Hundreds of mighty tomes have been written about the great colonial years when Britain ruled the waves but perhaps none summed it up so succinctly as this ABC for Baby Patriots first published in 1899. It provides an extraordinary view of the Victorian values and attitudes that made Britain great.

What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new

edition of *Understanding by Design* offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

Many guides claim to offer an insider view of top undergraduate programs, but no publisher understands insider information like Vault, and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions. Each 2- to 3-page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed, balanced perspectives.

A searing novel, told in letter form, that explores the South African legacy of apartheid through the lens of a woman whose Black son has just murdered a white woman *Mother to Mother* is a novel with depth, at once an emotional plea for compassion and understanding, and a sharp look at the impacts of colonialism and apartheid on South African families. Inspired by the true story of Fulbright scholar Amy Biehl's murder, the book takes the form of a letter to the victim's mother. The murderer's mother, Mandisa, speaks of a life marked by oppression and injustice. Through her writing, Mandisa reveals a colonized society that not only allowed but perpetuated violence against women and impoverished Black South Africans under the reign of apartheid. This book is not an apology for the murder but rather something more. It seeks to connect, through empathy and storytelling, one pained mother with another who is grief-stricken and in mourning. A beautifully written exploration of the society that bred such violence, *Mother to Mother* will resonate with readers interested in understanding and ending racial injustice, as well as the lasting colonial foundations of oppression.
