Studyguide for the American Nation, a History of the United States by Mark C. Carnes, isbn 9780205790445
Random House
#1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D.

Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of *America First* in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to

assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, "The good news is that we have come through such darkness before"—as, time and again, Lincoln's better angels have found a way to prevail. Praise for *The Soul of America* "Brilliant, fascinating, timely . . . With compelling narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time."—Walter Isaacson "Gripping and inspiring, *The Soul of America* is Jon Meacham's declaration of his faith in America."—Newsday "Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia."—USA Today
The Soul of America

President Franklin

Roosevelt told Americans in a 1936 fireside chat, “I do not look upon these United States as a finished product. We are still in the making.” These United States builds on this foundation to present a readable, accessible history of the United States throughout the twentieth century—an ongoing and inspiring story of great leaders and everyday citizens marching, fighting, voting, and legislating to make the nation’s promise of democracy a reality for all Americans. In the college edition of *These United States*, Gilmore and Sugrue seamlessly weave insightful analysis with all of the support tools needed by students and instructors alike, including paired primary source documents, review questions, key terms, maps, and figures in a dynamic four-color design.

American Character
National Academies Press
Annotation. Although the US is proud of being a secular state, religion lies at the heart of American politics. This volume looks at how the country came to have the soul of a church & the consequences - the moral crusades against slavery, alcohol, witchcraft & discrimination that time & again have prevailed upon the nation.

A Nation of Immigrants
Oxford University Press, USA

To most people living in the West, the Louisiana Purchase made little difference: the United States was just another imperial overlord to be assessed and manipulated. This was not, as *Empires, Nations, and Families* makes clear, virgin wilderness discovered by virtuous Anglo entrepreneurs. Rather, the United States was a newcomer in a place already complicated by vying empires. This book documents the broad family associations that crossed national and ethnic lines and that, along with the river

systems of the trans-Mississippi West, formed the basis for a global trade in furs that had operated for hundreds of years before the land became part of the United States. *Empires, Nations, and Families* shows how the world of river and maritime trade effectively shifted political power away from military and diplomatic circles into the hands of local people. Tracing family stories from the Canadian North to the Spanish and Mexican borderlands and from the Pacific Coast to the Missouri and Mississippi rivers, Anne F. Hyde’s narrative moves from the earliest years of the Indian trade to the Mexican War and the gold rush era. Her work reveals how, in the 1850s, immigrants to these newest regions of the United States violently wrested control from Native and other powers, and how conquest and competing demands for land and resources brought about a volatile frontier culture—not at all the peace and prosperity that the new power had promised.

The American Nation
Routledge

The author of *American Nations* examines the history of and solutions to

the key American question: how best to reconcile individual liberty with the maintenance of a free society. The struggle between individual rights and the good of the community as a whole has been the basis of nearly every major disagreement in our history, from the debates at the Constitutional Convention and in the run up to the Civil War to the fights surrounding the agendas of the Federalists, the Progressives, the New Dealers, the civil rights movement, and the Tea Party. In *American Character*, Colin Woodard traces these two key strands in American politics through the four centuries of the nation's existence, from the first colonies through the Gilded Age, Great Depression and the present day, and he explores how different regions of the country have successfully or disastrously accommodated them. The independent streak found its most pernicious form in the antebellum South but was balanced in the Gilded Age by communitarian reform efforts; the New Deal was an example of a successful coalition

between communitarian-minded Eastern elites and Southerners. Woodard argues that maintaining a liberal democracy, a society where mass human freedom is possible, requires finding a balance between protecting individual liberty and nurturing a free society. Going to either libertarian or collectivist extremes results in tyranny. But where does the "sweet spot" lie in the United States, a federation of disparate regional cultures that have always strongly disagreed on these issues? Woodard leads readers on a riveting and revealing journey through four centuries of struggle, experimentation, successes and failures to provide an answer. His historically informed and pragmatic suggestions on how to achieve this balance and break the nation's political deadlock will be of interest to anyone who cares about the current American predicament—political, ideological, and sociological.

