The stunning success of *Reviving Ophelia*, Mary Pipher's landmark book, showed a true and pressing need to address the emotional lives of girls. Now, finally, here is the book that answers our equally

timely and critical need to understand our boys. In *Raising Cain*, Dan Kindlon, Ph.D., and Michael Thompson, Ph.D., two of the country's leading child psychologists, share what they have learned in more than thirty-five years of combined experience working with boys and their families. They reveal a nation of boys who are hurting—sad, afraid, angry, and silent. Statistics point to an alarming number of young boys at high risk for suicide, alcohol

and drug abuse, violence and loneliness. Kindlon and Thompson set out to answer this basic, crucial question: What do boys need that they're not getting? They illuminate the forces that threaten our boys, teaching them to believe that "cool" equals macho strength and stoicism. Cutting through outdated theories of "mother blame," "boy biology," and "testosterone," Kindlon and Thompson shed light on the destructive emotional

training our boys receive—the emotional miseducation of boys. Through moving case studies and cutting-edge research, *Raising Cain* paints a portrait of boys systematically steered away from their emotional lives by adults and the peer “culture of cruelty”—boys who receive little encouragement to develop qualities such as compassion, sensitivity, and warmth. The good news is that this doesn't have to happen. There is much we can do to prevent it. Kindlon and Thompson make a compelling case that emotional literacy is the most valuable gift we can offer our sons, urging parents to recognize the price boys pay when we hold them to an impossible standard of manhood. They identify the social and emotional challenges that boys encounter in school and show how parents can help boys cultivate emotional awareness and empathy—giving them the vital connections and support they need to navigate the social pressures of youth. Powerfully written and deeply felt, *Raising Cain* will forever change the way we see our sons and will transform the way we help them to become happy and fulfilled young men.

How Cold War America came to attribute human evolutionary success to our species' unique capacity for murder After World War II, the question of how to define a universal human nature took on new urgency. *Creatures of Cain* charts the rise and precipitous fall in Cold War America of a theory that attributed man's evolutionary success to his unique capacity for murder. Drawing on a wealth of archival materials and in-depth interviews, Erika Lorraine Milam reveals how the scientists who advanced this “killer ape” theory capitalized on an expanding postwar market in intellectual paperbacks and widespread faith in the power of science to solve humanity's problems, even to answer the most fundamental questions of human identity. The killer ape theory spread quickly from colloquial science publications to late-night television, classrooms, political debates, and Hollywood films. Behind the scenes, however, scientists were sharply divided, their disagreements centering squarely on questions of race and gender. Then, in the 1970s, the theory unraveled

altogether when primatologists discovered that chimpanzees also kill members of their own species. While the discovery brought an end to definitions of human exceptionalism delineated by violence, Milam shows how some evolutionists began to argue for a shared chimpanzee-human history of aggression even as other scientists discredited such theories as sloppy popularizations. A wide-ranging account of a compelling episode in American science, *Creatures of Cain* argues that the legacy of the killer ape persists today in the conviction that science can resolve the essential dilemmas of human nature.

The Haunted Land Wm. B. Eerdmans Publishing

From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road* • In this taut, chilling story, Lester Ballard—a violent, dispossessed man falsely accused of rape—haunts the hill country of East Tennessee when he is released from jail. While telling his story, Cormac McCarthy depicts the most sordid aspects of life with dignity, humor, and characteristic lyrical brilliance. “Like the novelists he admires-

Melville, Dostoyevsky, Faulkner-Cormac McCarthy has created an imaginative oeuvre greater and deeper than any single book. Such writers wrestle with the gods themselves." —Washington Post Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*. [A Children's Bible: A Novel](#) Vintage

