John Dowland Vintage Canada

A NEW BEGINNING THREATENS TO END IN DISASTER The Kansas plains offer Nell a chance to support her small family and bring Sarah up away from the prying eyes that might discover her illegitimate birth. But when her only ally among the seminary's leaders dies, Nell finds herself at the mercy of people she doesn't entirely trust-and she's not in a position to escape. As her talent as a dressmaker improves her fortunes, Nell attracts the attention of two suitors and struggles with the problem of reconciling love, independence, and respectability for her

daughter's sake. Shocking news from back home and another death at the seminary force a decision. A disastrous winter journey, a treacherous game, and an impossible love could wrest control of Nell's life out of her hands for good.

Classical Music Crown

A substantial amount of early music for the guitar remains unknown to modern performers and audiences. In recent years, however, musicologists, scholars and performers on period instruments have provided a wealth of accessible new source materials which players can now begin to interpret in convincing and effective ways. Nevertheless, many still feel intimidated by the prospect of sorting through and learning to use these resources for the first time. for the uninitiated, just knowing where to start can be difficult. This anthology contains

representative selections from the publications and manuscripts of four important Spanish Baroque guitarists: Gaspar Sanz, Antonio de Santa Cruz, Francisco Guerau, and Santiago de Murcia. In addition to being fun and entertaining music for all to enjoy, this collection is intended to help bridge the gap between scholarly editions and performance editions by providing a hands-on introduction to tablature transcription and to issues concerning historically informed performance on the modern guitar.

The Baroque Guitar in Spain and The New World Schwabe Verlag (Basel)

With nearly 400 scores to his credit, Ennio Morricone is one of the most prolific and influential film composers working today. He has collaborated with many significant directors, and his scores for such films as *The Good, the Bad, and the Ugly*; *Once Upon a Time in America*; *Days of Heaven*; *The Mission*; *The Untouchables*; *Malèna*; and *Cinema Paradiso* leave moviegoers with the conviction that something special was achieved—a conviction shared by composers, scholars, and fans alike. In *Composing for the Cinema: The Theory and Praxis of Music in Film*, Morricone and musicologist Sergio Miceli present a series of lectures on the composition and analysis of film music. Adapted from several lectures and seminars, these lessons show how sound design can be analyzed and offer a variety of musical solutions to many different kinds of film. Though aimed at composers, Morricone's expositions are easy to understand and fascinating even to those without any musical training. Drawing upon scores by himself and others, the composer also provides insight into his relationships with many of the directors with whom he has collaborated,

including Sergio Leone, Giuseppe Tornatore, Franco Zeffirelli, Warren Beatty, Ridley Scott, Roland Joffé, the Taviani Brothers, and others. Translated and edited by Gillian B. Anderson, an orchestral conductor and musicologist, these lessons reveal Morricone's passion about musical expression. Delivered in a conversational mode that is both comprehensible and interesting, this groundbreaking work intertwines analysis with practical details of film music composition. Aimed at a wide audience of composers, musicians, film historians, and fans, *Composing for the Cinema* contains a treasure trove of practical information and observations from a distinguished musicologist and one of the most accomplished composers on the international film scene.

Ina Lohr (1903-1983) Courier Corporation

Revised and expanded, *A Performer's Guide to Seventeenth Century Music* is a comprehensive reference guide for students and professional musicians. The book contains useful material on vocal and choral music and style; instrumentation; performance practice; ornamentation, tuning, temperament; meter and tempo; basso continuo; dance; theatrical production; and much more. The volume includes new chapters on the violin, the violoncello and violone, and the trombone—as well as updated and expanded reference materials, internet resources, and other newly available material. This highly accessible handbook will prove a welcome reference for any musician or singer interested in historically informed performance.

Eddie Van Halen IDW Publishing

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to

individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal*

Coping with Negative Life Events Faber & Faber

Presents the life, career, and accomplishments of the woman who rose from poverty to become a millionaire by selling hair care products for black women.

