"How did a 75-year old Star Trek actor become a social media juggernaut with nearly four million fans on Facebook? Why does everything he posts spread like wildfire across the ether, with tens to hundreds of thousands of likes and shares? And what can other sites, celebrities, brands and companies do to attain his stratospheric engagement levels, which hover near 100 percent while most languish in the single digits? In this candid, hilarious and informative book, Takei recounts his experiences on platforms such as Twitter, YouTube and Facebook, where fans and pundits alike have crowned him King. He muses about everything from the nature of viral sharing, to the taming of Internet trolls, to why Yoda, bacon and cats are such popular memes. Takei isn't afraid to tell it likes he sees it, and to engage the reader just as he does his legions of fans. Both provokingly thoughtful and wickedly funny, Oh Myyy! captures and comments upon the quirky nature of our plugged-in culture. With Takei's conversational yet authoritative style, peppered with some of his favorite images from the web, readers should be prepared to LOL, even as they can't help but hear his words in their heads in that unmistakable, deep bass."--Back cover.

Masters' Essays IGI Global

Streets Snippets started in 2016 as a project for my son's 8th grade English class in New York City. The original concept was to give the kids a snippet of conversation heard on the streets of the city, and have each student write an original story based upon that snippet. After my son graduated from middle school, the platform wasn't used for several years. It seemed logical to reopen the platform as an extension of the online curriculum development being created as an educational alternative during the COVID pandemic in 2020. When I first approached John Bapst High School in Bangor, Maine about using the Street Snippets platform for their 2020-2021 creative writing class, little did I know the diversity of ideas and formats that would come from this talented group of high schoolers. The first indication was when a request came through to submit a poem instead of a story. Sure, I thought, that would be fun. That was soon followed by requests for publishing songs, cartoon strips and images. The formats went far beyond the basic short story. What you will find in this book are the stories and projects created by the authors at John Bapst. We have kept the stories as written, laying them out as closely as possible to the format created by the authors. The stories in the book are arranged by snippet, with each story beginning with the snippet for that month. As you read through each chapter, you will find a diverse set of ideas, each original, each personal, that takes the snippet as its opening line and then has the story run its course. Each of the stories can be found in its original form on the Street Snippets site. If you like a particular story, you can leave a comment for the author when you visit the site. As the publisher of Street Snippets, I couldn't be prouder of the authors from John Bapst. I look forward to working with next year's students as we continue to encourage and promote the work of the next generation of authors.

It's handy having a dad who can fix just about anything. A young girl believes her father is the king of fixing things. But following the death of her mother, she discovers that broken hearts are not as easy to repair as damaged toys and cracked teapots. Together, she and her father find a way to glue back the pieces of her lives. The Fix-It Man is a poignant picture book that explores how a child can cope with the loss of a parent (in this case, the young girl's mother). Repairing damaged emotions is not as straightforward as gluing a broken kite back together or sewing up a torn toy. And grief affects all members of a family, with each responding in their own way to the loss. By sticking with her father, the young girl is able to strengthen her resilience and ability to cope with one of life's harshest experiences. The author was encouraged to seek publication for this story after receiving

the endorsement of several grief counsellors who work with children and who recognised the need for a book such as this.

U.S.-China Strategic Competition in South and East China Seas Science Examination

In an international security environment described as one of renewed great power competition, the South China Sea (SCS) has emerged as an arena of U.S.-China strategic competition. U.S.-China strategic competition in the SCS forms an element of the Trump Administration's more confrontational overall approach toward China, and of the Administration's efforts for promoting its construct for the Indo-Pacific region, called the Free and Open Indo-Pacific (FOIP). China's actions in the SCS in recent years—including extensive island-building and base construction activities at sites that it occupies in the Spratly Islands, as well as actions by its maritime forces to assert China's claims against competing claims by regional neighbors such as the Philippines and Vietnam—have heightened concerns among U.S. observers that China is gaining effective control of the SCS, an area of strategic, political, and economic importance to the United States and its allies and partners. Actions by China's maritime forces at the Japan-administered Senkaku Islands in the East China Sea (ECS) are another concern for U.S. observers. Chinese domination of China's near-seas region—meaning the SCS and ECS, along with the Yellow Sea—could substantially affect U.S. strategic, political, and economic interests in the Indo-Pacific region and elsewhere

Non-trial resolutions, often referred to as settlements, have been the predominant means of enforcing foreign bribery and other related offences since the entry into force of the OECD Anti-Bribery Convention 20 years ago. The last decade has seen a steady increase in the use of coordinated multi-jurisdictional non-trial resolutions, which have, to date, permitted the highest global amount of combined financial penalties in foreign bribery cases. This study is the first cross-country examination of the different types of resolutions that can be used to resolve foreign bribery cases.

The international contributors to this penetrating volume apply fresh perspectives and new methodologies to the Asian colonial experience, from the eighteenth century through the post World War II decolonization. Historiography, gender, military studies, finance, and issues of race and class all feature in this wide-ranging account of the diversity of human relationships forged by the colonial presence. For all of its features of structural oppression, colonialism was not a one-way communicative process, as this volume demonstrates through its analysis of the ever-shifting roles of colonizer and colonized.
