Dr. Kalam was
born and
brought up in
a multi-
religious,
multi-ethnic
community,
and this type
of milieu had
a profound

effect on his
personality.
He gave equal
respect to all
faiths and
religions; and
he did not pay
only lip-
service to
different
religions.

During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn

endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He took up the challenges and worked on

them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace!

It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A.

Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I

answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. Turnin g Points takes up the incredible Kalam story from where Wings of Fire left off. It

brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation. Ignited Minds: Unleashing The Power Within India Puffin In the tiny pilgrim town of

Rameswaram in Tamil Nadu, the son of a boatman had the courage to dream. One day his brilliance, perseverance and hard work would take Bharat Ratna A.P.J. Greatness is a quality processed, honed and learnt over a lifetime of learning and hard work. Great human beings are

built when a curious mind is met with life changing lessons, often early in the childhood. Just like the nature and quality of a tree is decided by the characteristic of the seed and how it is sown, the worth of a human life is shaped in the early stage of childhood. Often these life teachings as a growing up child, transform into the values which set the boundaries of one's adult actions and govern one's

decisions. We all know Dr. Kalam as an eminent teacher, an excellent President, an exception scientist, a talented rocket scientist, a team man, an institution builder and a man of ethics and integrity. But what went behind the scenes, in the formative days of "Little Kalam" which shaped him slowly but surely into Dr. Kalam - the man we remember and admire. This books aspires to take

you in this early history of childhood of Kalam tracking "Little Kalam" as he begins his first steps into the sands of Rameshwaram - which one day will translate into a march to the Rashtrapati Bhawan. A.P.J. Abdul Kalam Prabhat Prakashan Dr. Kalam is rare legendary personality. On the whole it is very difficult to describe his greatness in words. The manifold aspects of a scientist, philosopher,

great human being and a President are embodied in one person which is a source of inspiration for us. This book nicely narrates about his childhood days, life as a scientist and 'Missile Man', contributions towards our country, speeches, quotes. Readers are going to know a lot about Dr. A.P.J. Abdul Kalam through this book. Like as- how he made India a self-dependent country in atomic power,

how he maintained the dignity of his position by living with simplicity, how he became the president of India despite not having any political background. This book narrates his vision of India by 2020 as a highly developed nation of the world. The language is simple and easy to understand. A must read book for everyone.

House India Private Limited India has never been averse to welcoming ideas and people from outside. Over the years it has assimilated many ideas, cultures, technologies—after shaping them to suit its genius and its environment. However, somewhere down the line, in our long history, we appear to have lost faith in ourselves. Moreover, we haven't yet become bold

enough to set a course of our own. In such a case, it is good to hear and see what other countries have done, and are doing—although, the conclusions regarding what is good for our country are to be shaped by our people. With this in mind, we should look at how other countries like USA, Malaysia, Japan, South Korea, and a few European countries have generated vision documents of their own. In

Learning From Other Countries, APJ Abdul Kalam and YS Rajan highlight the importance of getting inspiration from other developed countries in order to walk the path of development ourselves. Read on.

 The students? diligent teacher, the nation?s gifted scientist, the humble ?People?s President? - an indefinable name he is.
 Dr. APJ Abdul Kalam. A man who dedicated his life and work to the betterment of a nation, and his time and energy to the billions of young minds he wished to ignite. He has left back dreams in everyone, and the undying inspiration to

make those dreams come true. A surfeit of contents has been interwoven to give this book a shape. To read through the pages will mean a journey through his life in entirety. Besides Kalam's own speeches and quotes, it also contains literary tributes by scientists, academicians and students, the interviews of his family members, and a real-time anecdote of his interment ceremony at Rameswaram.

Ignited Quotes of Dr APJ Abdul Kalam
HarperCollins

As we aspire for rising economic prosperity and a strong and confident India, this book forcefully reminds us of the values that make for a truly sustainable society, at the heart of which is the family. For it is not economic growth or military strength alone

that will make India strong. Sustainable success comes from values, and these can sustain a society and a nation even in times of hardship. The book expresses an ideal by which Indian society may prosper and speaks of how spirituality can help create a noble nation and a better world. It provides a valuable counterpoint to the modern-day emphasis on consumerism and the

philosophy of more is better, highlighting the sanctity of the natural world and its great power to evoke human creativity and love. Writing on this crucial subject are two iconic Indians. Together, Acharya Mahapragya and A.P.J. Abdul Kalam-- one a Jain muni revered as a saint, the other a visionary, a distinguished scientist and a former President of India-- bring their vast experience to bear on this

important subject. As the authors put it, it's only a united and happy family that will lead to a strong nation, one that can be a true fulfilment of 5,000 years of India's civilization. The book takes up the difficult and pressing task of setting a new agenda in a time of radical social change. It shows us the path we need to follow to take India to its rightful place as a great nation.
