The Enduring Democracy by Kenneth Dautrich, David A. Yalof, and Christina Bejarano examines the current state of American politics through the lenses of American history and the nation's changing demographics. This two-pronged approach encourages students to place current issues and controversies into historical perspective, and to think critically about how those issues and controversies are impacted by America's increasingly diverse

population. By analyzing and understanding the influences of historical context and demographics, students can debate effectively with references, use historical outcomes to predict for the future, and create strong arguments based on what they know about fundamental changes in the political landscape. The highly anticipated Sixth Edition frames the 2016 general election and 2018 midterm elections from the perspective of what they mean to college

students, so that they can see the relevance of American government in their daily lives. Also available as a digital option (courseware). Learn more about The Enduring Democracy, Sixth Edition - Vantage Digital Option. [American Politics Today](#) Routledge The best-selling book published for American Government, AMERICAN GOVERNMENT AND POLITICS TODAY: THE ESSENTIALS helps students experience the excitement that comes

from active, informed citizenship in a concisely organized package. Bardes, Shelley, and Schmidt's text is renowned nationwide for its balanced, unbiased, comprehensive, and up-to-date coverage of constitutional, governmental, political, social, and economic structures and processes. The overriding theme is the importance of informed active citizenship. The pedagogy underscores this theme by soliciting critical thinking about political

issues and encouraging students to become involved in the political process. With keen awareness of its audience, AMERICAN GOVERNMENT AND POLITICS TODAY: THE ESSENTIALS incorporates current examples, the Internet, and other media to stimulate learning and excitement about American government. This truly interactive text gives students more than reading material—it gives them tools to become good citizens.
2d Ed SAGE

The second edition of the best-selling textbook US politics today offers a new and updated introduction to contemporary US government and politics. The book considers core institutions, including the presidency, Congress, and the Supreme Court. It assesses important questions and controversies and places them within the broader context of American society and culture. Has our understanding of the Constitution remained faithful to the intentions of the 'founding fathers'

who wrote it? Is there still a separation of powers or has the president become too powerful? Do judges play too much of a role? Are the parties too weak and divided? Has Congress been 'bought' by lobbyists? This edition has been rewritten to incorporate coverage of events that have taken place since 1999. It examines the 2000 presidential election and recent Supreme Court rulings as well as the ways in which the 'war on terrorism' has affected the character of the

political process. There is also a new chapter that assesses the most important political issues facing the US today. The book will prove invaluable for undergraduates, A-level students, and the general reader

 Fake news. Twitter rants. Misinformation. Silos.

Echo chambers. Spin. Alternative facts. Investigation, accusation, and obfuscation. Punditry, polls, and prognostication. This is today's politics. To cut through the noise, students need a guide to how politics really works and why it matters. *American Politics Today* has been that trusted source. And the new sixth edition brings even greater focus to examining preconceived notions of how government operates and understanding what's really going on.

Hyperconflict in the Trump Era

Bloomsbury Publishing USA

A fresh, accessible perspective on the fundamentals

American Government 2e

American Government and Politics Today, 2018

Election Update Essentials Edition

Why are Americans so angry with each other?

The United States is caught in a partisan hyperconflict that divides politicians,

communities—and even families. Politicians from the president to state and

local office-holders play to strongly-held beliefs and sometimes even pour fuel on the resulting inferno.

This polarization has become so intense that many people no longer trust anyone from a differing perspective.

Drawing on his personal story of growing up as a fundamentalist Christian on a dairy farm in rural Ohio, then as an academic in the heart of the liberal East Coast establishment, Darrell West analyzes the economic, cultural, and political aspects of

polarization. He takes advantage of his experiences inside both conservative and liberal camps to explain the views of each side and offer insights into why each is angry with the other. West argues that societal tensions have metastasized into a dangerous tribalism that seriously threatens U.S. democracy. Unless people can bridge these divisions and forge a new path forward, it will be impossible to work together, maintain a functioning democracy,

and solve the country's pressing policy problems.

The Promise of

Disharmony Cengage Learning

Politics is about conflict and compromise.

American Politics Today helps students understand the debates and controversies that they encounter in the news by emphasizing conflict and compromise as natural parts of politics. New book features—including highly visual “How It Works” infographics—show how the American political

process resolves conflicts. *American Government and Politics Today* Wentworth Press American Government and Politics is a completely new introductory textbook designed and written for all students of politics coming to the subject for the first time. It provides a lively and accessible introduction and guide to all the main features and characteristics of one of the most distinctive and complex contemporary political systems in the world. From the

impeachment of Bill Clinton, to the controversy surrounding the 2000 presidential election, and the Bush administration's responses to September 11, students will gain a balanced and critical understanding of all the key issues and debates in contemporary American government and politics today. A number of key underlying themes include: - the nature of American values and identity - the influence of the constitution on political development -

the ways in which key governing institutions function to produce domestic and foreign policy. Key features include: - comprehensive glossary of key terms - discussion and summary boxes - web links and guides to further reading Robert Singh is a lecturer in politics at Birkbeck College, London. American Government and Politics: A Concise Introduction is the foundation companion text to Contemporary American Politics: Issues and Controversies also

published by SAGE. `Rob Singh has written a finely organized and informative textbook that combines to an unusually high degree analytical clarity, accessibility of style and form, and an enlightened scepticism about received wisdom. This is an admirable book' - Nigel Bowles, St Anne's College, Oxford `Full of topical information and written with sparkling clarity, this book is a short-cut to excellence for the discriminating student' - Rhodri Jeffreys-Jones, Professor of American

