AN INTRODUCTION TO SPECIAL EDUCATION

PHI Learning Pvt. Ltd.

This text is a classic in Indian political literature as the original author belongs to the Idealist school of great political thinkers such as T H Green and Bosanquet. It is a comprehensive treatise on basic structure of established political theories, be it Bosanquet's idealistic theory of the State to liberal and anti-idealist view, as expressed by L T Hobhouse, to the Marxian theory of the

State. The textbook follows an ideological approach where it rejects the attitude of those behaviouralists who place undue emphasis on methods, techniques and skills rather than on first principles and value judgements. It is developed for the undergraduate students of Political Science (Pass and honours courses). Aspirants of various competitive examinations such as Civil Services Examination and state public service commission examinations will also find the book extremely useful.
