In recent years, empathy has received considerable research attention as a means of understanding a range of psychological phenomena, and it is fast drawing attention within the fields of music psychology and music education. This volume seeks to promote and stimulate further research in music and empathy, with contributions from many of the leading scholars in the fields of music psychology, neuroscience, music philosophy and education. It exposes current developmental, cognitive, social and philosophical perspectives on research in music and empathy, and considers the notion in relation to our engagement with different types of music and media. Following a Prologue, the volume presents twelve chapters organised into two main areas of enquiry. The first section, entitled 'Empathy and Musical Engagement', explores empathy in music education and therapy settings, and provides social, cognitive and philosophical perspectives about empathy in relation to our interaction with music. The second section, entitled 'Empathy in Performing Together', provides insights into the role of empathy across non-Western, classical, jazz and popular performance domains. This book will be of interest to music educators, musicologists, performers and practitioners, as well as scholars from other disciplines with an interest in empathy research. **A Complete Hand Book for the Use of the Lady in Polite Society** Faber & Faber Sometimes pianists would love to play the 'pops' they enjoy, but finding quality arrangements that work for the instrument can be a real challenge. A behind-the-scenes look at the making of the Oscar winning film. 'One Shot' the making of The Deer Hunter is written by Jay Glennie, with unparalleled access to the Robert De Niro Archives. The large format book takes a comprehensive look at the landmark British film. Released to celebrate the film winning the most coveted of movie awards, the Best Picture Oscar in 1979 'One Shot' includes exclusive interviews with cast & crew (including Robert De Niro, Meryl Streep, Chris Walken, John Savage and many more), EMI Film producers, Universal Studio executives and a loving foreword from Jeff Bridges for his friend, director Michael Cimino. Featuring stunning on-location images, many of which have never been published before, this book is the definitive account of the unlikely and often difficult journey from page to screen of Michael Cimino's iconic film. A controversial film about a controversial war 'One Shot' details how Cimino took the playing the of Russian Roulette as a metaphor of the US involvement in Vietnam and in turn gave us one of cinema's greatest anti-war films ever. Glennie examines how with Cimino at the helm the film, initially contracted to have a running time of two hours, became a three hour and four minute epic, resulting in the budget doubling from \$7 million to \$14.5 million and the departure of two producers. From Robert De Niro, Meryl Streep, Chris Walken, famed cinematographer Vilmos Zsigmond and their colleagues on the film we gain an understanding of the pressures and pleasures of shooting a film on location with a director who is determined to fulfil his vision.

At last--a manual that takes the chore out of cataloging sound recordings! The author clarifies the AACR2 rules (Anglo-American Cataloging Rules, 2nd edition) and literally steps through the thought process used in cataloging a sound recording, beginning with what to use as the source for the title, through the physical description and series information. All the examples of catalog cards presented,

ranging from the full gamut of 20th century music to spoken records and compact discs, show the full level of descriptive cataloging. The appendixes make this a practical worker's manual; they include order and content of cataloging notes, order of parts in a uniform title, a glossary of musical terms and acronyms, a list of basic reference books and thematic indexes, a complete set of catalog cards, and the Library of Congress rule interpretations for sound recordings. The detailed indexes enhance this important book's utility.

**First 50 Disney Songs You Should Play on Ukulele** Psychology Press

A comprehensive history of the Georgians, comparing past views of these exciting, turbulent, and controversial times with our attitudes today. The Georgian era is often seen as a time of innovations. It saw the end of monarchical absolutism, global exploration and settlements overseas, the world's first industrial revolution, deep transformations in religious and cultural life, and Britain's role in the international trade in enslaved Africans. But how were these changes perceived by people at the time? And how do their viewpoints compare with attitudes today? In this wide-ranging history, Penelope J. Corfield explores every aspect of Georgian life—politics and empire, culture and society, love and violence, religion and science, industry and towns. People's responses at the time were often divided. Pessimists saw loss and decline, while optimists saw improvements and light. Out of such tensions came the Georgian culture of both experiment and resistance. Corfield emphasizes those elements of deep continuity that persisted even within major changes, and shows how new developments were challenged if their human consequences proved dire.