History, University of Edinburgh `In American Government and Politics Robert Singh provides an excellent introduction to the subject. His approach is wide ranging, his examples well selected and his style is accessible. It will make an ideal book for introductory and more advanced university courses on US government. I strongly recommend the book to teachers and students' - Desmond King, Mellon Professor of American Government, University of Oxford `This is a well

written and lively book that is an important addition to the ranks of textbooks on American politics. One of its many virtues is its recognition that the textbook today is useful to a student only if it links to the world of web-based resources. Highly recommended' - Alan Ware, Worcester College, Oxford

American Government and Politics Today, 2018 Election Update
W. W. Norton
The Fifth Edition of American Politics Today is designed to show

students the reality of politics today and how it connects to their own lives. New features--from chapter opening cases that address the kinds of questions students ask, to full-page graphics that illustrate key political processes--show students how politics works and why it matters. All components of the learning package--textbook, InQuizitive adaptive learning tool, and coursepack--are organized around specific chapter learning goals to ensure that students learn

the nuts and bolts of American government. Politics and Political Science Vintage
This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In The Paranoid Style in American Politics, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can

influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of 'Coin' Harvey” and “What Happened to the Antitrust Movement?” “The Paranoid Style in American Politics” remains both a seminal text of political history and a vital

analysis of the ways in which political groups function in the United States.

The Increasingly United States SAGE

In a campaign for state or local office these days, you’re as likely today to hear accusations that an opponent advanced Obamacare or supported Donald Trump as you are to hear about issues affecting the state or local community. This is because American political behavior has become substantially more nationalized.

American voters are far more engaged with and knowledgeable about what’s happening in Washington, DC, than in similar messages whether they are in the South, the Northeast, or the Midwest. Gone are the days when all politics was local. With *The Increasingly United States*, Daniel J. Hopkins explores this trend and its implications for the American political system. The change is significant in part because it works against a key rationale of America’s federalist system, which was built

on the assumption that citizens would be more strongly attached to their states and localities. It also has profound implications for how voters are represented. If voters are well informed about state politics, for example, the governor has an incentive to deliver what voters—or at least a pivotal segment of them—want. But if voters are likely to back the same party in gubernatorial as in presidential elections irrespective of the governor's actions in

office, governors may instead come to see their ambitions as tethered more closely to their status in the national party.

A Concise Introduction

Cengage Learning
Following one of the most contentious and truth-challenged presidential administrations and elections in U.S. history, there has never been a greater need for an American government text like this—evidence-based, critically thoughtful, and contemporary in tone and

touch. This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline—covering the Constitution, political behavior, formal and informal institutions, and public policy—by reflecting the theoretical developments and types of empirical inquiry conducted by researchers. For introductory courses in American government,

this text covers theory and methods as well. New to the Fourth Edition Provides 2020 election data updates throughout and examines policy implications of the ensuing changes in election laws across the country. Recaps controversial Trump administration policies and looks into the Biden administration's early days. Offers strategic updates on the Covid-19 pandemic and the resulting economic crisis both in terms of questions of federalism as well as

public policy. Considers the rise of new interest groups and social movements as well as the reckoning with racial injustice. Examines contemporary questions of social justice in light of civil rights and liberties as well as in terms of policy. Covers the death of Supreme Court Justice Ruth Bader Ginsberg, the battle to confirm her replacement, the addition of Justice Coney Barrett, and the policy implications of the shift in the ideological balance of the Court. For the fourth

edition, a new co-author comes to the book with award-winning experience in diversity and teacher education as well as research interests in the presidency, women and politics, and foreign policy.

THE POWER ELITE

Manchester University Press

Though Americans rarely appreciate it, federalism has profoundly shaped their nation's past, present, and future. Federalism—the division of government authority between the national government and the states—affects the prosperity, security, and daily life of every

American. Some of the most spectacular political conflicts in American history have been fought on the battlefield of federalism, including states' rights to leave the union, government power to regulate business, and responses to the problems of race, poverty, pollution, abortion, and gay rights. In the second edition of this nuanced and comprehensive text, David Brian Robertson shows that past choices shape present circumstances, and that a deep understanding of

American government, public policy, political processes, and society requires an understanding of the key steps in federalism's evolution in American history. New to the Second Edition Emphasizes that federalism is a battleground that shapes every life in America.

Extensively revised and updated, including new coverage of recent controversies like Ferguson, immigration, climate change, Obamacare, gay rights, the minimum wage, political polarization, voter identification, fracking, and marijuana

legalization. Brings together the newest developments in history, political science, law, and related disciplines to show how federalism influences government and politics today. Includes chapter-opening vignettes that deal with contemporary cases and policy challenges.
