 Over the past two decades studies on Karl Barth have become increasingly technical. The ironic result is that although Barth wrote chiefly for preachers, scholars have become the primary gatekeepers to his rich theological thought. This collection of essays introduces Karl Barth with

both clarity and depth, providing pastors and other serious readers with a valuable overview of Barth's views on Scripture. George Hunsinger -- himself a recognized expert on Barth -- and eight other scholars cover such topics as Barth 's belief that Scripture is both reliable and inspired, his typological exegesis, his ideas about time and eternity, and more. Reading this book will whet the reader 's appetite to engage further with Barth himself.

In concluding the series of lectures given while he made his first and only visit to the U.S., Dr. Karl Barth expressed his hope to see a theology of freedom for humanity originating from the U.S. As a respectful response to the expressed hope of Karl Barth, Albert Walsh presents this essay as a pastoral proposal on the subject of freedom from the point of view of the Judeo-Christian tradition. Walsh presents both biblical and theological foundations for a theology of freedom, which he calls "graced-freedom," contending that this is that transcendent freedom that God alone confers and sustains as a freedom for humanity.

Evangelical Theology is a systematic theology written from the perspective of a biblical scholar.

Michael F. Bird contends that the center, unity, and boundary of the evangelical faith is the evangel (= gospel), as opposed to things like justification by faith or inerrancy. The evangel is the unifying thread in evangelical theology and the theological hermeneutic through which the various loci of theology need to be understood. Using the gospel as a theological leitmotif—an approach to Christian doctrine that begins with the gospel and sees each loci through the lens of the gospel—this text presents an authentically evangelical theology, as opposed to an ordinary systematic theology written by an evangelical theologian. According to the author, theology is the drama of gospelizing—performing and living out the gospel in the theatre of Christian life. The text features tables, sidebars, and questions for discussion. The end of every part includes a “What to Take Home” section that gives students a run-down on what they need to know. And since reading theology can often be dry and cerebral, the author applies his unique sense of humor in occasional “Comic Belief” sections so that students may enjoy their learning experience through some theological humor added for good measure.

This study looks at the formation of theology as it emerges out of biography. Indeed, the biography

of the theologian is the key to unlocking the meaning of his or her writings, and a valuable tool for a thorough investigation of their work. There will be a focus on the biography of Karl Barth and how this relates to his theological writings. Attention will then be turned on a group of North American theologians to analyze how Barth's theology has influenced their personal experiences and corresponding theologies. The personal experience of the theologian provides the background to the theological judgments she or he makes, and therefore provides valuable insight into what she or he has written. Experiences in the theologian's life determine how she or he forms and communicates the ideas that the experiences have given rise to. Indeed, theologians profoundly connect with readers as they write theology as an expression of their experiences of faith. Therefore, this book contends that there is a necessary connection to be made between the theologian as a person and the theology that emerges out of her or his unique biography. Indeed, it will be argued that theology is born out of the lived encounters of the theologian that develop into the kind of personal convictions, passions, concerns, questions, and a motivation to connect with others that is evident in her or his writing. Consequently, theology and theologian are inseparable.

Over the past twenty years, renewed interest in Karl Barth has made him a major voice in contemporary systematic theological circles once again. This work explores the substantial convergences and divergences between Barth's theology and the historic evangelical faith. It will appeal to evangelical readers interested in reassessing the influence and impact of Barth's theology. Contributors include Kevin J. Vanhoozer, Alistair E. McGrath, Timothy George, Gabriel Fackre, Stanley Grenz, and Henri Blocher.

A Biblical History of Israel Wipf and Stock Publishers

This authoritative book introducing Karl Barth is written by leading scholars of his work, drawn from Europe and North America. They offer challenging yet accessible accounts of the major features of Barth's theological work, especially as it has become available through the publication of his collected works, and interact with the very best of contemporary Barth scholarship. The contributors also assess Barth's significance for contemporary constructive theology, and his place in the history of twentieth-century Christian thought. The Companion both sums up and extends recent renewed interest in Barth's theology, especially in English-speaking theology, and shows him to be once again a major voice in constructive theology.

In this much-anticipated textbook, three respected biblical scholars have written a history of ancient Israel that takes the biblical text seriously as an historical document. While also considering nonbiblical sources and being attentive to what disciplines like archaeology, anthropology, and sociology suggest about the past, the authors do so within the context and paradigm of the Old Testament canon, which is held as the primary document for reconstructing Israel's history. In Part One, the authors set the volume in context and review past and current scholarly debate about learning Israel's history, negating arguments against using the Bible as the central source. In Part Two, they seek to retell the history itself with an eye to all the factors explored in Part One.