A longtime professor of Ethnic Studies at the

University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

The Shame of the Nation

American Nations A History of the Eleven Rival Regional Cultures of North America Immigration makes America what it is and is formative for what it will become. America was settled by three different models of immigration, all of which persist to the present. The Virginia Colony largely equated immigration with the arrival of laborers, who had few rights. Massachusetts welcomed those who shared the religious views of the founders but excluded those whose beliefs challenged prevailing orthodoxy. Pennsylvania valued pluralism, becoming the most diverse colony in religion, language, and culture. A fourth, anti-immigration model also emerged during the colonial period, and was often fueled by populist leaders who stoked fears about newcomers. Arguing that the Pennsylvania model has best served the country, this book makes key recommendations for future immigration reform. Given the highly controversial nature of immigration in the United States, this second edition – updated to analyze policy changes in the

Obama and Trump administrations – provides valuable insights for academics and policymakers. Outlines and Highlights for American People Liveright Publishing The author of *American Nations* examines the history of and solutions to the key American question: how best to reconcile individual liberty with the maintenance of a free society The struggle between individual rights and the good of the community as a whole has been the basis of nearly every major disagreement in our history, from the debates at the Constitutional Convention and in the run up to the Civil War to the fights surrounding the agendas of the Federalists, the Progressives, the New Dealers, the civil rights movement, and the Tea Party. New York Times Book

Review Editors' Choice

"An essential and groundbreaking text in the effort to understand how American criminal justice went so badly awry." —Ta-Nehisi Coates,

author of *Between the World and Me* In a Nation, New York

Times best-selling author

and Emmy Award-winning news anchor Chris Hayes

opens the national

conversation on policing and democracy. Drawing

on wide-ranging historical, social, and political

analysis, as well as deeply personal experiences with

law enforcement, Hayes contends that our country

has fractured in two: the Colony and the Nation. In

the Nation, the law is venerated. In the Colony,

fear and order undermine civil rights. With great

empathy, Hayes seeks to understand this systemic

divide, examining its ties to racial inequality, the

omnipresent threat of guns, and the dangerous

and unfortunate results of

choices made by fear.

The Battle for Our Better Angels Harvard University Press

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation. *Shorter Lives, Poorer Health* Houghton Mifflin College Division

Excerpt from *The Redway School History: Outlining the Making of the American Nation* A textbook adapted to the needs of to-day requires a discussion of Certain principles that have come to be a part of modern life. In discussing these - especially in Chapter XX -

the teacher should consider the maturity of the pupil's mind. With young pupils it will be wise to postpone, or even to omit, such topics as cannot be comprehended. In such cases it is not a question of capability but of Age. In the lists of collateral reading the books mentioned are those most likely to be found in available libraries; others covering the subjects may be used instead. A comprehensive list of good books for further reading is given in the Appendix. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Accompanys: 9780205642793 [A Concise Introduction to American Literature 1865 to Present](#) Academic Internet Pub Incorporated From the acclaimed historian and New Yorker writer comes this urgent manifesto on the dilemma of nationalism and the erosion of liberalism in the twenty-first century. At a time of much despair over the future of liberal democracy, Jill Lepore makes a stirring case for the nation in *This America*, a follow-up to her much-celebrated history of the United States, *These Truths*. With dangerous forms of

nationalism on the rise, Lepore, a Harvard historian and New Yorker staff writer, repudiates nationalism here by explaining its long history—and the history of the idea of the nation itself—while calling for a “new Americanism”: a generous patriotism that requires an honest reckoning with America’s past. Lepore begins her argument with a primer on the origins of nations, explaining how liberalism, the nation-state, and liberal nationalism, developed together. Illiberal nationalism, however, emerged in the United States after the Civil War—resulting in the failure of Reconstruction, the rise of Jim Crow, and the restriction of immigration. Much of American history, Lepore argues, has been a battle between these two forms of nationalism, liberal and illiberal, all the way down to the nation’s latest, bitter struggles over immigration. Defending liberalism, as *This America* demonstrates, requires making the case for the nation. But American historians largely abandoned that defense in the 1960s when they stopped writing national history.

By the 1980s they’d stopped studying the nation-state altogether and embraced globalism instead. “When serious historians abandon the study of the nation,” Lepore tellingly writes, “nationalism doesn’t die. Instead, it eats liberalism.” But liberalism is still in there, Lepore affirms, and *This America* is an attempt to pull it out. “In a world made up of nations, there is no more powerful way to fight the forces of prejudice, intolerance, and injustice than by a dedication to equality, citizenship, and equal rights, as guaranteed by a nation of laws.” A manifesto for a better nation, and a call for a “new Americanism,” *This America* reclaims the nation’s future by reclaiming its past. *A New Translation of Isaiah, Chapter XVIII, with Notes Critical and Explanatory, a Remarkable Prophecy Respecting the Restoration of the Jews, Aided by the American Nation, with an Universal Summons to the Battle of Armageddon, and a Description of that Solemn Scene* Penguin
The first “narrative

history” traces the thread that binds the dreams and aspirations of most Americans together, exploring shared history and sacred texts--the Constitution and the Declaration of Independence--in search of the origins of these ideas.

[The American Dream](#)
Broadway Books
Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
