Have you ever just wondered about life? What is Life? Is there God? How do we fit into the universe? What is our relationship with other living things? What does it mean to be human? Doctor Ergo provides you with a firm background and vantage point from which to view those questions. You will gain a comprehensive perspective on Life and the human condition - from the Big Bang, through Life history on this planet, to the current condition of our human mind and species, and some solid thoughts on what Life....is. This is a Story of Life. In a Darwinian world, our mental capacity has enabled us to ascend to the pinnacle of the survival pyramid. Therefore, the essence of the story about our species centers on our mind. Our cognitive skills are built upon the neural architectures that originally developed for vision and for speech/hearing. We can be aware of the 2 sides of our mind through introspection of our own consciousness: Vision based - non-verbal emotions, feelings and intuitions coming from our vision-based cognition in our Right Brain. Speech based - words, thoughts, and reasoning coming from our speech-based cognition in our Left Brain. Vision developed quickly in the Cambrian Period (570 million years ago) when the earliest animals with body forms emerged. Vision enabled the animal to see the "world," and gave the animal a sense of "self," i.e. that which was viewing the world. Consequently the concepts of "world" and "self" are deeply embedded in the cognition that developed from the

vision neurological architecture. Likewise, Darwinian survival necessitated identification of same-species animals (for protection and reproduction); hence the concept of "group" is also deeply embedded in the vision-based neurology. Our speech-based left brain has no equal anywhere else in Life on this planet. This is what has made possible the major advances of the human mind, separated us from the animals, and enabled us to conquer the planet. This Sensory Mind model clarifies Plato's writings and the psychological models that were developed by Sigmund Freud and Carl Jung. The personality types tested by Myers-Briggs, which are based on the theories of Carl Jung, are consistent with the Sensory Mind. Major trends in human history have been about the growth of our collective left brain in the governance of human affairs and its interplay with our vision-based (non-verbal) right mind. Our human "advances" have largely resulted from development of our speech-based mind, but the essence and truth of life comes to us from our vision-based mind. Our earliest groupings and civilizations were largely governed by vision-based animal grouping models. These have evolved into newer civilizations and human groupings that include participation and/or leadership of our left brain "group-think." We are very familiar with the concept of Darwinian survival and its role in the evolution of Life. However, Darwinian survival is simply the strategy or tactic that governs the advancement of Life. What is it that drives Life to engage in the Darwinian struggle for survival? There IS a Life Drive that fuels evolution...what is it? The Life Drive permeates all of life and is the force that drives Darwinian evolution. It is

theorized that Life is a previously unidentified parameter in Einstein's Theory of Relativity and that it exists at the conditions opposite to the Big Bang conditions. Most religious and belief systems, whether god-based such as Judaism, Christianity, or Islam, or spiritually-based such as Buddhism or Taoism, are oriented towards the ultimate truth that is Life.

The career of playwright Joy Sinclair comes to an abrupt end on an isolated estate in the Scottish Highlands when someone drives an eighteen-inch dirk through her neck. Called upon to investigate the case in a country where they have virtually no authority, aristocratic Detective Inspector Thomas Lynley and his partner, Detective Sergeant Barbara Havers, grapple for both a motive and a murderer. Emotions

run deep in this highly charged drama, for the list of suspects soon includes Britain's foremost actress, its most successful theatrical producer, and the woman Lynley loves. Silent Night Doctor Who

Doctor and Martha are transported by the Tardis to the mysterious Museum of the Last Ones. Doctor Who: All Flesh is Grass

'Even though they're gone from the world, they're never gone from me.' The Doctor is many things - curious, funny, brave, protective of her friends...and a shameless namedropper. While she and her companions battled aliens and travelled across the universe, the Doctor hinted at a host of previous, untold adventures with the great and the good:

we discovered she got her sunglasses from Pythagoras (or was it Audrey Hepburn?); lent a mobile phone to Elvis; had an encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, *Star Tales* takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth behind these anecdotes.

Bigger on the Inside Random House
For this new edition of *The Writer's Tale*, Russell T Davies and Benjamin Cook expand their in-depth discussion of the creative life of Doctor Who to cover Russell's final year as Head Writer and Executive Producer of the show, as well as his work behind the increasingly successful *Torchwood* and *The Sarah Jane Adventures* spin-offs. Candid and witty insights abound throughout two years' worth of correspondence, covering David Tennant's last episodes as the Doctor and the legacy that Russell and David leave behind as a new era of Doctor Who begins. With over 300 pages of new material, and taking in events from the entire five years since the show's return in 2005, *The Writer's Tale: The Final Chapter* is the most comprehensive - and personal - account of Doctor Who ever published.

Ashildr, a young Viking girl, died helping the Doctor and Clara to save the village she loved. And for her heroism, the Doctor used alien technology to bring her back to life. Ashildr is now immortal - *The Woman Who Lived*. Since that day, Ashildr has kept journals to chronicle her extraordinary life. *The Legends of Ashildr* is a glimpse of some of those stories: the terrors she has faced, the battles she has won, and the treasures she has found. These are tales of a woman who lived longer than she should ever have lived - and lost more than she can even

remember. An original novel featuring the Twelfth Doctor as played by Peter Capaldi, and Ashildr as played by Maisie Williams.

Doctor Who: Twelve Doctors of Christmas Random House

Based on the beloved Doctor Who episode of the same name by Douglas Adams, the hilarious and brilliant author of *The Hitchhiker's Guide to the Galaxy*, comes *City of Death*... "A nasty, savage race, the universe was glad to see the back of them..." 4 billion BCE: The Jagaroth, the most powerful, vicious, and visually unappealing race in the universe disappears from existence. Few are sad to see them go. 1505 CE: Leonardo da Vinci is rudely interrupted while gilding the lily by a most annoying military man by the name of Captain Tancredi. 1979 CE: Despite his best efforts not to end up in exactly the right place at exactly the wrong time, the Doctor, his companion Romana, and his cybernetic dog, K-9, arrive for a vacation in Paris only to discover that they have landed not only in one of the less romantic periods in Parisian history, but in a year in which the fabric of time has begun to crack. It is once again up to the Doctor to uncover an audacious alien scheme filled with homemade time machines, the theft of the Mona Lisa, the resurrection of the Jagaroths, and the beginning (or possibly the end--it is all quite complicated, you see) of all life on Earth. Some holiday indeed...

Murder Is Easy Random House

What if you had been there on the night that Jesus was born? What if you could have held the infant Son of God, when He was only a few minutes old? How would it feel to have God Himself in your arms, vulnerable, approachable, and unassuming? In "A Ragamuffin Christmas" Craig Daliessio provides just

that view of the Nativity. Far from the usual retelling of a baby, some shepherds, and the Virgin Mary; this is the story of criminals, broken hearted moms, scandalous characters, and legendary Saints, each granted their own visit with the newborn King of Kings. The people and images are unmistakable...and the result of each interaction is life changing. This is the Christmas story as it's never been told before.