For evangelicals still skittish about Karl Barth's place in modern theology, Kurt Anders Richardson provides both an assessment of the influence Barth has exercised and a proposal as to how his

work can be used as contemporary theology moves through and beyond him. Reading Karl Barth introduces Barth's continuing influence and provides an understanding of the recent development of theology in America. Richardson examines Barth's theology and describes how Barth can guide contemporary theology in the future. This approachable introduction will be enjoyed by pastors, church leaders, and thoughtful laypeople who want to reflect on Barth's influence and theology. *Theology and Church* A&C Black

Barth stands before us as the greatest theologian of the twentieth century, yet the massive corpus of work which he left behind, the multi volume Church Dogmatics, can seem daunting and formidable to readers today. Fortunately his Dogmatics in Outline first published in English in 1949, contains in brilliantly concentrated form even in shorthand, the essential tenets of his thinking. Built around the assertions made in the Apostles Creed the book consists of a series of reflections on the foundation stones of Christian doctrine. Because Dogmatics in Outline derives from very particular circumstances namely the lectures Barth gave in war-shattered Germany in 1946, it has an urgency and a compassion which lend the text a powerful simplicity. Despite its brevity the book makes a tremendous impact, which in this new edition will now be felt by a fresh generation of readers.

Jurgen Moltmann is now regarded as one of the most influential theologians since Karl Barth.

However, evangelical engagement with Moltmann has been hesitant and deficient. This book fills the gap. Ten respected evangelical theologians engage with Moltmann's theology in a mature, dynamic, and critical manner, seeking to appropriate from it in a discerning manner. The contributors include Sung Wook Chung, Kurt Anders Richardson, Veli-Matti Karkainen, Stephen N. Williams, and Timothy Bradshaw. This book is an excellent demonstration of intellectual confidence and respectability of robust evangelical theology.

Karl Barth and Alvin Plantinga are not thought of as theological allies. Barth is famous for his opposition to philosophy's role in theology, while Plantinga is famous for his emphasis on warranted belief. Kevin Diller argues that they actually offer a unified response to the central epistemological dilemma in theology.

The theology of the sacraments is one of the most contested parts in Barth's theology, none more so than the doctrine of baptism. Barth's proposals on baptism have generated intense conversation and disagreement, not only on its application to Protestant and ecumenical theology but even on its own consistency with Barth's larger dogmatic project. McMaken takes up this controversial question, sets it in its proper context within the history of doctrine and Barth's systematic work, and argues for a constructive reclamation of infant baptism that accords with Barth's overarching theological concerns and insights, notably from Barth's mature theological commitments. Pivotaly, this volume claims that a reorientation of the doctrine of baptism opens up a new perspective on the practice of infant baptism on the basis of Barth's theology; this new perspective, as well, holds the potential for wide, ecumenical application as a form of the

proclamation of the gospel and a vital dimension of the church's missional vocation. A commanding volume for scholars and students in systematic theology, ecumenical studies, and sacramental theology.

Stanley Grenz evaluates the course of evangelical theology and sets out a bold agenda for a new century. He proposes that evangelical theology should find its central integrative motifs in the reign of God and the community of Christ.

The Shape of His Theology Wipf and Stock Publishers

The legacies of Thomas Aquinas and Karl Barth remain influential for contemporary theologians, who have increasingly put them into conversation on debated questions over analogy and the knowledge of God. However, little explicit dialogue has occurred between their theologies of God. This book offers one of the first extended analyzes of this fundamental issue, asking how each theologian seeks to confess in fact and in thought God's qualitative distinctiveness in relation to creation. Wittman first examines how they understand the correspondence and distinction between God's being and external acts within an overarching concern to avoid idolatry. Second, he analyzes the kind of relation God bears to creation that follows from these respective understandings. Despite many common goals, Aquinas and Barth ultimately differ on the subject matter of theological reason with consequences for their ability to uphold God's distinctiveness consistently. These mutually informative issues offer some important lessons for contemporary theology.

The dissertation focuses on Karl Barth's theology as it relates to present issue in Evangelical thought. Chapter 1 states that an Evangelical theology of religions can affirm and apply particular aspects of Barth's doctrine of the Holy Spirit that will serve to redefine some present Evangelical approaches to the content of divine revelation. Chapter 2 surveys the theology of religions models constructed by Karl Rahner, Clark Pinnock, Amos Yong, and Terrance Tiessen. These scholars affirm in some respect that non-Christians need not have explicit knowledge of Jesus Christ and His work in order to appropriate the benefits of redemption. Chapter 3 examines Barth's trinitarian-oriented doctrine of revelation. For Barth, the doctrine of the Trinity provides the key to genuine divine revelation because revelation's content cannot be separated from its form in Jesus Christ. Chapter 4 addresses Barth's evaluation of the phenomenon of religion and natural theology. His attack on both concepts as human attempts to fashion God in their own image will be discussed. Chapter 5 will discuss and analyze the Christ-centered nature of Barth's doctrine of the Holy Spirit. The discussion shows how for Barth the Holy Spirit is the sole mediator of Christ's presence who guides persons into objective knowledge of Christ and equips them for Christian service. Chapter 6 details Barth's use of secular "parables" of truth in the world in relation to the one Truth-Jesus Christ. The focus is how these "lights" of truth in creation never exist apart from Christ's reconciling work. Chapter 7 evaluates the strengths and weaknesses of Barth's thought as it relates to thesis of the work. Particular attention is given to Barth's rejection of general revelation and the doctrine of common grace as juxtaposed with the work of Herman Bavinck, whose thought is utilized as a useful alternative to Barth's thought in this area. Chapter 8 will conclude by briefly addressing Bavinck's position in contrast to Barth. Finally, the work seeks to reaffirm the thesis that use of selective aspects of Barth's thought can serve as an aid to on-going Evangelical efforts to formulate a viable theology of religions.
