Whittington/Pany is our  
market leader in the  
auditing discipline.

While most textbooks  
use a cycles approach,  
Whittington/Pany  
enlists a balance sheet  
approach - making it

particularly straightforward and user-friendly in addressing the auditing profession's risk-based approach for financial statement audits as well as for integrated audits of financial statements and internal control. The 18th edition covers the latest auditing standards to meet the needs of the current marketplace. The authors are well connected – both Ray Whittington and Kurt Pany served as members of the Audit Standards Board, and Whittington recently completed his term as President of the Auditing Section of the American Accounting Association.
