Rebuilding Our Lost Connections with the Cosmos Sounds True

In *The Weiser Concise Guide to Practical Astrology*, Priscilla Costello introduces the reader to the basic principles of modern astrology and unveils the secrets of this elegantly developed language of symbols. Costello shares with the reader both the philosophical and esoteric world view of astrology, while exploring the meanings of signs, planets, houses, and aspects on many levels, as well as its connection to psychology, religion and spirituality, and related esoteric studies. *The Weiser Concise Guide to Practical Astrology* serves as both a primer for the new student of astrology and a handy reference for the more seasoned practitioner. As complete as it is concise, this course of study delves deeply into the history and true spirit of astrology, making it accessible to all.

The fourth volume to appear in the Seminar in Psychological Astrology series sponsored by the Centre for Psychological Astrology in London. In this exciting book, the authors team up to discuss the value of Mercury, Venus, and Mars as they symbolize important aspects of personality. This book is

about the process of understanding how the inner planets actually represent the individual, and how they directly color the energy of the Sun and the Moon.

Astrology and your future Motilal Banarsidass

This is the second of two volumes of transcribed lectures Darby Costello presented for the CPA in which she shared a dynamic and imaginative exploration of the four astrological elements. Poetic and comprehensive, this volume is a must-have introduction to the elements. Part One: Earth. Discover the nature and meaning of the earth element beginning with the importance of the earth rituals of archaic cultures. Next, explore the meaning of planetary placements in the three earthy signs, and the qualities of the planetary rulers of those signs. The complexity and subtlety of earth is further revealed through an analysis of the chart of Teilhard de Chardin, the remarkable Christian mystic and scientist who integrated two apparently disparate yet intimately connected dimensions of earth which form the great paradox of this element - its rationality and respect for facts, and its profound sense of the magic and transpersonal mystery inherent in the heart of material reality. Part Two: Air. The air element is often mistakenly thought to be "merely" rational. In this seminar Darby takes us on an expansive flight into the upper regions of the mind, exploring first the meaning and nature of air, and then examining planetary placements in the three airy signs and the attributes and mythology of the airy planetary rulers - which, according to traditional astrology, each govern both an earthy and an airy sign. The fluid and effervescent spirit of air is further revealed through the chart of the great poet W. B. Yeats, whose vision, fertility of ideas, and love of beauty in form and idea portray the

essential nature of this most elusive of the astrological elements.

Jung on Astrology brings together C. G. Jung's thoughts on astrology in a single volume for the first time, significantly adding to our understanding of Jung's work. Jung's Collected Works, seminars, and letters contain numerous discussions of this ancient divinatory system, and Jung himself used astrological horoscopes as a diagnostic tool in his analytic practice. Understood in terms of his own psychology as a symbolic representation of the archetypes of the collective unconscious, Jung found in astrology a wealth of spiritual and psychological meaning and suggested it represents the "sum of all the psychological knowledge of antiquity." The selections and editorial introductions by Safron Rossi and Keiron Le Grice address topics that were of critical importance to Jung—such as the archetypal symbolism in astrology, the precession of the equinoxes and astrological ages, astrology as a form of synchronicity and acausal correspondence, the qualitative nature of time, and the experience of astrological fate—allowing readers to assess astrology's place within the larger corpus of Jung's work and its value as a source of symbolic meaning for our time. The book will be of great interest to analytical psychologists, Jungian psychotherapists and academics and students of depth psychology, Jungian and post-Jungian studies, as well as to astrologers and therapists of other orientations, especially transpersonal.

