 Unhappy with your face? Your body is trying to tell you something. Every line, wrinkle, spot, mole and crease means something. They did NOT just randomly show up on your face. Every part of your face is connected to an organ or body part. If that body part is not functioning properly, it will show up on your face. No amount of cream will change that. If you want to improve your face, you must improve your health. And lucky for you- your face tells you exactly what's wrong with you. Forget plastic surgery- you can do it yourself. After this event, you will never look at people the same way again. You will instantly be able to tell what issues they have. And they will wonder why you now look 20 years younger !
