Politics, Third Edition Palgrave Macmillan

The Palgrave Macmillan Dictionary of Diplomacy Springer
Nature

The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies.

Kierkegaard on Politics Springer

"This new edition is an outstanding update of what I believe to be the best textbook for introducing undergraduates to global sociology. With a rich array of new examples, clear definitions of concepts and crisp theoretical summaries, it offers students a vision for participating as engaged citizens in a diverse, interdependent and sustainable world."— Paul Lubeck, University of California, Santa Cruz
The first, pioneering editions of *Global Sociology* put global issues at the heart of sociological discussion. Much has changed in the world since then; recessions, revolutions, social media, and new migration networks have developed as causes and symptoms of an increasingly global society. This new edition is fully updated to explore just how these global issues can help us to understand sociology in our world today. Making clear connections between everyday experiences and global processes at each step, the third edition carefully guides readers through essential and cutting-edge topics in the discipline, from family and feminism to environment and economy. Features such as biography boxes on key thinkers in the field, a thorough glossary, and review questions introduce and reinforce the book's core ideas. With clear writing and infectious enthusiasm for its topic, *Global Sociology* remains the authority on

global issues in sociology for students at a variety of skill levels. Robin Cohen is Emeritus Professor of Development Studies and former director of the International Migration Institute at the University of Oxford, UK. Paul Kennedy is Visiting Reader in Sociology and Global Studies at Manchester Metropolitan University, UK.

The Impossible Body Macmillan International Higher Education
Sixty years after its invention, the operational system of the European Union remains little-understood. The 'Community Method' provides a comprehensive empirical analysis of the functioning and achievements of the EU.

The Basics of American Government Routledge

Exploring British Politics is a concise, comprehensive and accessible guide to the subject. Fully updated and revised, the new edition covers the 2015 general election and recent developments in the role of political parties, changes in party ideology, the UK's relationship with the European Union, and the future of the UK itself. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes – the health of British democracy and the transition from traditional models of government to more flexible forms of 'governance'. The special features of the new edition include: Comprehensive analysis of the 2015 general election and the 2014 referendum on Scottish independence A focus on topical controversies, such as the relationship between politicians and the media and the arguments for and against Human Rights legislation Explanation of the ways in which British governments have responded to dramatic social change, and to serious economic challenges in an era of 'globalisation' Extensive guides to further reading at the end of each chapter Whilst it provides the essential historical background for a full understanding of British politics, contemporary issues are to the fore throughout and readers are encouraged to scrutinise what is often taken for granted and to develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, *Exploring British Politics* is the ideal undergraduate text.

Contemporary Political Theory ANU E Press

This study explores the dynamic relationship between science, numbers and politics. What can scientific evidence realistically do

in and for politics? The volume contributes to that debate by focusing on the role of "numbers" as a means by which knowledge is expressed and through which that knowledge can be transferred into the political realm. Based on the assumption that numbers are constantly being actively created, translated, and used, and that they need to be interpreted in their respective and particular contexts, it examines how numbers and quantifications are made 'politically workable', examining their production, their transition into the sphere of politics and their eventual use therein. Key questions that are addressed include: In what ways does scientific evidence affect political decision-making in the contemporary world? How and why did quantification come to play such an important role within democratic politics? What kind of work do scientific evidence and numbers do politically?

An Introduction Routledge

This collection recalibrates the study of political psychology through detailed and much needed analysis of the discipline's most important and hotly contested issues. It advances our understanding of the psychological mechanisms that drive political phenomena while showcasing a range of approaches in the study of these phenomena.

Reappraising State-Owned Enterprise Bloomsbury Publishing

Examining the global significance of the freight container, with particular emphasis on the perspectives of the US and China, *Globalization Contained* considers the implications of the freight container as an agent of change for the future of the global economy and global security.

The 'Community Method' Routledge

Over the last 20 years of the 20th century, change in China has been breathtaking. Reform has affected every facet of life and has left no policy and institution untouched. How did China move from being one of the most isolated nations to being a major international player? Written by a leading academic authority who has also lived and worked in China, this text provides a thorough introduction to these changes and to all aspects of politics and governance in post-Mao China.

Doing Politics Springer Nature

This volume compares the role played by State intervention in the

economy in the United Kingdom and Italy. In both nations, the State played an important role as Entrepreneur in the 20th century but with different aims in each country. The crisis of 2008/2009 compels us to reconsider State intervention in the economy as a tool that cannot be undervalued.

