In *Crossover Fiction*, Sandra L. Beckett explores the global trend of crossover literature and explains how it is transforming literary canons, concepts of readership, the status of authors, the publishing industry, and bookselling practices. This study will have significant relevance across disciplines, as scholars in literary studies, media and cultural studies, visual arts, education, psychology, and sociology examine the increasingly blurred borderlines between adults and young people in contemporary society, notably with regard to their consumption of popular

culture.

Sérgio Buarque de Holanda's *Roots of Brazil* is one of the iconic books on Brazilian history, society, and culture. Originally published in 1936, it appears here for the first time in an English language translation with a foreword, "Why Read *Roots of Brazil* Today?" by Pedro Meira Monteiro, one of the world's leading experts on Buarque de Holanda. *Roots of Brazil* focuses on the multiple cultural influences that forged twentieth-century Brazil, especially those of the Portuguese, the Spanish, other European colonists, Native Americans, and Africans. Buarque de Holanda

argues that all of these originary influences were transformed into a unique Brazilian culture and society—a "transition zone." The book presents an understanding of why and how European culture flourished in a large, tropical environment that was totally foreign to its traditions, and the manner and consequences of this development. Buarque de Holanda uses Max Weber's typological criteria to establish pairs of "ideal types" as a means of stressing particular characteristics of Brazilians, while also trying to understand and explain the local historical process. Along with other early twentieth-century works such as *The Masters and the Slaves* by Gilberto Freyre and *The Colonial Background of Modern Brazil* by Caio Prado Júnior, *Roots of Brazil* set the parameters of Brazilian historiography for a generation and continues to offer keys to understanding the complex history of Brazil. *Roots of Brazil* has been published in Italian, Spanish, Japanese, Chinese, German, and French. This long-awaited English translation will interest students and scholars of Portuguese, Brazilian, and Latin American history, culture, literature, and postcolonial studies.

Customs in Common New York : Grove Press

In the age of social media, fake news and data-driven capitalism, the need for critical understanding is more urgent than ever. Half-baked ideas about 'media literacy' will lead us nowhere: we need a comprehensive and coherent educational approach. We all need to think critically about how media work, how they represent the world, and how they are produced and used. In this manifesto, leading scholar David Buckingham makes a passionate case for media education. He outlines its key aims and principles, and explores how it can and should be updated to take account of the changing media environment. Concise,

authoritative and forcefully argued, *The Media Education Manifesto* is essential reading for anyone involved in media and education, from scholars and practitioners to students and their parents.

Short, insightful essays by one of Brazil's most beloved writers. *The Best Chronicles of Rubem Alves* National Geographic Books
The "meticulously researched, elegantly argued and deeply humane" sequel to the landmark volume of social history, *The Making of the English Working Class* (The New York Times Book Review). This remarkable study investigates the gradual disappearance of a range of cultural customs against the backdrop of the great upheavals of the eighteenth century. As villagers were subjected to a legal system increasingly hostile to custom, they tried both to resist and to preserve tradition, becoming, as E. P. Thompson explains, "rebellious, but rebellious in defense of custom." Although some historians have written of riotous peasants of England and Wales as if they were mainly a problem for magistrates and governments, for Thompson it is the rulers, landowners, and governments who were a problem for the people, whose exuberant culture preceded the formation of working-class institutions and consciousness. Essential reading for all those intrigued by English history, *Customs in Common* has a special relevance today, as traditional economies are being replaced by market economies throughout the world. The rich scholarship and depth of insight in Thompson's work offer many clues to understanding contemporary changes around the globe. "[This] long-awaited collection . . . is a signal contribution . . . [from] the person most responsible for inspiring the revival of

American labor history during the past thirty years.” —The Nation
 “This book signals the return to historical writing of one of the most eloquent, powerful and independent voices of our time. At his best he is capable of a passionate, sardonic eloquence which is unequalled.” —The Observer

Full of "can't look away" moments, *Dear Killer* is a psychological thriller perfect for fans of gritty realistic fiction such as Dan Wells's *I Am Not a Serial Killer* and Jay Asher's *Thirteen Reasons Why*, as well as television's *Dexter*. Rule One—Nothing is right, nothing is wrong. Kit looks like your average seventeen-year-old high school student, but she has a secret—she's London's notorious "Perfect Killer." She chooses who to murder based on letters left in a secret mailbox, and she's good—no, perfect—at what she does. Her moral nihilism—the fact that she doesn't believe in right and wrong—makes being a serial killer a whole lot easier . . . until she breaks her own rules by befriending someone she's supposed to murder, as well as the detective in charge of the Perfect Killer case. As New York Times bestselling author of the *Gone* series Michael Grant says, *Dear Killer* is "shocking, mesmerizing, and very smart."

Have you ever wondered why we Christians do what we do for church every Sunday morning? Why do we “dress up” for church? Why does the pastor preach a sermon each week? Why do we have pews, steeples, and choirs? This ground-breaking book, now in affordable softcover, makes an unsettling proposal: most of

what Christians do in present-day churches is rooted, not in the New Testament, but in pagan culture and rituals developed long after the death of the apostles. Coauthors Frank Viola and George Barna support their thesis with compelling historical evidence and extensive footnotes that document the origins of modern Christian church practices. In the process, the authors uncover the problems that emerge when the church functions more like a business organization than the living organism it was created to be. As you reconsider Christ's revolutionary plan for his church—to be the head of a fully functioning body in which all believers play an active role—you'll be challenged to decide whether you can ever do church the same way again.

