 Polymer Science and Technology, Second  
 Edition systematically reviews both the  
 current state of polymer science and  
 technology and emerging advances in the  
 field. Leading polymer specialist Joel R.  
 Fried offers thoroughly updated coverage  
 of both polymer processing principles and  
 the latest polymer applications in a wide  
 range of industries -- including medicine,  
 biotechnology, chemicals, and  
 electronics. Polymer Science and  
 Technology: Fried, Joel R ... Solution  
 polymerization is a method of industrial  
 polymerization. In this procedure, a  
 monomer is dissolved in a non-reactive  
 solvent that contains a catalyst or initiator.  
 The reaction results in a polymer which is  
 also soluble in the chosen solvent. Heat  
 released by the reaction is absorbed by  
 the solvent, and so the reaction rate is  
 reduced. Solution polymerization -
