take away everything Ben has left, they flee to a wilderness area of a large city park where they learn to live off the land for survival.

Ten years after the first volume, this book highlights the important contribution Raman spectroscopy makes as a non-destructive method for characterising the chemical composition of objects with archaeological and historical importance. The original book was ground-breaking in its concept, but the past ten years have seen some advancement into new areas, consolidation of some of the older ones and novel applications involving portable instrumentation, on site in museums and in the field. This new volume maintains the topic at the cutting edge, the Editors have approached prominent

contributors to provide case-studies sorted into themes. Starting with a Foreword from the British Museum Director of Scientific Research and an Introduction from the Editors, which offer general background information and theoretical context, the contributions then provide global perspectives on this powerful analytical tool. Aimed at scientists involved in conservation, conservators and curators who want to better understand their collections at a material level and researchers of cultural heritage.

Gardner's Art through the Ages: A Global History, Volume II Cambridge University Press

First published in 1951 Arnold Hauser's commanding work presents an account of the development and meaning of art from its origins in the Stone Age through to the Film Age. Exploring the interaction between art and society, Hauser effectively details social and historical movements and sketches the frameworks in which visual art is produced. This new edition provides an excellent introduction to the work of Arnold Hauser. In his general introduction to The Social History of Art, Jonathan Harris assesses the importance of the work for contemporary art history and visual culture. In addition, an introduction to each volume provides a synopsis of Hauser's narrative and serves as a critical guide to the text, identifying major themes, trends and arguments.

The adventure of a lifetime is only one click away! Sid Cooper, a fifth grade history buff, gets the chance of a lifetime to visit the Taj Mahal in the enchanted land of India. After a setback and a change in plans, Sid and his friend Raj are magically transported... 350 years into the past, to when the monument was still being built. Things get crazier when they encounter Emperor Shah Jahan, who is furious because precious gems crucial to the completion of the Taj Mahal are missing. The excitement of actually becoming a part of history fuels their sense of adventure and they decide to find the gem thief, but there's just one problem. Even if Sid and Raj find the missing gems needed to complete the Taj, how will they get back to the present? In Missing Gems of the Taj Mahal, author Lyndon Cerejo transports young readers on a magical journey. The sights and sounds of ancient India come alive in a beautiful tapestry that both educates and entertains. They can follow along as Sid and Raj try to save history - and themselves - while learning all about the history of the Taj Mahal, as well as the efforts to preserve this wonder of the modern world. Aside from fascinating recent pictures, Sid's journey comes to life with beautiful illustrations by fifth grader Ananya Chopra. She's a lot like Sid - friendly, adventurous, and unwilling to let anything stop her from pursuing her dreams. Your young reader will feel the same way after reading this book. And as the first book in the Mysteries in History series, they can learn about the Taj Mahal and one of the oldest civilizations on Earth before taking a journey across the globe in future books. So let your child open their minds and their hearts to this exciting tale... as a magical land of adventure awaits.

A Realist Theory of Art History Pearson College Division

Art Savvy is a systematic approach to understanding art. It gives you methods to assess a design and really see what the artist was doing. Unlike chaotic art writings, terms are clearly defined, categorized, organized and illustrated. It is designed to answer questions like: What things will allow me to understand art? What are the basic elements? What is concept art? Can you "read" a work of

abstract art? Visual literacy is the ability to interpret, negotiate, and make meaning from information presented in art work. Art Savvy gives you this. Defining Terms: Often art terms are not clearly defined, are used interchangeably or get mixed up with other types of analysis. For a thorough exploration of all aspects of art, photos of great works are referenced with color keyed notations to illustrate the 5 easy pieces: 1. Design Elements- Visual grammar, line, shape, form, mass etc. - definitions & how to see them. 2. Organization Principles- How elements are arranged and how this effects the concept. 3. Style- Relation to other groups of work and formulas for design. 4. Technique- How methods and materials are used to impact the concept. 5. Concept- What this piece about. What major themes and elements were used. Assessment techniques in each section of Art Savvy will train your eye to always see these 5 aspects of any artwork. It is not attempting judgments of relevance, philosophy, spiritual meanings and other ethereal aspects that a work may convey. This text poses the question: "What is the basic concept here?" but sticks to pure analysis and leaves all judgment to you and the experts. This field guide is a mini textbook on design principles that will let you understand art!

"The restless spirit of adventure which prompted the author, Mr George Manington, to enlist in the French Foreign Legion, at a later date called him post haste from London, and thus caused us, his friends, to promise to see the manuscript of "A Soldier of the Legion" through the press. Though well under forty years of age, he had been a student in France and Germany, a prospective doctor in Paris, a soldier in Algeria and Tonquin, a man of commerce in Indo-China, an interpreter, traveller, and journalist in South China, besides a participator in more fleeting occupations in many lands, including Japan and the Philippines. It was in the restful periods between these various enterprises

that this book was written." -Preface

Looking Like a Woman Cengage Learning

As the theoretical alignments within academia shift, this book introduces a surprising variety of realism to abolish the old positivist-theory dichotomy that has haunted Art History. Demanding frankly the referential detachment of the objects under study, the book proposes a stratified, multi-causal account of art history that addresses postmodern concerns while saving it from its errors of self-refutation. Building from the very basic distinction between intransitive being and transitive knowing, objects can be affirmed as real while our knowledge of them is held to be fallible. Several focused chapters address basic problems while introducing philosophical reflection into art history. These include basic ontological distinctions between society and culture, general and "special" history, the discontinuity of cultural objects, the importance of definition for special history, scales, facets and fiat objects as forms of historical structure, the nature of evidence and proof, historical truth and controversies. Stressing Critical Realism as the stratified, multi-causal approach needed for productive research today in the academy, this book creates the subject of the ontology of art history and sets aside a theoretical space for metaphysical reflection, thus clarifying the usually muddy distinction between theory, methodology, and historiography in art history.
