Wisconsin Statutes, 1939 FCC RecordA Comprehensive Compilation of Decisions, Reports, Public Notices, and Other Documents of the Federal Communications Commission of the United StatesThe federal reporterTelecommunicationsTechnological and Regulatory Factors Affecting Consumer Choice of Internet Providers

Addresses the degree of choice that consumers have among commun. co. providing access to the Internet and among Internet service providers (ISP). It discusses: the current dist. of access modes among consumers and the key tech. diff. among commun. networks used for access to the Internet; the legal and regulatory diff. in how these providers are governed; whether these tech., legal, and regulatory diff. are affecting the develop. of consumer choice of commun. co. providing access to the Internet and ISP, and if so, how; and the extent to which users have full access to and choice of portals, applications, and content, and whether this access or choice is affected by users' selection of ISP or other factors.

Board of Contract Appeals Decisions Legislative Reference Bureau

This definitive legal guide to the new world of telecommunications provides you with thorough, authoritative analysis you need to understand and comply with the complex regulatory landscape in the industry. You'll find timely review of key legislation, FCC rules, regulations and orders, and court decisions with extensive citations and cross-references for such essential topics as the economics of interconnection and detailed discussions of pricing methodologies of offering services for resale; interconnection rules for wire line networks, including the specific rules imposed on incumbent LECs; antitrust litigation in the wake of the 1996 Act, with comprehensive analysis of the cases brought against incumbent local telephone companies; significant changes to universal services requirements; regulations and policies involving horizontal and vertical mergers and acquisitions; the FCC's rule-making and other powers; rights and duties arising from the laws of privacy, intellectual property and free speech; and much more. Federal Telecommunications Law, Second Edition provides all the laws and rules -- including those for price regulation, common carriage, universal service, regulations and court decisions -- are analyzed in detail to provide you with a thorough understanding of the environment within which you must work. Trends in competition, industry structures and technology are explored -- offering you a total picture of the telecommunications industry, in areas such as telecommunications equipment; long distance services; wireless services; the Internet and data services; information services; video

services; and more.

Federal Telecommunications Law Cengage Learning

Written by the Director for the newly created Center for Cyberspace Law & Policy at Case Western Reserve University, the Fourth Edition of *Cyberspace Law: Cases and Materials* reflects the broad knowledge and experience of a pioneer in the teaching of Cyberspace law. This was the first casebook devoted exclusively to the study of cyberspace law, and is the only one that presents it as the study of the creation, dissemination, and acquisition of human thought, creativity, and information in the digital age. Of note is the casebook's organization, which allows instructors to adapt the materials to their approaches. Features: The Supreme Court's recent decisions in *J. McIntyre v Nicastro* (jurisdiction), *Brown v Entertainment Merchants* (video games), *ABC v Aereo* (copyright), *Bilski v Kappos* (business method patents), and *Riley v California* (Smart phone privacy) Lower court cases including: *Authors Guild v Google* (Google books fair use), *Lenz v Universal Music* (DMCA notice), *Fraley v Facebook* (Misappropriation), and *Verizon v FCC* (net neutrality) Presentation of current Internet law as well as related policy concerns that will drive future legal analysis when new issues emerge

Administrative Law, Third Series American Bar Association

Litigation Services Handbook, Fourth Edition is referred to as the litigation bible. Its nearly 50 chapters read like a who's who in law and accounting. The handbook includes all aspects of litigation services, including current environments, the process itself, a wealth of cases, how to prove damages, and practical considerations of court appearances. The new edition has a heavy focus on fraud investigations and complying with Sarbanes-Oxley requirements.

A Project of the Environmental Law Institute Wolters Kluwer

Describes the Federal Communication Commission's organization and history with discussions of its major policy initiatives and legal and political environment.
