Children often behave like young explorers who love to infiltrate into every territory unknown to them. Many a times, questions regarding various phenomena around them crop up in their minds. Sometimes they get their answers and sometimes their queries go unanswered. Children's Knowledge Bank is an effort to answer all

those questions which might arise in a child's mind. Segregated in four independent volumes further sub-divided into different units, the series touches upon various realms of knowledge such as General Knowledge, Human Body, Universe, and so on. Each book is supported by a team of experts, which makes the series truly 'a tonic to the child's brain'.

In the post-Enron climate corporate executives are increasingly pressured to increase productivity and create an ethical, trustworthy organizational climate. 'Total Performance Scorecard' introduces a concept of organizational improvement and change management that combines the Balanced Scorecard model with the learning organization theory. The TPS contains a personal balanced scorecard, which is tied to an organizational balanced scorecard. These scorecards reflect not only performance goals but personal learning and growth goals as well, and the organizational scorecards also address organizational climate issues. Continuous improvement, change management, 360 degree feedback, and the learning organization are theories that the TPS makes use of in a very straightforward way. If implemented, the TPS enables a company to tie personal goals to organizational goals and tie personal performance to organizational

performance, all within a culture that supports integrity, personal growth, learning, and open communication. Nirvana!

The Holy Qur'an EBook version English Translation and Commentary - Detailed commentary with extensive references to standard authorities, both classical and modern - Comprehensive introduction deals with Islamic teachings and the collection and arrangement of the Holy Qur'an - Extensive Index Reviews "There is no other translation or commentary of the Holy Qur'an in the English Language to compete with Maulvi Muhammad Ali's Masterpiece." -- Al-Haj Hafiz Ghulam Sarwar, translator of the Holy Qur'an "To deny the excellence of Maulvi Muhammad Ali's translation, the influence for good it has exercised and its proselytizing utility would be to deny the existence of the light of the sun." -- Maulana Abdul Majid Daryabadi, leader of Orthodox Muslim opinion in India) ...has all the merits of what is desired in a translation." -- The

Anjuman Himayat-e-Islam, Lahore, Pakistan ..".By far the best text currently available in the English language...incontestably one of the finest interpretations of the scared scripture of Islam. I have no hesitation whatsoever in recommending this translation to students and others seeking to understand the essence and epitome of the Quranic message." -- Prof. T. Hargery, Director, African Studies, Northeast Missouri State University, Kirksville ..".an austere faithful translation in English...based on a close study of commentaries of the Qur'an - the work of my learned name-sake Maulvi Muhammad Ali of Lahore...The translation and the notes...all demonstrate the labour of love and devoted zeal." -- Late Maulana Muhammad Ali Jauhar of "The Comrade" "It is certainly a work of which any scholar might legitimately be proud." -- The Quest, London *Destiny Comic Collection, Volume I* Troll Communications

Ideas for 21st Century Education

This is the first comprehensive research monograph devoted to the use of augmented reality in education. It is written by a team of 58 world-leading researchers, practitioners and artists from 15 countries, pioneering in employing augmented reality as a new teaching and learning technology and tool. The authors

explore the state of the art in educational augmented reality and its usage in a large variety of particular areas, such as medical education and training, English language education, chemistry learning, environmental and special education, dental training, mining engineering teaching, historical and fine art education. Augmented Reality in Education: A New Technology for Teaching and Learning is essential reading not only for educators of all types and levels, educational researchers and technology developers, but also for students (both graduates and undergraduates) and anyone who is interested in the educational use of emerging augmented reality technology.
