Courtney Carver shows us the power of simplicity to improve our health, build more meaningful relationships, and relieve stress in our professional and personal lives. We are often on a quest for more—we give in to pressure every day to work more, own more, and do more. For Carver, this constant striving had to come to a stop when she was diagnosed with Multiple Sclerosis (MS). Stress was like gasoline on the fire of symptoms, and it became clear that she needed to root out

the physical and psychological clutter that were the source of her debt and discontent. In this book, she shows us how to pursue practical minimalism so we can create more with less—more space, more time, and even more love. Carver invites us to look at the big picture, discover what's most important to us, and reclaim lightness and ease by getting rid of all the excess things.

Monster in My Closet
University of Illinois Press
A literary and cultural history of the intimate space of the eighteenth-century closet—and how it fired the imaginations of Pepys, Sterne, Swift, and so many other writers
Long before it was a hidden storage space or a metaphor for queer and trans shame, the closet was one of the most charged settings in English architecture. This

private room provided seclusion for reading, writing, praying, dressing, and collecting—and for talking in select company. In their closets, kings and duchesses shared secrets with favorites, midwives and apothecaries dispensed remedies, and newly wealthy men and women expanded their social networks. In *The Closet*, Danielle Bobker presents a literary and cultural history of these sites of extrafamilial intimacy, revealing how, as they proliferated both in buildings and in books,

closets also became powerful symbols of the unstable virtual intimacy of the first mass-medium of print. Focused on the connections between status-conscious—and often awkward—interpersonal dynamics and an increasingly inclusive social and media landscape, *The Closet* examines dozens of historical and fictional encounters taking place in the various iterations of this room: courtly closets, bathing closets, prayer closets, privies, and the

"moving closet" of the coach, among many others. In the process, the book conjures the intimate lives of well-known figures such as Samuel Pepys and Laurence Sterne, as well as less familiar ones such as Miss Hobart, a maid of honor at the Restoration court, and Lady Anne Acheson, Swift's patroness. Turning finally to queer theory, *The Closet* discovers uncanny echoes of the eighteenth-century language of the closet in twenty-first-century coming-out

narratives. Featuring more than thirty illustrations, *The Closet* offers a richly detailed and compelling account of an eighteenth-century setting and symbol of intimacy that continues to resonate today. Wonkenstein Abbott Press Twelve-year-old underachiever Rob has better things to do than read. His parents give him lots of books but most of them just end up in the messy pile of junk he keeps locked in his closet that once doubled as a makeshift science

laboratory. One day, Rob hears weird sounds coming from behind his closet door and discovers a funny little creature that seems to be a cross between two characters from books he's tried to ignore. He names him Wonkenstein. Keeping track of "Wonk" is hard work. But with help from friends and a little off-the-wall magic, Rob and Wonkenstein's crazy adventures set the stage for great laughs . . . and Rob might even read some good books along the way.

Before the 1969 Stonewall Riots, LGBTQ life was dominated by the negative image of “the closet”—the metaphorical space where that which was deemed “queer” was hidden from a hostile public view. Literary studies of queer themes and characters in crime fiction have tended to focus on the more positive and explicit representations since the riots, while pre-Stonewall works are thought to

reference queer only negatively or obliquely. This collection of new essays questions that view with an investigation of queer aspects in crime fiction published over eight decades, from the corseted Victorian era to the unbuttoned 1960s. I stopped believing in monsters long ago. But I knew I wasn't imagining things when I found one in my kitchen baking muffins. I'd seen him before: lurking in my closet, scaring the crap out of my five-year-old self. Turns out that was a misunderstanding, and

now Maurice needs a place to stay. How could I say no? After all, I've always been a magnet for the emotionally needy, and not just in my work as a wedding planner. Being able to sense the feelings of others can be a major pain. Don't get me wrong, I like helping people—and non-people. the supernatural. I must learn to focus my powers and defeat the demon before he snacks on another innocent woman and comes looking for the main course... 77,000 words