British Politics Springer

This tenth part of Robert Leeson's collaborative biography of Friedrich August von Hayek explores Hayek's thought on the free market and democracy. Using an unparalleled array of archival materials, Leeson reconstructs Hayek's thinking as the notorious economist and his acolytes set about reshaping the post-war economic order. Darker areas of Hayek's thought are also explored, including the influence of eugenics on his thought and his support for radical right-wing dictatorships in South America. Leeson concludes this volume with a collection of chapters written by eminent scholars of Hayek. These chapters cover subjects as diverse as Hayek's influence on scholars of Darwinian evolution, his views on psychology, and cultural evolution.

The Irish Free State, 1922-37 Macmillan International Higher Education

The third edition of this seminal work includes the original text, first published in 1974, the updates and reflections from the second edition and two groundbreaking new chapters. *Power: A Radical View* assesses the main debates about how to conceptualize and study power, including the influential contributions of Michel Foucault. The new material includes a development of Lukes's theory of power and presents empirical cases to exemplify this. Including a refreshed introduction, this third edition brings a book that has consolidated its reputation as a classic work and a major reference point within Social and Political Theory to a whole new audience. It can be used on modules across the Social and Political Sciences dealing with the concept of power and its manifestation in the world. It is also essential reading for all undergraduate and postgraduate students interested in the history of Social and Political Thought. *Governance and Politics of China* Springer

This second edition of *European Union Politics* provides an authoritative introduction to all aspects of politics and policy in the EU. It gives readers a sense of the colour and flavour of EU politics, while systematic coverage of different theoretical perspectives encourages a more sophisticated understanding of

the EU's development and function.

Europeanization and New Member States Andrews UK Limited

This investigation of Kierkegaard as a political thinker with regard to the Danish context, and to his place in the history of political thought, deals with the more direct discussion of politics in Kierkegaard, and the ways in which political ideas are embedded in his literary, aesthetic, ethical, philosophical, and religious thought.

Global Politics Routledge

The self-immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the 'Arab Spring,' a startling, yet not unprecedented, era of profound social and political upheaval. The meme of the Arab Spring is characterised by bottom-up change, or the lack thereof, and its effects are still unfurling today. The *Routledge Handbook of the Arab Spring* seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics, including: Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints, specialisms, biases, and degrees of proximity and distance from events that shook the Arab world to its core, the Handbook is written with the reader in mind, to provide students, practitioners, diplomats, policy-makers and lay readers with contextualization and knowledge, and to set the stage for further discussion of the Arab Spring.

European Muslims, Civility and Public Life Springer

This book offers a timely, and fresh historical perspective on the politics of independent Ireland. Interwar Ireland's politics have been caricatured as an anomaly, with the distinction between Fianna Fáil and Fine Gael bewildering political commentators and scholars alike. It is common for Ireland's politics to be presented as an anomaly that compare unfavourably to the neat left/right cleavages evident in Britain and much of Europe. By offering an historical re-appraisal of the Irish Free State's politics, anchored in the wider context of inter-war Europe, Mel Farrell argues that the Irish party system is not unique in having two dominant parties capable of adapting to changing circumstances, and suggests that this has been a key strength of Irish democracy. Moreover,

the book challenges the tired cliché of 'Civil War Politics' by demonstrating that events subsequent to Civil War led the Fine Gael/Fianna Fáil cleavage dominant in the twentieth-century. *Research and Writing in International Relations* Routledge *Research and Writing in International Relations* offers the step-by-step guidance and the essential resources needed to compose political science papers that go beyond description and into systematic and sophisticated inquiry. This text focuses on areas where students often need help-finding a topic, developing a question, reviewing the literature, designing research, and last, writing the paper. Including current and detailed coverage on how to start research in the discipline's major subfields, *Research and Writing in International Relations* gives students a classroom-tested approach that leads to better research and writing in introductory and advanced courses.

A Comparison of the UK and Italy University of North Georgia The fifth edition of this seminal textbook by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics.

Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - *New Politics in Action* features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social

media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book.

Exploring British Politics Macmillan International Higher Education

The fourth edition of this highly successful and accessible text has been substantially revised and updated and includes extra coverage throughout on non-western approaches and international political theory. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies.

Globalisation and Governance in the Pacific Islands

Springer

Indispensable for students of diplomacy and junior members of diplomatic services, this dictionary not only covers diplomacy's jargon but also includes entries on legal terms, political events, international organizations, e-Diplomacy, and major figures who have occupied the diplomatic scene or have written about it over the last half millennium.
