WATSON GONZALEZ

The Singing Sands Camden

From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last,

based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of "blink": the election of Warren Harding; "New Coke"; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of "thin-slicing"--filtering the very few factors that matter from an overwhelming number of variables.

Beloved heroes Lucas Davenport and Virgil Flowers are up against a powerful vigilante group with an eye on vengeance in a stunning new novel from #1 New York Times-bestselling author John Sandford. The Five is believed to be made up of vigilante killers who are very bored...and very rich. They target the worst of society--rapists, murderers, and thieves--and then use their unlimited resources to offset the damage done by those who they've killed, donating untraceable bitcoin to charities and victims via the dark net. The Five soon become the most popular figures on social media, a modern-day Batman...though their motives may not be entirely pure. After a woman is murdered in the Twin Cities, Virgil Flowers and Lucas Davenport are sent in to

investigate. And they soon have their hands full--the killings are smart and carefully choreographed, and with no apparent direct connection to the victims, the Five are virtually untraceable. But if anyone can destroy this group, it will be the dynamic team of Davenport and Flowers.

A love festival, an ancient legend, an online Marry Mason contest, and a surprise marriage of convenience... "What could possibly go wrong?" Plain Janie Adams may be a rule follower, but she's no fool. When her sleazy boss dangles a promotion in front of her - a dream job producing TV news - she takes off for tiny Rose Quartz, New Mexico, to produce a feature on the town's annual Valentine's Day festival. Rose Quartz is famous for two things: its successful marriages, and its namesake mines that produce the mystical Love Stone, reputed to keep lovers true. But what starts out as a simple assignment gets outrageously out of hand when sexy Mason Hart enters the picture. Owner of the last mine in town still producing the Love Stone, Mason is annoyingly brash, hotter than hell, and - thanks to a ludicrously antiquated family tradition - in a serious bind: If he doesn't marry by his thirtieth birthday, just two weeks away, he'll lose all claim to the family mines and ranch forever. As an old legend resurfaces and Rose Quartz begins to work its magic, life as Janie knows it starts doing cartwheels. Voluntarily abandoning her hometown and what she thought was her perfect job, Janie shocks everyone - especially herself - with an impulsive dive into a marriage of convenience. But as she begins to re-envision the person she thought she was, she realizes her sham of a marriage is truly just a business deal, and her gorgeous husband is nothing but a stranger. Will she end up losing Mason - or will she wind up gaining the life and love of her dreams? MARRY ME TWICE is Book One in the Rose Quartz series. All of the victims are ex-Delta Forces, and all were involved in a top-secret Iranian hit under Reznick's command. Retribution will not be complete until Reznick is wiped out too. With Iran's ruthless Quds Force hunting him down on US soil, assisted by a powerful Mexican drug cartel determined to increase its own foothold in the country, Reznick's survival is a threat to national security. [Murder in Mesopotamia](#) Thomas & Mercer

In 1996 physicist Alan Sokal published an essay in Social Text--an influential academic journal of cultural studies--touting the deep similarities between quantum gravitational theory and postmodern philosophy. Soon thereafter, the essay was revealed as a brilliant parody, a catalog of nonsense written in the cutting-edge but impenetrable lingo of postmodern theorists. The event sparked a furious debate in academic circles and made the headlines of newspapers in the U.S. and abroad. Now in Fashionable Nonsense: Postmodern Intellectuals' Abuse of Science, Sokal and

his fellow physicist Jean Bricmont expand from where the hoax left off. In a delightfully witty and clear voice, the two thoughtfully and thoroughly dismantle the pseudo-scientific writings of some

of the most fashionable French and American intellectuals. More generally, they challenge the widespread notion that scientific theories are mere "narrations" or social constructions.