Guidelines for Understanding the Essentials of the Birth Chart Weiser Books

Illustrates how aspects can offer a profound depiction of an individual and his or her destiny. • Contains comprehensive sections full of interpretations for every planetary combination. • Concepts are explained through the use of actual birth charts and diagrams. • A core textbook at the Faculty of Astrological Studies in London. Aspects are an essential piece of the astrological puzzle when it comes to interpreting and using the information that astrology can give us. It is not enough to know the placement of the planets on the horoscope. It is the relationships between the stars and planets that let us grasp the destiny of the individual. Aspects describe the drama of our lives--the complex configurations that influence what will happen to us over time. Sue Tompkins, a fellow of the Faculty of Astrological Studies in London, shows how to interpret aspects when doing daily astrological readings. She uses the lives of real people to plot the aspects and offers examples of every possible planetary combination. Detailing the influence of oppositions, trines and elemental trines, and cardinal, mutable, and fixed crosses, Tompkins shows how aspects provide the energy in the chart that transforms the horoscope into something symbolizing an alive and vital human being. With Aspects in Astrology, Tompkins provides both the novice and the experienced astrologer the evidence and concrete methods needed to grasp the vast knowledge offered to us by our horoscope.

A Synthesis of Jungian Psychology and Astrology Weiser Books

This book is the very essence of Jupiter. From its apt title, to its generous use of many famous chart examples, to Arroyo's trademark insight and wisdom on every page, "Exploring Jupiter" is positively a winner! The presentation of the astrology is clear, practical and intelligent, making it a must for both newer students and more experienced practising astrologers. Unlike the majority of modern astrologers, Arroyo refers to Jupiter's ancient rulership of Pisces as being significant, and the book is written with this in mind. Otherwise much of the book is built on the usual "cookbook" approach: Jupiter through the signs, Jupiter through the houses (arranged by element), Jupiter aspects in the birth chart and so on. As always with Stephen Arroyo, it is the clarity and profound depth of these guidelines for interpretation that is so striking. The chapter on transits involving Jupiter is particularly good, building on ideas he has expressed in earlier writings.

The Mythology, Psychology, and Astrology of the Re-Emerging Feminine Raven Dreams Press

Combining an understanding of astrological symbolism and the psychological processes involved in the pursuit of individuality, the author shares insights about how the concept of fate evolves. Through myths, fairy tales, and zodiacal signs, she shows us this mythological journey.

This recognized classic of modern astrology is truly a pioneering book. It established a new science of astrological psychology. It presents a language of energy that has enabled astrology to be widely and reliably used in the helping professions as well as by the general public. As Library Journal stated, "Transcending the boundaries of separate disciplines, this work represents a major distillation of astrological principles." This book relates astrology to modern psychology and explains the use of astrology as a practical method of understanding one's atonement to universal forces. It clearly shows how to approach astrology with a real understanding of the energies involved. Part 1 of the book explains how astrology can be the most valuable psychological tool for understanding oneself and others. Analyzing the scientific, philosophical, and intuitive dimensions of astrology, it is oriented toward the layman with no astrological knowledge, astrology students and professionals, and those engaged in any form of the counseling arts. Part II deals specifically with the interpretation and practical application of astrological factors based on the actual energies involved (air, fire, water & earth). It presents a dynamic application of astrological knowledge that clarifies and illuminates traditional techniques and meanings by placing them in the perspective of understanding the vital energies inherent in all life processes.

"Psychological Astrology and the Twelve Houses" will surprise you, whether you are a complete beginner or a seasoned professional: Noel Eastwood is a psychologist astrologer who approaches astrology as an altered state of consciousness. He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable, you need to experience the place for yourself: meet the locals in small cafes, discover hidden fountains and secret gardens. This is a practice-oriented work, Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual. He picked four well-known figures to illustrate the process of analysis on their charts: Barack Obama, Hilary Clinton, Justin Bieber and Taylor Swift. What makes this book truly unique, however, is an invitation to meet your astrological archetypes. To show where such an inner journey can take you, Noel shares his personal meditations as if you were reading his private travel diary."

Building Blocks of Personal Reality Routledge

In this first of two volumes on the astrological elements, Darby Costello examines the water and fire archetypes through their expressions in myth, alchemy, philosophy and psychology, and then through the water signs and water houses in the horoscope.

