“Much is said and written on the subject of visualization, but little has been told about how to visualize. My purpose is to tell how, to explain the proven methods and to give you the secrets of successful visualization. “These teachings, based upon natural laws, are simple. If you will follow them faithfully, the results may seem little short of miraculous. “Whether you develop genius, or near genius, or remain just where you are, depends entirely upon you.

Wonders have been performed, seeming miracles wrought, through visualization. It is a God-given power available to anyone. Its effectiveness lies in its individual application. “As you are given the principles, study them carefully. Absorb everything contained in each lesson given. Then start immediately to put into effect the things you have learned. Apply. Start visualizing the material things you desire. See mentally your new home or car, the money you need, or whatever it is

that you earnestly wish to possess or achieve.”—Andrew Wiehl

Many people have been trying to explain the power of the subconscious mind through books and seminars for more than a

century. Different writers approached this subject at different angles and most of them did not achieve their expected results as most readers did not really understand the concept or were not really convinced with what they have read. This book comes with a unique intention of helping you to achieve anything you really want and equally important, getting rid of anything you do not want. This is done by optimizing your subconscious mind power through The Mindynamics System.

During those years of application and practice, I have managed to find out more about the subconscious mind: what works and what doesn't; and why. I have also created The Mindynamics System that explains clearly why and how the subconscious mind works. The theories and techniques I have covered in this book do aligned with what "The Secret" and "The Law of Attraction" teach. There may be some differences in techniques and perspectives; but the

principles are the same. I have found the codeword for motivation and I am now sharing with you. With the new challenges in the 21st century, I believe the codeword for motivation — The Subconscious Mind will be the deciding factor for success as the subconscious mind does magic and create miracles.
