Trinidad was adopted when she was less than a year old and transplanted thousands of miles away from her parents and eleven brothers and sisters. She grows up in a loving home in the suburbs of California--or so she thought. She is given another name, a different birthday, and never quite feels like she fits in. Over time, strange visions and deep dark fears begin to surface in Trinidad's mind, forcing her to question everything. Maybe she has a mental illness? Finally, when she turns

25, she reunites with her long-lost family in the Philippines. The Dorognas, a fishermen family whose last name translates to "crushed," are sweet people who have nothing to give Trinidad except the clothes off their backs and countless stories about their own lives. To Trinidad, each story is a missing puzzle piece to her own life. She listens, over cheap bottles of brandy, as her family weaves together their tales of grief, laughter, killer typhoons, giants, sirenas, and the aswang. Crushed is a story about the myths from our homelands and the myths of our personal memories. It is a journey through suffering, enduring love, and the quest to build a temple of the Self.

"In any language," says the bone. "And I can imitate any sound there is." (Its former owner was a witch.) Pearl and the bone immediately take a liking to each other, and before you know it she is on her way home with the bone in her purse, left open so they can continue their conversation. Won't her parents be surprised when she introduces her talking bone! what humanity really means." Best friends have become enemies. Lovers have become strangers. And deciding whose side you're on could be the difference between life and death. For Eve and Lemon, discovering the truth about themselves--and each other--was too much for their friendship to take. But with the country on the brink of a new world war--this time between the BioMaas swarm at CityHive and Daedalus's army at Megopolis, loyalties will be pushed to the brink, unlikely alliances will form and with them, betrayals. But the threat doesn't stop there, because the lifelikes are determined to access the program that will set every robot free, a task requiring both Eve and Ana, the girl she was created to replace. In the end, violent clashes and heartbreaking choices reveal the true heroes . . . and they may not be who you think they are.
