## DYER GOODMAN

Connect to Text: Strategies for Close Reading and Writing HarperCollins

Winner of the National Book Award for Young People's Literature, the Michael L. Printz Award, and the Pura Belpré Award! Fans of Jacqueline Woodson, Meg Medina, and Jason Reynolds will fall hard for this astonishing New York Times-best-selling novel-in-verse by an award-winning slam poet, about an Afro-Latina heroine who tells her story with blazing words and powerful truth. Xiomara Batista feels unheard and unable to hide in her Harlem neighborhood. Ever since her body grew into curves, she has learned to let her fists and her fierceness do the talking. But Xiomara has plenty she wants to say, and she pours all her frustration and passion

onto the pages of a leather notebook, reciting the words to herself like prayers—especially after she catches feelings for a boy in her bio class named Aman, who her family can never know about. With Mami's determination to force her daughter to obey the laws of the church, Xiomara understands that her thoughts are best kept to herself. So when she is invited to join her school's slam poetry club, she doesn't know how she could ever attend without her mami finding out. But she still can't stop thinking about performing her poems. Because in the face of a world that may not want to hear her, Xiomara refuses to be silent. "Crackles with energy and snaps with authenticity and voice." —Justina Ireland, author of *Dread Nation* "An incredibly potent debut." —Jason Reynolds, author of the National Book Award Finalist *Ghost* "Acevedo has amplified the voices of girls

en el barrio who are equal parts goddess, saint, warrior, and hero." —Ibi Zoboi, author of *American Street*

[Long Way Down](#) ABC-CLIO

In this volume, the communicative and neuropsychological correlates of daily interactions are discussed. The predominant account on explaining the construction of meaning by humans is the inter-relational perspective, that postulates an intentional convergence of meaning arising as a consequence of the active exchanges between people. The neural correlates of communication were illustrated in the light of new empirical results, considering the main topics of: a) language and language development; b) pragmatics and neuropragmatics of communication; c) neurocognition and the cognitive bases of intentions; d) nonverbal communication and emotion contribution to the communicative systems. New

methodological approaches are considered, with particular attention to neuroimaging (such as PET and fMRI) and brain stimulation techniques (as MEG and TMS), as well as their application to the clinical field.

The 171 extant plays of the Yuan period (1279-1368) are the oldest and most brilliant examples of Chinese dramatic literature. In this first comprehensive study, Chung-wen Shih systematically explores the riches of Yuan drama, from its unexcelled lyric poetry to its colorful characterization. After tracing the popular genres that contributed to the flowering of Yuan drama, the author describes conventional features of dramatic construction, methods of characterization, and recurring themes. The central focus is on the use of language: prose passages and lyrics are cited to show how innovative use of spoken language invests the prose with a remarkable strength and suppleness, and how imaginative use of figurative language endows the poetry with an incomparable richness of texture. Attention is also given to the use of music and physical aspects of staging. Originally published in 1976. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read

closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

ABOUT PCG EDUCATION PCG Education, a division of Public Consulting Group, works with schools, districts, and state education agencies to build their capacity for instructional and programmatic improvements. We provide curriculum development, coaching, professional development, and technical assistance services. Our work alongside educators and policy makers ensures effective implementation of both the Common Core State Standards and state-specific standards for college and career readiness.

*The Books of Haggai and Malachi* Wm. B. Eerdmans Publishing

In this commentary on Haggai and Malachi, Mignon Jacobs offers clear and insightful interpretation of the text while highlighting themes that are especially relevant to contemporary concerns, such as honoring or dishonoring God, the responsibilities of leaders, questioning God, and hearing the prophetic word in challenging times. Engaging with the latest scholarship, Jacobs provides a thorough introduction to both prophets in which she addresses questions of authorship, date, purpose, structure, and theology, followed by a new translation of the biblical text and a verse-by-verse commentary. With intertextual discussions about key aspects of the text and attention to competing perspectives, this commentary offers a rich new interpretation of Haggai and Malachi.

**The Crossover** Univ Santiago de Compostela

The #1 New York Times bestselling and Newbery Award-winning novel *The One and Only Ivan* is now a major motion picture streaming on Disney+ This unforgettable novel from renowned author Katherine Applegate celebrates the

transformative power of unexpected friendship. Inspired by the true story of a captive gorilla known as Ivan, this illustrated book is told from the point of view of Ivan himself. Having spent twenty-seven years behind the glass walls of his enclosure in a shopping mall, Ivan has grown accustomed to humans watching him. He hardly ever thinks about his life in the jungle. Instead, Ivan occupies himself with television, his friends Stella and Bob, and painting. But when he meets Ruby, a baby elephant taken from the wild, he is forced to see their home, and his art, through new eyes. In the tradition of timeless stories like *Charlotte's Web* and *Stuart Little*, Katherine Applegate blends humor and poignancy to create an unforgettable story of friendship, art, and hope. *The One and Only Ivan* features first-person narrative; author's use of literary devices (personification, imagery); and story elements (plot, character development, perspective). This acclaimed middle grade novel is an excellent choice for tween readers in grades 5 to 8, for independent reading, homeschooling, and sharing in the classroom. Plus don't miss *The One and Only Bob*, Katherine Applegate's return to the world of Ivan, Bob, and Ruby!

*Reading Closely and Writing to Analyze: Teacher Guide* Princeton University Press Even as the major superhero film franchises appear to be exhausting their runs *The Umbrella Academy* demonstrates that the superhero genre is still extremely effective at creating role models with lasting psychological resonance and allegories with extraordinary emotional impact. These essays give a voice to the misunderstood family members of *The Umbrella Academy* in the comic book series and its highly popular Netflix adaptation. They explore different forces like individualism, identity, family, and feminism. One of the most striking features that unites these concepts is the linkage between violence with voice, as well as violence's aestheticized depiction.

**The One and Only Ivan** Syracuse University Press

Trade in goods and services has

historically resisted territorial confinement, but trademark protection remains territorial, albeit within an increasingly important framework of multilateral treaties. Trademark law therefore demands that practitioners, policy-makers and academics understand principles of international and comparative law. This handbook assists in that endeavour, with chapters describing and critically analyzing international and regional frameworks, and providing comparative perspectives on the substantive issues in trademark law and related fields, such as geographic indications, advertising law, and domain names. Chapters contrast common law and civil law approaches while focusing on the US and EU trademark systems in light of the role these systems have played in the development of trademark laws. Additionally, this handbook covers other jurisdictions, both common law and civil law, on the Asia-Pacific, African, and South American continents. This work should be read by anyone seeking a better understanding of trademark law around the world.

*Essays on Voices and Violence in the Comics and Netflix Series* Corwin Press From Audre Lorde, Ntozake Shange, and Bessie Head, to Zanele Muholi, Suzan-Lori Parks, and Missy Elliott, Black women writers and artists across the African Diaspora have developed nuanced and complex creative forms. Mecca Jamilah Sullivan ventures into the unexplored spaces of black women's queer creative theorizing to learn its languages and read the textures of its forms. Moving beyond fixed notions, Sullivan points to a space of queer imagination where black women invent new languages, spaces, and genres to speak the many names of difference. Black women's literary cultures have long theorized the complexities surrounding nation and class, the indeterminacy of gender and race, and the multiple meanings of sexuality. Yet their ideas and work remain obscure in the face of indifference from Western scholarship. Innovative and timely, *The Poetics of Difference* illuminates understudied queer contours of black women's writing.
