Tahukah Kalian? Bugatti Type 35 merupakan mobil balap tersukses di dunia dengan memenangkan 1.000 balapan dan 47 rekor. Karena tak bisa membeli perusahaan Ferrari, Henry Ford membuat mobil balap GT40 yang mendominasi kejuaraan balap

mobil 24 jam Le Mans. Mobil balap Lotus 72 menjuarai F1 hanya dalam setengah musim! Scuderia Ferrari menjadi tim F1 tertua dan tersukses dengan 224 juara seri dan 16 kali juara dunia. Lancia Delta pegang rekor mobil paling banyak merebut juara reli WRC enam kali secara beruntun. Tak ada yang bisa menandingi kedahsyatan Mitsubishi Pajero Sport dengan memenangkan 12 kali juara Reli Dakar.

Hezbollah: The Global Footprint of Lebanon's Party of God is the first thorough examination of Hezbollah's covert activities beyond Lebanon's borders, including its financial and logistical support networks and its criminal and terrorist operations worldwide. Hezbollah—Lebanon's "Party of God"—is a multifaceted organization: It is a powerful political party in Lebanon, a Shia Islam religious and social movement, Lebanon's largest militia, a close ally of Iran, and a terrorist organization. Drawing on a wide range of sources, including recently declassified government documents, court records, and personal interviews with intelligence and law enforcement officials around the world, Matthew Levitt examines Hezbollah's beginnings, its first violent forays in Lebanon, and then its terrorist activities and criminal enterprises abroad in Europe, the Middle East, South America, Southeast Asia, Africa, and finally in North America. Levitt also describes Hezbollah's unit dedicated to supporting Palestinian militant groups and Hezbollah's involvement in training and supporting insurgents who fought US troops in post-Saddam Iraq. The paperback edition includes a new afterword by the author that updates the book for Hezbollah's role in the civil war in Syria, their ongoing shadow war with Israel, and for the trials of Hezbollah operatives accused of terrorist plots.

An in-depth look at the Chinese car industry that sheds new light on the delicate nature of China's planned economy China's unprecedented growth over the last three decades, along with the recent financial crisis in the West, has raised questions about the superiority of state-led capitalism. In *Designated Drivers: How China Plans to Dominate the Global Auto Industry*, G.E. Anderson, a specialist in finance and Chinese political economics, uses the auto industry to examine how China's industrial planning works, and explores whether state involvement in the economy really is a winning formula for sustainable growth. Bringing to light the strengths and weaknesses that define the Chinese economy, Anderson finds that in some ways the government has become its own worst enemy, unable to choose between industrial competitiveness and social stability. While the economy is booming now, evidence suggests that long-term success is far from assured. Tracing the evolution of the post-Mao auto industry through thirteen case studies, *Designated Drivers* raises the difficult questions about the future of China that few people have dared to ask. Offers a unique insight into the Chinese economy through the lens of the auto industry Explores how successful the central government has been in spurring economic growth and the long-term costs of intervention Uses case studies to illustrate China's explosive growth over the last three decades A painstakingly researched analysis of the Chinese automobile industry, *Designated Drivers* explains the risks and rewards inherent in doing business in China that anyone interested in, or already working there need to understand.

The importance of Sport Tourism as a developing science and Sport Events specifically is on the increase. This is especially true when experts say that sport tourism is big business. South Africa, like most other countries, hosts thousands of sport events each year. Therefore, destinations compete fiercely not only to host these events but also to offer quality events. All this is happening despite the fact that there is a lack of properly trained sport and event managers. Therefore, the purpose of this book is to equip the reader with specific knowledge and skills about the sport and events tourism phenomenon. The book deals with a wide variety of topics, stretching from the history of sport tourism to new and globally important issues such as the greening of sport events. The book is a useful tool for both students and practitioners alike, since it also provides guidelines and case studies.

NEW YORK TIMES BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject." WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré

They called him God. For his grace on a bicycle, for his divine talent, for his heavenly looks. Frank Vandenbroucke had it all, and in the late nineties he raced with dazzling speed and lived even faster. The Belgian won most of cycling's most prestigious races, including Liège-Bastogne-Liège and Paris-Nice, enthralled a generation of cycling fans. Off the bike, he only had one enemy - himself. His rise to prominence coincided with a rampant period of doping and Vandenbroucke had a wayward streak. He regularly fell out with team managers and had all-night party sessions mixing sleeping pills and alcohol. A drugs scandal started a long fall from grace, leading to addiction, car crashes, court appearances, marital problems and suicide bids, punctuated by sporting comebacks. His life was like a soap opera and its premature ending shocked many. In October 2009, aged thirty-four, Vandenbroucke was found dead in a Senegalese hotel room - in mysterious circumstances. Led by candid contributions from his closest family, friends and associates, William Hill award-winning author Andy McGrath lays bare Vandenbroucke's turbulent life story. *God is Dead* is the compelling biography of this mercurial cycling prodigy.

dagger Israeli campaign to target the finances fueling terror organizations--an effort that became the blueprint for U.S. efforts to combat threats like ISIS and drug cartels. ISIS boasted \$2.4 billion of revenue in 2015, yet for too long the global war on terror overlooked financial warfare as an offensive strategy. "Harpoon," the creation of Mossad legend Meir Dagan, directed spies, soldiers, and attorneys to disrupt and destroy money pipelines and financial institutions that paid for the bloodshed perpetrated by Hamas, Hezbollah, and other groups. Written by an attorney who worked with Harpoon and a bestselling journalist, Harpoon offers a gripping story of the Israeli-led effort, now joined by the Americans, to choke off the terrorists' oxygen supply, money, via unconventional warfare.
