This book is an authentic
historical document,
supported by extensive

analytical information, in
which former Fiat top
manager Giorgio Garuzzo
passionately recounts his
experience within Fiat
between 1976 and 1996.
It is a narrative from the
inside that sheds new
light on events that have
remained cloaked in
mystery: the arrival and
departure of Carlo De
Benedetti, the “march of
the forty thousand”, the

sacking of Vittorio
Ghidella, the clashes
between Umberto Agnelli
and Cesare Romiti, the
Group’s involvement in
the “clean hands”
scandal, the role of Gianni
Agnelli and his
relationships with his
brother and Cesare Romiti
and the intervention of
Mediobanca. Garuzzo
discusses the issues
connected with the range

of cars and marques, touching on major themes of national or international relevance that were unrelated to Fiat but nonetheless conditioned its activities: terrorism and the unmanageability of the factories, inflation, the devaluation of the lira, the role of the trade unions and the General Confederation of Italian Industry, Japanese competition and European integration.

Dítě poválečné euforie, Fiat 500, doslova posadil Itálii na čtyři kola. Byl symbolem mládí, optimismu a všeho italského. První souborná česká publikace poskytuje

neuvěřitelně podrobný přehled technických, ekonomických i historických faktů o tomto sympatickém automobilu. Velmi kompaktní a jednoduchý vůz se narodil v roce 1957 a do počátku osmdesátých let jich v různých zemích vyrobili necelých pět milionů. Kniha začíná zevrubnou zmínkou o předválečných malých Fiatech 500, zvaných Topolino a o jejich poválečné generaci. Na ně navázala "Nová pětistovka", která se později stala světovou ikonou nejmenších

lidových vozů. Samostatnou kapitolu tvoří sportovní varianty úpravců Abarth a Gianni, formule i rekordní vozy. Popisy jednotlivých verzí jsou doplněny základními technickými daty, obrázky a příklady původních prospektů. Zajímavá je i kapitolka o pětistovkách v Československu. Kniha je završena představením velmi úspěšné nové generace typu Fiat 500 v roce 2007.

What is the scope for independent citizen action in media and cultural policy formation? How can audiences effectively voice critiques of media content? In a market-centred and consumer-oriented media world, what is the potential for monitoring, lobbying and advocacy? This book argues that there is a role

for local action to defend and promote diversity in the content, images, symbols and values that people use in making sense of their lives. It focuses on media portrayals of gender - whose critique has been fundamental to the modern international women's movement. Now, research and activism have been brought together in the form of gender media monitoring - systematic data collection aimed at policy critique and practical change. The book brings

together research findings and monitoring experiences from both North and South to demonstrate how women's groups have developed effective media monitoring models.