Frank R. Paul Art Book Columbia : University of South Carolina Press

A lively, up-to-date overview of the newest research in biosocial criminology What is the relationship between criminality and biology? Nineteenth-century phrenologists insisted that criminality was innate, inherent in the offender's brain matter. While they were eventually repudiated as pseudo-scientists, today the pendulum has swung back. Both criminologists and biologists have begun to speak of a tantalizing but disturbing possibility: that criminality may be inherited as a set of genetic deficits that place one at risk to commit theft, violence, or acts of sexual deviance. But what do these new theories really assert? Are they as dangerous as their forerunners, which the Nazis and other eugenicists used to sterilize, incarcerate, and even execute thousands of supposed "born" criminals? How can we prepare for a future in which leaders may propose crime-control programs based on biology? In this second edition of *The Criminal Brain*, Nicole Rafter, Chad Posick, and Michael Rocque describe early biological theories of crime and provide a lively, up-to-date overview of the newest research in biosocial criminology. New chapters introduce the theories of the latter part of the 20th century; apply and critically assess current biosocial and evolutionary theories, the developments in neuro-imaging, and recent progressions in fields such as epigenetics; and finally, provide a vision for the future of criminology and crime policy

from a biosocial perspective. The book is a careful, critical examination of each research approach and conclusion. Both compiling and analyzing the body of scholarship devoted to understanding the criminal brain, this volume serves as a condensed, accessible, and contemporary exploration of biological theories of crime and their everyday relevance.

A Performer's Guide to Seventeenth-Century Music University of Pennsylvania Press

"Standing on a Volcano: The Life and Times of David Rowland Francis is a biography of a fascinating man, and a long-needed major reassessment of a controversial and important figure in U.S.-Soviet Relations."--BOOK JACKET.

Materializing Space at an Early Modern Prodigy House

Springer Science & Business Media

This book is open access under a CC BY-NC-ND 3.0 IGO license. The Early Years analyzes the development of Latin American and Caribbean children and makes a compelling case for government intervention in what is instinctively a family affair. Spending on effective programs for young children is an investment that, if done well, will have very high returns, while failure to implement such programs will lower the returns on the hefty investments being made in primary, secondary, and higher education. Policies for young children belong at the core of a country's development agenda, alongside policies to develop infrastructure and strengthen institutions. However, if the services provided (or funded) by governments are to benefit children, they must be substantially better than what is currently being delivered in the region. This book offers suggestions for improving public policy in this critical area.

Rock and Roll - Changing Society, Evolving History - Rock and Roll: Its History and Stylistic Development, gives a thorough historical and musical analysis of rock artists, styles, and events in a clear and accessible language. This new edition includes callouts in the text that links students to the new MySearchLab with eText website. KEY TOPICS: Improve Active Listening - Updated "Take Note" section at the beginning of each chapter focuses on a series of key questions in the chapter. The questions are restated at the end of the chapter along with concise answers derived from the text. MARKET: For anyone interested in a comprehensive book about the history of rock and roll, including those in the music industry, such as disc jockeys, rock music writers, and promoters.

Composing for the Cinema Lerner Publications

This book describes a pathway for sustainable phosphorus management via the Global Transdisciplinary Processes for Sustainable Phosphorus Management project (Global TraPs). Global TraPs is a multi-stakeholder forum in which scientists from a variety of disciplines join with key actors in practice to jointly identify critical questions and to articulate what new knowledge, technologies and policy processes are needed to ensure that future phosphorus use is sustainable, improves food security and environmental quality and provides benefits for the poor. The book offers insight into economic scarcity and identifies options to improve efficiency and reduce environmental impacts of anthropogenic phosphorus flows at all stages of the supply and use chain.

