The International Code of Safety for High-Speed Craft, 2000 (2000 HSC Code)

applies to craft for which the keels are laid, or which are at a similar stage of construction, on or after 1 July 2002. The application of the both HSC Codes is mandatory under chapter X of the SOLAS Convention. This edition incorporates

amendments that were adopted in 2004 and 2006.--Publisher's description.

Pimsleur's Checklists of Basic American Legal Publications Life-Saving Appliances (inc. LSA Code) This publication contains the three most important IMO instruments dealing with life-saving appliances, namely the International Life-Saving Appliance (LSA) Code, the Revised Recommendation on Testing of Life-Saving Appliances and the Code of Practice for Evaluation, Testing and Acceptance of Prototype Novel Life-Saving Appliances. It provides

international requirements for the life-saving appliances required by chapter III of the 1974 SOLAS Convention, including personal life-saving appliances like lifebuoys, lifejackets, immersion suits, anti-exposure suits and thermal protective aids; visual aids, such as parachute flares, hand flares and buoyant smoke signals; survival craft, such as life rafts and lifeboats; rescue boats; launching and embarkation appliances and marine evacuation systems line throwing appliances; and general alarm and public

address systems. International Life-saving Appliance Code (LSA Code) Resolutions MSC.48(66) Life-saving Appliances Including LSA Code

The most important of the international conventions dealing with maritime safety is the International Convention for the Safety of Life at Sea (SOLAS) which covers a wide range of measures designed to improve the safety of shipping. It is also one of the oldest of its kind, the first version was adopted in 1914 following the sinking of the Titanic. There have been four more versions of SOLAS and the present version was adopted in 1974 and entered into force in 1980. This edition provides access to all SOLAS requirements, a consolidated text of the Convention, its protocols of 1978 and 1988 and all amendments in effect from from 1 July 2004

Checklists of Basic American Legal Publications IMO Publishing

The International Convention for the Safety of Life at Sea (SOLAS) covers a wide range of measures designed to improve the safety of shipping. This publication contains amendments to the

1974 SOLAS Convention and the 1988 Protocol adopted by the IMO Maritime Safety Committee during 2003-05, relating to: access to space in cargo areas of oil tankers, testing of watertight doors, emergency towing arrangements; emergency drills, maintenance of life-saving appliances, carriage of immersion suits, survival craft and rescue boats; emergency position indicating radio beacons (EPIRBs); place of safety for rescued persons, shipboard navigational equipment and voyage data recorders; and additional safety measures for bulk carriers.

46 CFR Shipping
Resolutions MSC.48(66)

The Maritime Safety Committee adopted, by resolution MSC.266(84), the Code of Safety for Special Purpose Ships, 2008 (2008 SPS Code), which had been developed following a revision of the code adopted in 1983. Both amended requirements of the SOLAS Convention and experience gained were taken into account during the development of the new code. Particular attention was paid to

the matter of trainees on training ships which lead to a comprehensive revision of the term "special personnel".--Publisher's description.

Foreign and Commonwealth Office

The twenty-fifth session of the IMO Assembly, from 19 to 29 November 2007, adopted resolutions that included: - Code for the Implementation of Mandatory IMO Instruments, 2007 - Survey Guidelines under the Harmonized System of Survey and Certification, 200.

Resolutions and Other Decisions

Keep black-hat hackers at bay with the tips and techniques in this entertaining, eye-opening book! Developers will learn how to padlock their applications throughout the entire development

process—from designing secure applications to writing robust code that can withstand repeated attacks to testing applications for security flaws. Easily digested chapters reveal proven principles, strategies, and coding techniques. The authors—two battle-scarred veterans who have solved some of the industry's toughest security problems—provide sample code in several languages. This edition includes updated information about threat modeling, designing a security process, international issues, file-system issues, adding privacy to applications, and performing security code reviews. It also includes enhanced coverage of buffer overruns, Microsoft .NET security, and Microsoft ActiveX development, plus practical checklists for developers, testers, and program managers.

21: Parts 200 to 299, Revised as of April 1 2006

This publication contains the three most important IMO instruments dealing with life-saving appliances, namely the International Life-Saving Appliance (LSA) Code, the Revised Recommendation on Testing of Life-Saving Appliances and the

Code of Practice for the Evaluation, Testing and Acceptance of Prototype Novel Life-Saving Appliances. The International Life-Saving Appliance (LSA) Code was adopted by IMO's Maritime Safety Committee (MSC) at its 66th session (June 1996) by resolution MSC.48(66). It provides international requirements for the life-saving appliances required by chapter III of the 1974 SOLAS Convention, including personal life-saving appliances, such as lifebuoys, lifejackets, immersion suits, anti-exposure suits and thermal protective aids; visual aids, such as parachute flares, hand flares and buoyant smoke signals; survival craft, such as life rafts and lifeboats; rescue boats; launching and embarkation appliances and marine evacuation systems line throwing

appliances; and general alarm and public address systems. The Code entered into force on 1 July 1998 and has been amended in accordance with SOLAS Article VIII as follows: 1: by the May 2006 amendments, which were adopted by resolution MSC.207(81) and entered into force on 1 July 2010; 2: by the December 2006 amendments, which were adopted by resolution MSC.218(82) and entered into force on 1 July 2008; and 3: by the 2008 amendments, which were adopted by resolution MSC.272(85) and entered into force on 1 July 2010. The consolidated text of the LSA Code in the present publication incorporates the above three sets of amendments, including the two sets entering into force on 1 July 2010, since they were deemed to have been

accepted in accordance with the SOLAS amendment procedures on 1 January 2010, and therefore automatically entered into force on 1 July 2010.
