Inferential Statistics. refers to generalizing from a sample to a population, estimating

unknown population parameters, drawing conclusions, and making decisions. Applied Statistics in Business and Economics 5e Flashcards ... Applied Statistics in Business and Economics with Connect Plus (4th Edition) View more editions 89 % ( 962 ratings) for this book. Statistic is a single measure, reported as a number. Many different measures can be used to summarize

data sets. Consider, a sample data set that consist of heights of students in a university. The manufacturer of graduation gowns want to know how long to make the gowns; the best statistic for this would be average height of the students.
