CNN "Book of the Week" Featuring a foreword by Henry Kissinger. The grand strategist and founder of modern Singapore offers key insights and opinions on globalization, geopolitics, economic growth, and democracy in a series of interviews with the author of *Destined for War*, and others. "If you are interested in the future of Asia, which means the future of the world, you've got to read this book." —Fareed Zakaria, CNN. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. "To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosos Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek

geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way."—Mark Leyner, author of *I Smell Esther Williams* **Master Artificer** Getty Publications

In *Master of Iron*, the conclusion to Tricia Levenseller's exciting and romantic *Bladesmith* duology, a magically gifted blacksmith with social anxiety must race against the clock to save her beloved sister and stop a devastating war. Eighteen-year-old Ziva may have defeated a deadly warlord, but the price was almost too much. Ziva is forced into a breakneck race to a nearby city with the handsome mercenary, Kellyn, and the young scholar, Petrik, to find a powerful magical healer who can save her sister's life. When the events that follow lead to Ziva and Kellyn's capture by an ambitious prince, Ziva is forced into the very situation she's been dreading: magicking dangerous weapons meant for world domination. The forge has always been Ziva's safe space, a place to avoid society and the anxiety it causes her, but now it is her prison, and she's not sure just how much of herself she'll have to sacrifice to save Kellyn and take center stage in the very war she's been trying to stop. A key work of ancient Chinese philosophy is brought back to life in Ian Johnston's compelling and definitive translation, new to Penguin Classics. Very little is known about Master Mo, or the school he founded. However, the book containing his philosophical ideas has survived centuries of neglect and is today recognised as a fundamental work of ancient Chinese philosophy. The book contains sections explaining the ten key doctrines of Mohism; lively dialogues between Master Mo and his

followers; discussion of ancient warfare; and an extraordinary series of chapters that include the first examples of logic, dialectics and epistemology in Chinese philosophy. The ideas discussed in *The Book of Master Mo* - ethics, anti-imperialism, and a political hierarchy based on merit - remain as relevant as ever, and the work is vital to understanding ancient Chinese philosophy. Translator Ian Johnston has an MA in Latin, a PhD in Greek and a PhD in Chinese, and was Associate Professor of Neurosurgery at Sydney University until his retirement. He has published translations of Galen's medical writings, early Chinese poetry (*Singing of Scented Grass* and *Waiting for the Owl*), and early Chinese philosophical works (the *Mozi* and - with Wang Ping - the *Daxue* and *Zhongyong*). In 2011 he was awarded the NSW Premier's Prize and the PEN medallion for translation. Unlike previous translations, this version includes the complete text. It also includes an introduction and explanatory end notes. 'A landmark endeavour' *Asia Times* 'A magnificent and valuable achievement' *Journal of Chinese Studies* 'Eminently readable and at the same time remarkably accurate...Johnston's work will be the standard for a long time' *China Review International* 'Compelling and engaging reading...while at the same time preserving the diction and rhetorical style of the original Chinese' *New Zealand Journal of Asian Studies*