[Lute Songs of John Dowland](#) Ashgate Publishing

In its seventeenth-century heyday, the English broadside ballad was a single large sheet of paper printed on one side with multiple woodcut illustrations, a popular tune title, and a poem. Inexpensive, ubiquitous, and fugitive—individual elements migrated freely from one broadside to another—some 11,000 to 12,000 of these artifacts pre-1701 survive, though many others have undoubtedly been lost. Since 2003, Patricia Fumerton and a team of associates at the University of California, Santa Barbara have been finding, digitizing, cataloging, and recording these materials to create the English Broadside Ballad Archive. In this magisterial and long-awaited volume, Fumerton presents a rich display of the fruits of this work. She tracks the fragmentary assembling and disassembling of two unique extant editions of one broadside ballad and examines the loose network of seventeenth-century ballad collectors who archived what were essentially ephemeral productions. She pays particular attention to Samuel Pepys, who collected and bound into five volumes more than 1,800 ballads, and whose preoccupations with black-letter print, gender, and politics are reflected in and extend beyond his collecting practices. Offering an extensive and expansive reading of an extremely popular and sensational ballad that was printed at least 37 times before 1701, Fumerton highlights the ballad genre's ability to move audiences across time and space. In a concluding chapter, she looks to Shakespeare's *The Winter's Tale* to analyze the performative potential ballads have in comparison with staged drama. A broadside ballad cannot be "read" without reading it in relation to its images and its tune, Fumerton argues. To that end, *The Broadside Ballad in Early Modern England* features more than 80

illustrations and directs its readers to a specially constructed online archive where they can easily access 48 audio files of ballad music.

Jiggle Cambridge University Press

Although almost forgotten today, Ina Lohr played a significant role in Basel's 20th-century musical world. In 1930, she became Paul Sacher's musical assistant, helping in the preparations for performances of the Basel Chamber Orchestra, of which he was the director. Just three years later, she was one of the courageous pioneers who under the direction of Paul Sacher founded the now internationally renowned Schola Cantorum Basiliensis. As Ina Lohr was instrumental in creating its program, her work indirectly had an enormous impact on the Early Music Movement. Through her biography, we learn to see Early Music within the complex cultural and religious matrix of her time, forcing ourselves to transcend our own boundaries to understand her life.

This book provides an expert view of research on parenting and child development in new family forms.

Diana Poulton NYU Press

The Millennium Dome, Braveheart and Rolls Royce cars. How do cultural icons reproduce and transform a sense of national identity? How does national identity vary across time and space, how is it contested, and what has been the impact of globalization upon national identity and culture? This book examines how national identity is represented, performed, spatialized and materialized through popular culture and in everyday life. National identity is revealed to be inherent in the

things we often take for granted - from landscapes and eating habits, to tourism, cinema and music. Our specific experience of car ownership and motoring can enhance a sense of belonging, whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing, and often contested, process of national identity formation. These and a wealth of other cultural forms and practices are explored, with examples drawn from Scotland, the UK as a whole, India and Mauritius. This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between 'high' and 'low' culture.

Ghana's Economic and Agricultural Transformation World Bank Publications

This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.

Featuring over 1,500 mammographic images, this atlas is a comprehensive guide to interpreting mammograms. It presents

the full spectrum of manifestations of breast diseases, as well as cases involving the postsurgical and augmented breast. Chapters are organized according to the pattern seen on the mammogram to develop readers' pattern recognition skills and to allow quick and complete definition of etiologies and clinical implications for a particular finding. This edition includes new chapters on the augmented breast, the role of ultrasound and MRI in breast imaging, and imaging-guided breast interventions. The terminology of the BI-RADS® lexicon is used throughout.

The Criminal Brain, Second Edition Hal Leonard Corporation

A single significant Jacobean country house, Theobalds, provides the focus for this study. James Sutton here delves into the cultural and political aspirations of the two men most closely associated with Theobalds: William Cecil, Lord Burghley (1520-1598), who constructed the building, and his second-born son and political scion, Robert, 1st Earl of Salisbury (1563-1612). Attending to the opulent materials and hegemonic spatial codes that enabled Theobalds' fabrication, this book also demonstrates the enormous costs - economic, political, social, but especially familial and personal - of building to envious show in the period. Neither celebrating nor castigating the Cecils' conspicuous consumption at their Hertfordshire estate, the author offers a balanced appraisal of the aesthetic strategies through which they promulgated a family narrative. The forms of display he emphasizes are those in which Theobalds was particularly strong: architecture, gardening, the decorative arts, and above all, the occasional drama. Through its detailed rhetorical analysis of one house and one family, this book provides a fresh view of the complex passage from Elizabethan to Jacobean style. poetics,

Materializing Space at an Early Modern Prodigy House deepens our understanding of how early modern English men and women

chose to be represented, both to themselves and to others.