The Mark of Cain makes available for the first time the accumulated psychoanalytic understanding of the psychopathic mind. Editor Reid Meloy, a leading authority on the psychology of the psychopath, has brought together in a single collection the most historically important psychoanalytic papers on the psychopath and delineated their continuing relevance to contemporary understanding. According to Meloy, two theoretical traditions flow into the psychoanalytic understanding of psychopathy. The first tributary focuses on the early development of the psychopath in order to illuminate how a profound alteration in self-regard leads both to a denigration of the other and to an impulsive search for gratification in the present. The second tributary seeks to locate the psychopathic miscarriage of human potentiality within analytic theories

of personality structure and clinically grounded differential diagnosis. Meloy presents the major contributions associated with both of these traditions. Included within this body of literature are the original formulations of concepts that have long since become part of the psychoanalytic nomenclature: the "affectionless" juvenile offender, the diagnostic significance of "affect hunger," the behavioral consequences of "superego lacunae," the recourse to promiscuous identification in "the impostor," and the paradoxically lethal lure of "malignant narcissism." Of special interest are Meloy's historical notes to each chapter and two section introductions, the latter major essays in their own right. The explosion of empirical research on psychopathy over the past two decades masks the fact that much contemporary work in this area is grounded in the clinical formulations of leading psychoanalysts of the twentieth century. The Mark of Cain rescues this intimate understanding of the inner world of the psychopath and thereby contributes to clinical realism in the face of deception, manipulation, exploitation, and even frank dangerousness.

Killing Monsters BRILL

Counsels parents and educators on how to best safeguard the interests of children with behavioral, emotional, and social challenges, in a guide that identifies the misunderstandings and practices that are contributing to a growing number of student failures.

Raising Cain Princeton University Press

How does one forgive an international political transgression as deep as genocide or apartheid? Forgiveness is often conceived of as an element of personal morality, and even at that it is difficult. This book argues that it is also an essential part of political ethics, especially when dealing with collective wrongdoing by political regimes. In the past, a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change. Here, Mark R. Amstutz takes a restorative justice approach, calling for nations to account for crimes through truth commissions, public apology and repentance, reparations, and ultimately forgiveness and the lifting of deserved penalties. The distinctive feature of

forgiveness is the balance it strikes between backward-looking accountability and forward-looking reconciliation. The *Healing of Nations* combines a theory of the role of forgiveness in public life with four key case studies that test this ethic: Argentina, Chile, Northern Ireland, and South Africa. Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting.

Shadow of the Batgirl Basic Books

Is it possible that the soldiers of mass atrocities--Adolph Eichmann in Nazi Germany and Alfredo Astiz in Argentina's Dirty War, for example--act under conditions that prevent them from recognizing their crimes? In the aftermath of catastrophic, state-sponsored mass murder, how are criminal courts to respond to those who either gave or carried out the military orders that seem unequivocally criminal? This important book addresses Hannah Arendt's controversial argument that perpetrators of mass crimes are completely unaware of their wrongdoing, and therefore existing criminal laws do not adequately address these defendants. Mark Osiel applies Arendt's ideas about the kind of people

who implement bureaucratized large-scale atrocities to Argentina's Dirty War of the 1970s, and he also delves into the social conditions that could elicit such reprehensible conduct. He focuses on Argentine navy captain Astiz, who led one of the most notorious abduction squads, to discover how he and other junior officers could justify the murders of more than ten thousand suspected "subversives." Osiel concludes that legal stipulations labeling certain deeds as manifestly illegal are indefensible. He calls for a significant change in the laws of war to preserve both justice and the possibility of dialogue between factions in such sharply divided societies as Argentina. Osiel's proposals have profound implications for future prosecutions of Pinochet's lieutenants, Milosevic's henchmen, the willing executioners of Rwanda and East Timor, and other perpetrators of state-endorsed murder and torture.

Lost Boys DC Comics

In an exquisitely chilling debut novel, four children unravel the mystery of a family curse — and a ghostly creature known in folklore as Long Lankin. When Cora and her younger sister, Mimi, are sent to stay

with their elderly aunt in the isolated village of Byers Guerdon, they receive a less-than-warm welcome. Auntie Ida is eccentric and rigid, and the girls are desperate to go back to London. But what they don't know is that their aunt's life was devastated the last time two young sisters were at Guerdon Hall, and she is determined to protect her nieces from an evil that has lain hidden for years. Along with Roger and Peter, two village boys, Cora must uncover the horrifying truth that has held Bryers Guerdon in its dark grip for centuries — before it's too late for little Mimi. Riveting and intensely atmospheric, this stunning debut will hold readers in its spell long after the last page is turned.

