This tale of mind control, the use of fear to manipulate vulnerable people, and final escape from a suffocating cult environment is a revealing exposé of a secretive contemporary sect, as well as a true psychological thriller. Diane Wilson spent twenty-five precious years of her life, first becoming indoctrinated by the dogma of the Watchtower Society, and then struggling to free herself from its pervasive, intimidating clutches. In this probing, brutally honest assessment, Wilson describes how a childhood of psychological abuse and lack of self-confidence rendered her vulnerable to the seductive doctrines of the Jehovah's Witnesses. Yet as time went on and the society demanded rigid control over every aspect of her life, even her every thought, Wilson began to

rebel. Her gradual awakening, at first unconsciously through physical and psychological ailments, and then consciously as a caring therapist helped her rediscover her true self, is a fascinating story. What she reveals about the goings-on within the closed Watchtower Society will shock the average person who assumes the polite, well-dressed people who pass out leaflets are much like any other conservative religious group. Wilson contends that membership in the Jehovah's Witnesses requires obedience bordering on psychological enslavement and complete suppression of individuality. Her engrossing memoir will be of great interest to former Witnesses, students of cult phenomena, and anyone who has ever had contact with Jehovah's Witnesses.

A Living Witness: The Journal Writing of My Life, Healing, and God is an autobiographical memoir I wrote from September 2001 until December 2001. It chronicles not only my internal struggles, thoughts, and emotions but opened my eyes about the society I live in that shaped my individuality. "Someone was hurt before you; wronged before you; beaten before you; humiliated before you; raped before you; yet someone survived."

In these letters, de Beauvoir tells Sartre everything, tracing the extraordinary complications of their triangular love life; they reveal her not only as manipulative and dependent, but also as vulnerable, passionate, jealous, and committed.

Larry R. Helyer embarks on a comprehensive study of a much neglected figure in New Testament studies. Reconstructing Peter's life, theology and legacy from evidence in 1 and 2 Peter, the Gospels, Acts, Paul's letters and texts from the early church, Helyer renders a great service for future students of the New Testament.

To: Editor, Atlanta Journal-Constitution I believe your newspaper has been missing something for the last two decades. In fact it was the original reason I became a loyal subscriber in the first place: the thrice-weekly columns of my all-time favorite writer, the late, great Lewis Grizzard. Trust me when I say that as a loyal University of Florida graduate it's difficult for me to admit there is actually something good that came out of the University of Georgia, and that something would be Lewis Grizzard. Born and raised in nearby Moreland (I reside in Peachtree City, Georgia), Grizzard had a major influence on my writing style. This is my sixth self-published book; one of them sold so well a publisher came a-calling to buy the rights to it. Now I'd like to take my writing to the next level. That's where you come in. Consider this book as both my job application and resume for a position on your editorial staff. Everything here on the back cover is my cover letter to you. I leave you with one simple question: When do I start?

A New Witness for God is a three volume treatise by B. H. Roberts, one of the leaders in the Church of Jesus Christ of Latter-day Saints, who wrote this work as a recapitulation of 75 years of the existence of "Mormonism" and "Mormon Church." The author's purpose was to prove that the world was in need of a new God's witness, and that Joseph Smith, a great modern prophet, was that witness. Dividing the work in thesis he firstly proves that the world was in necessity of a New Witness; then moves on to the state of the Christian church and how it was destroyed and there was an apostasy from the Christian religion; third thesis deals with the Scriptures declaring that the Gospel will be restored to the Earth; final thesis suggest that Joseph Smith is the New Witness for God who re-established the Church of Jesus Christ on Earth. Following these theses is the study of the Book of Mormon.

The Bible heralds the good news that God is dispensing Himself into His believers for their daily enjoyment. This enjoyment issues forth from abiding in the Lord and enjoying His life. This crucial truth is the subject of the apostle John's writings in the New Testament. It is mysterious, but it can be experienced!

This is a newly revised edition of one of the standard introductory preaching textbooks on the market today. Beginning with a solid theological basis, veteran preacher and best-selling author Thomas G. Long offers a practical, step-by-step guide to writing a sermon. Long centers his approach around the biblical concept of witness. To be a preacher, Long posits, is to be a witness to God's work in the worldone who sees before speaking, one whose task is to "tell the truth, the whole truth, and nothing but the truth about what is seen." This updated edition freshens up language and anecdotes, contains an extensive new analysis of the use of multimedia and its impact on preaching, and adds a completely new chapter on plagiarism in preaching. Included for the first time are four complete sermons, with Long's commentary and analysis. The sermons were written and originally preached by Barbara Brown Taylor, Cleophus J. LaRue, Ginger Gaines-Cirelli, and Edmund Steimle. With this third edition, The Witness of

Preaching reaffirms itself as the essential resource for seminary students as well as new and experienced preachers.

In recent years, historical witnessing has emerged as a category of "museum object." Audiovisual recordings of interviews with individuals remembering events of historical importance are now integral to the collections and research activities of museums. They have also become important components in narrative and exhibition design strategies. With a focus on Holocaust museums, this study scrutinizes for the first time the new global phenomenon of the "musealization" of the witness to history, exploring the processes, prerequisites, and consequences of the transformation of video testimonies into exhibits.

In this scientifically informed account of the changes occurring in

the world over the last century, award-winning broadcaster and natural historian shares a lifetime of wisdom and a hopeful vision for the future. See the world. Then make it better. I am 93. I've had an extraordinary life. It's only now that I appreciate how extraordinary. A Life on Our Planet is my witness statement, and my vision for the future. It is the story of how we came to make this, our greatest mistake -- and how, if we act now, we can yet put it right. We have one final chance to create the perfect home for ourselves and restore the wonderful world we inherited. All we need is the will do so.

Petting Tigers is not a gritty, edgy "trauma memoir." Nor is it a shocking expose of a corrupt religious sect. It is the story of what can happen when a child's dreams are stolen, and the agonizing experience of watching as one's own light is snuffed out. It's about having one's mind washed away and replaced with hypnotic rote beliefs that are self-destructive and make no sense in the real world. Petting Tigers is a story about overcoming huge obstacles when you think you have no resources, internal or external to do so - and about reclaiming your life when everything around you tells you that it's too late. Petting Tigers is about imagining and achieving a way out and the slow, clumsy steps that inevitably follow a rebirth.
