Excerpt from Designing the iPhone User Experience: A User ... Designing the customer and user experience is essential to creating great products today. Gone is the old paradigm of "form follows function" model of design. The process must be iterative and follow the best product design and development processes. While designing a great

user experience can be a lengthy and expensive process, there are approaches to doing it faster and smarter, without compromising results. Designing the User Experience | edX The Apple Watch, as a version one product, has a closer customer satisfaction rating to the current iPhone at 99% than it does the version one iPhone or iPad.
