 Ovid Offshore Vessel Inspection Checklist  
 The Offshore Vessel Inspection Database (OVID) was developed in response to a request from OCIMF members to provide a database of offshore inspections broadly following the format of SIRE. Recognition that the offshore industry has different processes and procedures than the tanker world for assurance and chartering has been taken into account.  
 OCIMF - Offshore Vessel Inspection Database  
 The Oil Companies International Marine Forum will only use the information you provide on this form

to send you the monthly OVID Newsletter and occasional updates about OVID by email. You will receive an email asking you to complete your registration.  
 OCIMF - Offshore Vessel Inspection Database  
 The 1st Edition of the OVID Vessel Inspection Questionnaires and their accompanying Inspection Reports were introduced in early 2010. The OVID system is comprised of two fundamental elements:-These are:  
 1. The Offshore Vessel Inspection Questionnaire (OVIQ), which is an inspection document which relates to the operations  
 Offshore Vessel Inspection Database (OVID) Programme  
 accesses the vessel particulars from the OVID database along with the appropriate Offshore Vessel Inspection Questionnaire (OVIQ). The inspection covers the vessel's management systems as well as how the vessel operates. Once quality checked by the commissioning company, the report is sent to the vessel operator for comment. The report is then uploaded to the OVID database and is available for approved recipients to buy.  
 Offshore Vessel

Inspection Database (OVID) By Agus SALIM (Angk 05) OVID -OFFSHORE VESSEL INSPECTION DATABASE. OVID is a new tool that is being produced under the guidance of OCIMF on behalf of its members. Aim is to enhance the safety of Marine operations in the offshore industry and to protect the marine environment. OVID has been designed to provide a number of positive benefits to OCIMF/OGP members and vessel managers. Provides a robust web based inspection tool and database of offshore vessels ...OVID INSPECTION checklist inspection schemes. OVID uses the methodology and experience of 21 years of SIRE development, but focuses on non-tanker vessels and operations. 3 Components: OVPQ - Offshore Vessel Particulars Questionnaire OVIQ - Offshore Vessel Inspection Questionnaire OVMSA - Offshore Vessel Management and Self Assessment OCIMF's Offshore Vessel Inspection Database (OVID) Welcome to OVID. The Offshore Vessel Inspection Database (OVID) in response to a request from its members to provide a database of offshore inspections broadly following the format of SIRE; OCIMF's inspection protocol for oil, chemical and gas tankers that has been successfully operating since 1998. Recognition that the offshore industry has different processes and procedures than the tanker ...OCIMF - OVID Offshore Vessel Inspection Database (OVID) is an inspection protocol that will allow project and marine assurance teams to assess the safety and environment performance of a vessel and its operators in a more effective and uniform manner. Also, it helps make effective marine assurance process overcome the weakness of traditional checklist inspection schemes. Offshore Vessel Inspections (OVID) - IME The Repsol HSE Checklist Marine Inspection questionnaire developed by E&P may be used as guidance (see Appendix: IV). This inspection questionnaire is for internal Repsol use and will not be published nor made available for other Oil Companies or third parties. 2.3 Type of results of Vetting assessment There are four vessel statuses, as below: 2.3.1 On Hold A vessel whose Vetting assessment process has not been completed. This status should be for a maximum of 30 days. Offshore Vessel Vetting Process - Repsol The Inspection Element consists of a detailed Offshore Vessel Inspection Questionnaire (OVIQ) document (2015 2nd Edition) which has Key Questions dealing with safety and pollution prevention which the participating OVID report submitters' vessel Inspector must Offshore Vessels

Information Database (OVID) Programme ...Offshore Vessel Inspection Database (OVID) Inspections provided by DP & Marine Assurance offers high quality marine surveys of the highest standards offering a comprehensive range of support services to the marine, construction, drilling and floating production industries. We have substantial experience in Offshore Vessel Inspection Database (OVID) Inspections for the Marine, Engineering, Offshore and DP sectors. Offshore Vessel Inspection Database (OVID) Inspections ...Service provision includes fit for purpose assessments (suitability), condition surveys, project specific assurance and industry standard audits such as IMCAs CMID & eCMID, OCIMFs, OVID (offshore vessel inspection database) and JH series. Marine Surveys & Inspections; OVID, CMID Vessel Audits - LOC OCIMF say: "The aim of OVID is to provide a robust web based inspection tool and database of inspection reports; this will be underpinned with professional, trained and accredited inspectors. In the long term it is an aspiration that OVID will form a that is central to the selection and assurance of offshore vessels enhancing the safety of operations in the industry." OCIMF OVID Inspections - smss-group.co.uk About Offshore Vessel Inspection Database (OVID) The Offshore Vessel Inspection Database has been developed by OCIMF in response to a request from its members to provide a database of offshore inspections broadly following the format of SIRE. Recognition that the offshore industry has different processes and procedures than the tanker world for assurance and chartering has been taken into account. OCIMF - OVID These clients required pre employment surveys by using either CMID or their own checklist. The inspection includes the assessment of vessels for the required task as indicated by the client. We also provide services to inspect off shore vessel as per OCIMF OVIQ. Our OCIMF Accredited OVID inspectors can inspect at short notice.. Off Shore Vessel / CMID / OVID - PacMarine Offshore Vessel Inspection Database.
