 Written between 1914 and 1921, Ulysses has survived bowdlerization, legal action and bitter controversy. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes.

Very few motorcycles have carved a mark in history like the Vincent V-twin, from its arrival in 1946 and up to the present day. On the road, in club racing, in drag races, or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: "The World's Fastest Standard Motorcycle." It was a FACT - NOT a slogan. Images such as that of Rollie Free, in swimming trunks, laying flat on his works-modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948, have now passed into posterity. In fact, the big Vincent was so ahead of its time, that it continued to compete successfully - almost arrogantly - in racing until the mid-1970s, against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production, Fritz Egli's 1967 Egli-Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations and this book traces, holistically, the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today.

(Technical Reference). More than simply the book of the award-winning DVD set, Art & Science of Sound Recording, the Book takes legendary engineer, producer, and artist Alan Parsons' approaches to sound recording to the next level. In book form, Parsons has the space to include more technical background information, more detailed diagrams, plus a complete set of course notes on each of the 24 topics, from "The Brief History of Recording" to the now-classic "Dealing with Disasters." Written with the DVD's coproducer, musician, and author Julian Colbeck, ASSR, the Book offers readers a classic "big picture" view of modern recording technology in conjunction with an almost encyclopedic list of specific techniques, processes, and equipment. For all its heft and authority authored by a man trained at London's famed Abbey Road studios in the 1970s ASSR, the Book is also written in plain English and is packed with priceless anecdotes from Alan Parsons' own career working with the Beatles, Pink Floyd, and countless others. Not just informative, but also highly entertaining and inspirational, ASSR, the Book is the perfect platform on which to build expertise in the art and science of sound recording.

Nick Tiratsoo and Jim Tomlinson describe and assess the Labour Party's development of a policy of improving industrial efficiency. They concentrate on the debates and initiatives of the wartime period and subsequent implementation of policy under Attlee. The book modifies existing historiography in two ways - it shows that the Labour Party of 1945-51 was concerned mainly with industrial modernization, not with creating the Welfare State, and it tackles the consequently necessary re-evaluation of wider theories about Britain's economic decline.

The Lotus Elan was Colin Chapman and Lotus' first affordable road car, produced from 1962 and, along with its larger Plus 2 variant, until 1974. As a replacement for the expensive Lotus Elite, the Elan and Plus 2 were both successful sports cars, which carried Lotus through the 1960s and into the 1970s. Starting with a brief history of Lotus and the Elan, Lotus Elan & Plus 2 Source Book provides a detailed originality guide to the Elan and Plus 2, identifying the design changes Lotus made to the models through their lifetimes. An 'owner's guide' provides detailed information on owning and maintaining the cars in tip-top condition, and gives details of common faults and upgrades. The restoration guide gives any potential restorer the information to carry out the tasks needed to bring one of these cars back from the dead. With anecdotes and experiences from current and previous owners of Elans and Plus 2's, along with many colour photographs the book provides a valuable insight into owning running and racing these iconic cars.

'Flannery has done us a service first by reissuing the story of a fascinating adventure from 200 years ago, and then by setting these events in perspective with his lucid introduction.' Canberra Times 'At 2.00 pm on Sunday, 6 July 1835, a giant of a man shambled into the camp left by John Batman at Indented Head near Geelong...' In 1803 the convict William Buckley, a former soldier, escaped from the first official settlement in Victoria, near Sorrento on Port Phillip Bay. For three decades the 'wild white man' lived with Aborigines around the bay, before giving himself up in 1835. First published in 1852, *The Life and Adventures of William Buckley* is the ultimate survival story of early Australia and provides an extraordinary insight into pre-contact indigenous society. Tim Flannery has published over thirty books, including the award-winning *The Future Eaters*, *The Weather Makers* and *Here on Earth* and the novel *The Mystery of the Venus Island Fetish*. In 2005 he was named Australian Humanist of the Year and in 2007 Australian of the Year. In 2007 he co-founded and was appointed Chair of the Copenhagen Climate Council. In 2011 he became Australia's Chief Climate Commissioner, and in 2013 he founded the Australian Climate Council. 'This account, in Buckley's words...has all the elements of a Boy's Own yarn: convicts, savages, privations, wars, cannibalism, survival, treachery and the founding of a colony.' Herald Sun