Discusses how natural it is to feel contradictory emotions; presents situations, such as the first day of school, the birth of a sibling, or a move to a new house; and identifies two emotions each event is likely to elicit.

Eve's Children Society of Biblical Lit

Have you ever wondered, "If God is real, then why doesn't He make it more obvious? If He really wants us to believe in

Him, then why doesn't He make it easier for us to see him?" It's easy to read the Bible and think, "If only God would show up for us today the way He showed up for His people back then." If you have ever felt this way, welcome to the book of Esther. "The God of Great Reversals" was written to shed light on the Gospel story woven throughout the only book of the Bible that never mentions God's name. In it you will find that even in the darkest days, God never stops working to keep His promises and to rescue His people. Ultimately, the reversals in the book of Esther point us forward to the greatest reversal of all when God used the death of His only Son to bring about the salvation of all his people. It is only this great reversal that is able to bring us hope even when we don't understand where God is or what He is doing.

Taming Gaming Harper Collins

Current debates over a host of issues, particularly those relating to homosexuality, have left the 70-million-member Anglican Communion straining to understand what it means to be a communion -- and even wondering whether life as a communion is possible. In

this timely book two priest-scholars, Ephraim Radner and Philip Turner, examine the future of the concept of "communion" as a viable church structure, tracing its historical development as a self-conscious Anglican third way between Protestant congregationalism and Catholic centralism. In examining this essential issue, Radner and Turner relate the specific challenges of the U.S. Episcopal Church to the unity of the worldwide communion, touching on such divisive subjects as the place of Scripture, liberal theology, and episcopal authority. Their discussion is at once measured and impassioned, erudite and practical. Compelling reading for Episcopalians and those in other traditions who are searching for a truly Christian approach to these thorny topics, *The Fate of Communion* is a forthright, direct examination of a church in turmoil.

Sorrowland Basic Books

A TIME 100 Must-Read Book of 2021 A New York Times Best Science Fiction and Fantasy Book of 2021 The Stonewall Book Award winner of 2022 Named a Best Book of 2021 by NPR, The New York Public Library, Publishers Weekly and more! A

triumphant, genre-bending breakout novel from one of the boldest new voices in contemporary fiction. Vern—seven months pregnant and desperate to escape the strict religious compound where she was raised—flees for the shelter of the woods. There, she gives birth to twins, and plans to raise them far from the influence of the outside world. But even in the forest, Vern is a hunted woman. Forced to fight back against the community that refuses to let her go, she unleashes incredible brutality far beyond what a person should be capable of, her body wracked by inexplicable and uncanny changes. To understand her metamorphosis and to protect her small family, Vern has to face the past, and more troublingly, the future—outside the woods. Finding the truth will mean uncovering the secrets of the compound she fled but also the violent history in America that produced it. Rivers Solomon's *Sorrowland* is a genre-bending work of Gothic fiction. Here, monsters aren't just individuals, but entire nations. It is a searing, seminal book that marks the arrival of a bold, unignorable voice in American fiction.

Double-dip Feelings Routledge

Kick Lannigan, 21, is a survivor. Abducted at age six in broad daylight, the police, the public, perhaps even her family assumed the worst had occurred. And then Kathleen Lannigan was found, alive, six years later. In the early months following her freedom, as Kick struggled with PTSD, her parents put her through a litany of therapies, but nothing helped until the detective who rescued her suggested Kick learn to fight. Before she was thirteen, Kick learned marksmanship, martial arts, boxing, archery, and knife throwing. She excelled at every one, vowing she would never be victimized again. But when two children in the Portland area go missing in the same month, Kick goes into a tailspin. Then an enigmatic man Bishop approaches her with a proposition: he is convinced Kick's experiences and expertise can be used to help rescue the abductees. Little does Kick know the case will lead directly into her terrifying past...

