Framed in relation to diaspora this collection engages with the subject of how cultural difference is lived and how complex and shifting identities shape and respond to spatial politics of belonging. Diaspora is understood in a variety of ways, which makes this an eclectic collection of papers. Authors use various theoretical frameworks to explore diverse groups of people with a variety of experiences in a wide range of settings. They are making sense of the experiences of women and men from a range of ethnic backgrounds, negotiating identities through family, work and education. The micro dynamics of the everyday offer an evocative 'bottom up' means of understanding the tensions

implicit in living multiple belongings. The common thread for the collection comes from the glimpses these authors provide into the remaking of our globalized world. The aim is to shed light on racism, dislocation and alienation on the one hand, and on the other hand, to consider how the complex power relations within the everyday mediate a sense of resistance and hope. The papers are arranged around four themes; 1. Multiple Belongings, 2. Representing a Way of Being, 3. Sexualised Identifications and 4. Marriage and Family.

Growing up and living in Kibera, Kenya, Abdul Kassim was well aware of the disproportionate number of challenges faced by women due to the extreme gender inequalities that persist in the slums. After being raised by his aunts, mother, and grandmother and having a

daughter himself, he felt that he needed to make a difference. In 2002, Abdul started a soccer team for girls called Girls Soccer in Kibera (GSK), with the hope of fostering a supportive community and providing emotional and mental support for the young women in the town. The soccer program was a success, but the looming dangers of slum life persisted, and the young women continued to fall victim to the worst kinds of human atrocities. Indeed, it was the unyielding injustice of these conditions that led Abdul to the conclusion that soccer alone was not enough to create the necessary systemic change. In 2006, after much work, the Kibera Girls Soccer Academy (KGSA) was established with their first class of 11 girls and 2 volunteer teachers. Today,

KGSA is composed of 20 full-time staff, provides a host of artistic and athletic programs for more than 130 students annually, and continues to expand. By providing academics inside and outside of the classroom along with artistic and athletic opportunities, KGSA inspires the young women of Kibera to become advocates for change within their own communities and for Kenya as a whole. *Play Like a Girl* tells the KGSA story through Abdul's voice and vision and the stories of key staff and students. It is written by Ellie Roscher who spent 2 summers doing research at KGSA and several years writing this book.

Whilst corruption and organized crime have been widely researched, they have not yet been specifically linked to sport. Corruption, Mafia Power and Italian Soccer offers an original insight into this new research area. Adopting a psycho-social approach based mainly on Pierre Bourdieu's praxeology, the book demonstrates that corruption and the mafia presence in Italian soccer reflect the Italian socio-political and economic

system itself. Supported by interviews with security agency officials, anticorruption organisations and antimafia organisations, and analysing empirical data obtained from a case study of 'Operation Dirty Soccer', this important study explains why mafia groups are involved in soccer, what the links are to political corruption and what might be done to control the problem. It also examines the mechanisms that make it possible for mafia groups and affiliates to enter the football industry and discusses how mafia groups exploit and corrupt Italian football. This is important reading for undergraduate and postgraduate students, researchers and academics working in the areas of sociology, criminology, policing, anthropology, the sociology of sport,

sport deviance, sport management and organised crime. It is also a valuable resource for practitioners in the football industry.

World football is in crisis. The corruption scandal engulfing FIFA is arguably the biggest story in the history of modern sport and a watershed for sport governance. More than a decade ago, John Sugden and Alan Tomlinson laid the foundations for subsequent investigations with the publication of *Badfellas*, a groundbreaking work of critical sport sociology that exposed the systematic corruption at the heart of world football. It was a book that FIFA

and Sepp Blatter tried to ban. Now re-issued to combine the original contents of Badfellas with new chapters covering the current crisis, this book points to the ways in which FIFA's new administration can learn from the Blatter story. The prequel traces the course of Sugden and Tomlinson's game-changing investigation into FIFA, while the sequel updates the FIFA story from 2002 onwards and provides a chronology of crises and scandals within the FIFA narrative. Demonstrating the vital importance of critical investigative methods in sport studies, Football, Corruption and Lies: Revisiting Badfellas, the book FIFA tried to ban is essential reading for anybody looking to understand Blatter's rise and fall.