The Schreber Case is distinctive from the other case histories in that it's based on the memoirs of a conjectural patient. Schreber was a judge and doctor of law who lived according to a strict set of principles. His nervous illness first manifested itself as hypochondria and insomnia - which he put down to his excessive workload - but gradually deteriorated into pathological delusion. Believing himself to be dead and rotting, Schreber attempted suicide, and then went on to experience bizarre delusional episodes whereby he believed he was being turned into a woman. The course of this extraordinary illness is analysed by Freud in his search for a root cause - could it have been caused by homosexual impulses that Schreber tried to repress?

Rio de Janeiro in the first half of the nineteenth century had the largest population of urban slaves in the Americas—primary contributors to the atmosphere and vitality of the city. Although most urban historians have ignored these inhabitants of Rio, Mary Karasch's generously illustrated study provides a comprehensive description and analysis of the city's rich Afro-Cariocan culture, including its folklore, its songs, and accounts of its oral history. Professor Karasch's investigation of the origins of Rio's slaves demonstrates the importance of the "Central Africaness" of the slave population to an understanding of its culture. Challenging the thesis of the comparative mildness of the Brazilian slave system, other chapters discuss the marketing of Africans in the Valongo, the principal slave market, and the causes of early slave mortality, including the single greatest killer, tuberculosis. Also examined in detail are adaptation and resistance to slavery, occupations and roles of slaves in an urban economy, and art, religion, and associational life. Mary C. Karasch is Associate Professor of History at Oakland University in Rochester, Michigan. Originally published in 1987. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The work "The Allegory of the Cave," also known as the Cave Allegory or Cave Parable, is an extremely intelligent allegory with a philosophical and pedagogical intent, written by the Greek philosopher Plato. It is found in the work "The Republic" and aims to exemplify how human beings can free themselves from the condition of darkness that imprisons them through the light of truth. It is a timeless text whose message fits perfectly into contemporary times when sectarian ideologies still permeate many societies. Furthermore, reading "The Allegory of the Cave" allows for a beneficial reflection by rescuing and presenting important philosophical values to readers.

Handbook of the Sociology of Sexualities John Wiley & Sons

Explores the relationship between power and the body. This

investigation of power and the body is a brilliantly original account of the nature of force as it functions in religious rituals, sorcery, political relations, and other social domains. Laying the foundation for an "anthropology of forces", it is crucial reading for anyone interested in how bodies and power circulate in a range of human contexts and cultures. For Jose Gil the body, with its capacity to translate forces into signs, is the source of power. Analyzing the language of mime and gestures, comparing magical cures to psychiatric ones, contrasting the flayed body of Kafka's "In the Penal Colony" with the anatomical body in Vesalius's *De Humani Corporis Fabrica*, he develops a typology of metamorphoses of the body as they correspond to systems of signs. A major intervention that marks the first appearance of Gil's work in English, *Metamorphoses of the Body* gives us an entirely new way of looking at relationships between bodies, forces, politics, and people.

The Ethics of Redistribution was originally delivered as a Boutwood Lecture at Corpus Christi College, Cambridge, in the autumn of 1949. The Baron Bertrand de Jouvenel was then an already internationally regarded philosopher whose learned style was a calculated blend of moral, historical and political considerations. In this essay, split between discussions of the socialist ideal and state expenditure, he presents the fraught economic, societal and ethical implications attendant upon the question of income redistribution.

Paintings, magisterial and universal, that capture the essence of a vibrant African American community In his art Jonathan Green paints the world of his childhood and an ode to a people imbued with a profound respect for the dignity and value of others—the Gullah people of the South Carolina barrier islands. His canvases, beloved for their sense of jubilation and rediscovery, evoke the meaning of community in Gullah society and display a reverence for the rich visual, oral, and spiritual traditions of its culture. His art also reveals a keen awareness of the interpersonal, social,

and natural environments in which we live. The 180 images assembled in this collection showcase the meaning, purpose, and beauty that Green finds in the small but critical tasks of life. His work elevates the everyday—preparing morning meals, doing the wash, accomplishing farming chores, finishing a day's work, relaxing in the evening—and celebrates the social and religious—community dances, baptisms, weddings, funerals. Green allows his audience the space and silence to observe people unobtrusively as they pursue life's mission of labor, love, and belonging and as they work in harmony with nature's

mysterious, ever changing fabric. While Green's paintings speak specifically to his own upbringing, they transcend racial, cultural, and ethnic boundaries, thus allowing individuals of all backgrounds to recall fond memories and to reflect on the place that purpose and dignity hold in their lives. In addition to a foreword by Pat Conroy, essays by Bettye J. (Mbitha) Parker Smith, Lynn Robertson, and Ronne Hartfield complement Green's images. They tell of the vitality of the Gullah community, the progression of Green's career, and the authenticity of his work.