The Development of Personality Weiser Books

It was a long time ago and few alive now remember what life was like in England in the years after World War II. Yes, the Luftwaffe and Vengeance weapons had made a fine mess in the south of the country, but during the war years the Yanks were there, millions of them, seducing the womenfolk, brawling in pubs, and, most importantly, spending their pay with local shopkeepers. May, 1945, the war ended and all the Americans left. Most went home, but a sizeable contingent set up shop in Germany, where, to the best of their ability given the local ruins, they carried on as before, seducing the womenfolk, brawling in pubs and spending their pay with the surviving shopkeepers. The Americans were joined by contingents of English, French and Soviet troops. As a result, the surprising fact, long forgotten, is that after the war, conditions in England were even worse than they were in post-Third Reich Germany. Some in Britain rued winning the war, as deprivation became their fate. In London after the war books were so scarce that used vendors had long lists of people waiting for the few books that turned up. For schools in London which taught astrology, the situation was impossible. Responding to the post WWII book shortage, Margaret Hone published this ultimate Astrology Text-Book. She was born in Birmingham, England, on October 2, 1892, at 2:13 am. Her ascendant was 27 Leo; her Sun was 9 Libra; her Moon was 13 Aquarius. Her midheaven was 15 Taurus. Of Ms Hone, James Holden wrote, "English astrologer, educator, and author. She was a professional astrologer and private teacher for many years and later was Principal and Director of Studies of the Faculty of Astrological Studies 1954-1969 and Vice President of the Astrological Lodge of London. Mrs. Hone was an advocate of the Equal House system of house division. She is best known in the U.S. for her two instruction manuals." This book is dedicated to Charles E.O. Carter, 1887-1968. Carter succeeded Alan Leo as head of the Astrological Lodge (1920-1952) and was First Principal of the Faculty of Astrological Studies, which he helped found in 1948. Hone succeeded Carter at FAS. She passed away on October 14, 1969. In his Preface, while quick to praise Hone, a personal friend, Charles Carter also pointed out that this book's high price was justified, that "padding has been rigorously excluded." He goes on to praise the workmanship, the carefully worded definitions, as well as the fact that the book was complete and entire in itself. Save for ephemeris and tables of houses, this one book would suffice beginning as well as advanced students for some years. In addition, Hone also includes one of the earliest modern histories of astrology, short biographies of leading astrologers past and present, astrology and public opinion (daily horoscopes in the newspapers were a recent innovation). On a more practical side, Hone gives a thorough analysis of the principal house systems of the day (Equal, Campanus, Regiomontanus, Placidus), and even mentions C.G. Jung's recently developed Depth Psychology.

Examines the traditional wisdom of astrology in the light of Jungian psychology, revealing the horoscope as a picture of our psychic structure and a key to self-knowledge and personal growth. The Missing Element Pustak Mahal

Everyone longs to be understood in their essence. In "The Missing Element", author Debra Silverman describes human nature in a compassionate and succinct way, and offers ways for us to get to know ourselves in depth with the wisdom of archetypes. The information in this book stands on the shoulders of our elders, who understood the four directions, the four elements, the four noble truths. Whatever pain you experience is specific to your personality type, based on the four elements. The 'missing element' is twofold: it refers to the Observer inside you – the part of you that can stand outside of judgment and see yourself with a more wise and compassionate approach – much like our elders did. And it also refers to the elements that make up your personality and more specifically, to the element which is your weakest. Your issues will repeat themselves again and again until you can see yourself and others from the compassionate vantage point that unites all of us. You will understand that your life and all its stories were designed by your soul to get your attention right now. It is inviting you to seek the wisdom of the ages to help you grow... that's why you found this book at this moment in time!

This book shows how the discovery of the asteroids Ceres, Pallas Athena, Juno, and Vesta coincided with the shift of a woman. The creating, supporting, nurturing aspect held by the goddess Ceres, the universal mother, brings us to how we feel nurtured and how we function with our roles of mother-child. She embodies the principle of unconditional love. Pallas Athena is our Warrior Goddess, a woman in a man's world, carrying the principle of creative intelligence. Vesta, our goddess of Focus and Commitment, is our High Priestess. Juno, the Queen of Heaven and Divine Consort, is our capacity for meaningful relationships. Understanding the themes that each goddess holds enriches our understanding of that function and expression in our lives.