Heartsick Candlewick Press

Annotation Fifteen essays from biblical scholars consider the reception of the biblical stories of Cain, Abel, and Seth in various Jewish and Christian traditions. They examine early rewritings and

interpretations of these stories both within mainstream and more marginal or sectarian groups. Three essays examine how the stories were re-used in modern fiction, including Steinbeck's . The papers were originally presented at a symposium held at the U. of Groningen in 2001.

Annotation 2004 Book News, Inc., Portland, OR (booknews.com).

Cain Rowman & Littlefield

From the renowned author of *Possession*, *The Children's Book* is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid, blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for their children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the soldier who directs what will become

the Victoria and Albert Museum; Olive's brother-in-law Basil Wellwood, an officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose whether to follow the roles expected of them or stand up to their parents' "porcelain socialism." Olive's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to fight for votes for women. Her son Tom, sent to an upper-class school, wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until *The Children's Book* becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame's *The Wind In the Willows*, not long after Alice's *Adventures in Wonderland*. At a time when children in England suffered deprivation by the millions, the concept of childhood was

being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off into the unremitting destruction of the Great War, the reader is left to wonder who the real children in this novel are. The Children's Book is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a gripping, personal novel about parents and children, life's most painful struggles and its richest pleasures. No other writer could have imagined it or created it.

Long Lankin Yale University Press

An honest judge in Medellin, a Maoist guerilla of Peru's Shining Path, the fair-haired Angel of Death in Argentina's Dirty War, the pool-party rich of El Salvador, the disabused revolutionaries of Nicaragua, and the ordinary Chileans who became silent partners in Pinochet's dictatorship--these people live in Latin America, but their stories illuminate the human face of violence all over the world. Tina Rosenberg spent five years trying to understand their world and learning to live

with these "children of Cain." Their stories are disturbing precisely because these people are not monsters; the faces in Children of Cain are not those of strangers.

Children's Bibles are often the first encounter people have with the Bible, shaping their perceptions of its stories and characters at an early age. The material under discussion in this book not only includes traditional children's Bibles but also more recent phenomena such as manga Bibles and animated films for children. The book highlights the complex and even tense relationship between text and image in these Bibles, which is discussed from different angles in the essays. Their shared focus is on the representation of "others"—foreigners, enemies, women, even children themselves—in predominantly Hebrew Bible stories. The contributors are Tim Beal, Ruth B. Bottigheimer, Melody Briggs, Rubén R. Dupertuis, Emma England, J. Cheryl Exum, Danna Nolan Fewell, David M. Gunn, Laurel Koepf, Archie Chi Chung Lee, Jeremy Punt, Hugh S. Pyper, Cynthia M. Rogers, Mark Roncace, Susanne Scholz, Jaqueline S. du Toit, and Caroline Vander Stichele.

Mass Atrocity, Ordinary Evil, and Hannah Arendt Oxford University Press

This is a unique work filled with passion and violence, with humanity and

inhumanity. It is the story of the Northern Ireland troubles told through the lives of those who have suffered and the deaths which have resulted from the conflict.

The Lost Books of the Bible and The Forgotten Books of Eden Nelson Bibles
No one can read far in the Old Testament without encountering numerous acts of violence that are sanctioned in the text

and attributed to both God and humans. Over the years, these texts have been used to justify all sorts of violence: from colonizing people and justifying warfare, to sanctioning violence against women and children. Eric Seibert confronts the problem of "virtuous" violence and urges people to engage in an ethically responsible reading of these troublesome texts. He offers a

variety of reading strategies designed to critique textually sanctioned violence, while still finding ways to use even the most difficult texts constructively, thus providing a desperately needed approach to the violence of Scripture that can help us live more peaceably in a world plagued by religious violence. --from publisher description
