The Yoga Sutra is the great motherbook of all the yoga works ever written; it was composed by the Indian master Patanjali some 2,000 years ago. The Sanskrit text is written in 210 briefs, cryptic verses whose meaning has long ago sunk into darkness; the many, confusing modern attempts to explain them bear little resemblance to each other, which is just a sign of how difficult this priceless little book can be. How Yoga Works has been acclaimed as a must-read for anyone who does yoga and who wants to know what the Yoga Sutra really says. It is an especially popular reading for yoga teacher training courses throughout the world, and as a personal daily guide for spiritual inspiration

Intercultural Collaboration by Design introduces a framework for collaborating across cultures and learning to use multicultural perspectives to address pressing global issues. This handbook helps people work, learn, and teach across cultures. Through the activities highlighted in this book, virtual and intercultural teams will find a practical route for initiating and sustaining productive work across disciplinary and social barriers. Teams can craft a plan to achieve their goals by selecting the activities that best meet their needs and interests. First-person anecdotes from the authors demonstrate how the activities encourage teams to embrace diverse perspectives in order to create innovative solutions. With over 30 hands-on activities, this book will be of great interest to diverse teams from a variety of disciplines who want to enhance intercultural learning and co-working. Whether in the classroom or workplace, the activities are appropriate for a variety of collaboration contexts, without a need for background in art or design.

The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians cyclists and motorcyclists in particular those living in developing countries. The report suggests that the price paid for mobility is too high especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

This is a demanding book—but our times are demanding. It is an honest book—and our times demand truth. —Matthew Fox, American priest, theologian, and author The genius of this book is the knowledge that this catastrophe is a necessary precursor to a radical transformation that we are co-creating with the divine. Radical Regeneration is an indispensable guide for what lies ahead. —Betty J. Kovács, Ph.D., author of Merchants of Light: The Consciousness That Is Changing the World This book, Radical Regeneration, is a radiant offering of the possibility of the evolution of human consciousness in the midst of extinction. It's exactly the fierce and sacred medicine we need right now. —V (formerly known as Eve Ensler), author of The Vagina Monologues and The Apology Andrew Harvey and Carolyn Baker invite us to rise to these times as a grand initiation, to be renewed in splendor, or to stand idly and be swallowed by Kali, the goddess of time and death. —Alberto Villoldo PhD, Bestselling author of One Spirit Medicine and Shaman Healer Sage If ever we needed a guidebook that truly addressed the crises of our times while inspiring us with guidance and wisdom, this is that book. —Caroline Myss, author of Anatomy of the Spirit and Intimate Conversations with the Divine What is being made crystal clear is that humanity stands at a monumentally fragile threshold with two stark choices placed before it in a situation of complete uncertainty: Those choices are: 1) To continue to worship a vision of power, totally distanced from sacred reality 2) Or to choose the path of submitting bravely to the alchemy of being transfigured by a global dark night event that shatters all illusions but reveals the greatest imaginable possibility being born out of the greatest imaginable disaster. If humanity chooses the second path, which is what is being celebrated in this book, then it will have trained itself in the new radical unity necessary to weather the even worse crises that most certainly will quickly follow.

For instance, why do consumers repeatedly purchase a particular brand or, in some cases, why do they switch from one product to another? In this compact, concise and profusely illustrated text, Professor Majumdar, with his rich and varied experience in Marketing, tries to provide interesting insights into some of these and other interesting questions about consumer behaviour. He gives a masterly analysis of the theory and practice of consumer behaviour and decision making and the factors that influence it. Divided into six parts, Part I of the text shows the importance of understanding consumer behaviour; Part II highlights different aspects of consumer psychology and covers such topics as consumer motivation, consumer perception, and consumer personality. Part III demonstrates how consumers behave in their social and cultural settings, the effect of personal factors, and the influence of reference groups on consumer behaviour. Part IV dealing with consumer decision making describes the various stages involved in brand choice, the post-purchase behaviour and, importantly, the six well-established models proposed by scholars on consumer behaviour. Part V analyzes the diversity of the Indian market and about the emerging patterns of consumer behaviour.

This valuable book provides a complete manual for the study and practice of Raja Yoga, the path of concentration and meditation. This new edition of these timeless teachings is a treasure to be read and referred to again and again by seekers treading the spiritual path. The classic Sutras (thought-threads), at least 4,000 years old, cover the yogic teachings on ethics, meditation, and physical postures, and provide directions for dealing with situations in daily life. The Sutras are presented here in the purest form, with the original Sanskrit and with translation, transliteration, and commentary by Sri Swami Satchidananda, one of the most respected and revered contemporary Yoga masters. In this classic context, Sri Swamiji offers practical advice based on his own experience for mastering the mind and achieving physical, mental and emotional harmony.

The first authoritative biography of Babaji, the immortal master made famous by Yogananda's *Autobiography of a Yogi*, an all-time best-seller. Babaji lives today near Badrinath, in the upper Himalayan mountains. His body has not aged since the age of sixteen, when centuries ago he attained the supreme state of enlightenment and divine transformation. This followed his initiation into scientific art of Kriya Yoga by two deathless masters, the siddhas Agastyar and Boganathar, who belonged to the "18 Siddha Tradition", famous among the Tamil speaking people of southern India. This rare account, by a long time disciple, reveals their little known stories, ancient culture and present mission, as well as how their Kriya Yoga can be used to bring about the integration of the material and spiritual dimensions of life. Clear explanations of the psychophysiological effects of Kriya Yoga and guidelines for its practice are given. It includes verses from the Siddhas' writings with commentary. A book which will inspire you.

A classic work of Indian philosophy that succinctly spells out how the mind works and what is needed to attain liberation. In 196 short aphorisms, this classic work of Indian philosophy succinctly spells out how the mind works and how it is possible to use the mind to attain liberation. The Yoga-Sūtra is a road map of human consciousness and a helpful guide to the mental states that one encounters in meditation, yoga, and other spiritual practices. Chip Hartranft's translation and extensive, lucid commentary bring the text beautifully to life. He also provides useful auxiliary materials, including an afterword on the legacy of the Yoga-Sūtra and its enduring relevance for us today.

How Yoga Works iUniverse

The Yoga Sutras of Patanjali are the foundational texts of the science of yoga. In this book, Sri Sri Ravi Shankar, a master of yoga for the 21st century, offers his own commentary on this fundamental work. "The aim of Patanjali Yoga is to set man free from the cage of matter. Mind is the highest form of matter and man freed from this dragnet of Chitta or Ahankara (mind or ego) becomes a pure being." - H. H. Sri Sri Ravi Shankar
