This open access book discusses the relationship between periodicals, tourism, and nation-building in Mexico. It enquires into how magazines, a staple form of the promotional apparatus of tourism since its inception, articulated an imaginative geography of Mexico at a time when that industry became a critical means of economic recovery and political stability after the Revolution. Notwithstanding their vogue, popularity, reach, and close affiliations to commerce and state over several decades, magazines have not received any sustained critical attention in the scholarship on that period. This book aims to redress that oversight. It argues that illustrated magazines like Mexican Folkways (1925–1937) and Mexico This Month (1955–1971) offer rich and compelling materials in that regard, not only as unique tools for interrogating the ramifications of tourism on the country's reconstruction, but as autonomous objects of study that form a vital if complex part of Mexico's visual culture.

The issues concerning the Partition of India in 1947 have long been debated both by Indian and Pakistani historians, but now a leader directly responsible for the Defence and Foreign Affairs of India has come forward with a historical appraisal that helps both countries come to a better understanding of the contentions between them. Jaswant Singh has not written a hagiography of Jinnah, but focused on him as a key figure in the final deliberations preceding Independence.

"Fascinating account. I strongly recommend it." —Jeane J. Kirkpatrick World-renowned terrorism expert Yossef Bodansky explores the transformation of Osama bin Laden from a once promising engineering student into the cold-blooded leader of the radical Islamic terrorist group, al Qaeda.

With meticulous detail, Bodansky chronicles the events leading up to the international operation of hunting bin Laden. In the process, Bodansky pulls together a chilling story that is as ancient as the Crusades; a story that transcends bin Laden and any other single man, one that sweeps from Iran, Afghanistan, and Iraq to Kosovo and beyond. He takes you deep into the heart of centuries-old hatreds that have produced generations of bin Ladens and a terror network of underground armies that can strike virtually anywhere in the world. Fueled by Middle Eastern oil wealth and covertly armed by some of America's closest allies, this terror network is waging a brutal guerrilla war whose aim is nothing short of changing the course of history. The battlefields are increasingly Western city streets, and the casualties are most often innocents caught in the crossfire. Including information about al Qaeda's pursuit of chemical and nuclear weapons, covert deals between the U.S. and Islamic terrorists, and American efforts in the years-long campaign to capture Osama bin Laden, this book is a sobering wake-up call.

The twenty-first century has witnessed the rise of India as a major media producer and consumer market increasingly engaged with the global economy. Aided by rising incomes, technological remediation, regulatory strategies, and a shifting political terrain, the business of media has been given official recognition as a substantive component of India's economy and as a prominent feature of its economic thinking. In light of these developments, these two pioneering volumes investigate the dynamics of an increasingly integrated media economy encompassing television, film, music, sport, and telecoms. Volume 1: Industrial Dynamics and Cultural Adaptation illustrates the distinctive industrial dynamics of India's media economy, tracking the deeply embedded cultural, political, and economic forces that determine its everyday operation. The selection of essays serves to demonstrate the unique patterns of development and the complex field of exchanges that have constituted India's media economy. As a whole, this volume posits a comprehensive approach to understanding the nature of media resources, the negotiation of industrial norms and the cultural context of a media economy firmly situated in the realities of India's distinct regions, cultures, and human networks. Volume 2: Market Dynamics and Social Transactions provides a comprehensive

analysis of the interlocking markets that constitute the media economy, focusing upon its particular commodity forms, labour conditions, and spaces of consumption. Taking account of a rich set of case studies, this volume argues for the necessary consideration of multiple and interdependent markets in explicating our everyday encounters with media. By foregrounding the social transactions that encapsulate market exchanges, it begins to illustrate some of the novel aspirations, meanings, and relationships arising with India's media economy.

The Writings of Bret Harte Rowman & Littlefield

The interfaith movement, which began with the 1893 World's Parliament of Religions in Chicago, has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to 'One World'. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI), founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of 'global governance', and creation of a new, Earth-based 'global spirituality' in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order: the 'new civilization' now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the 'anti-tradition' (the forces of materialism and secular humanism) finally giving way to the 'counter-tradition' (the satanic inversion of true spirituality), leading to the regime of Antichrist. The 'anti-tradition' weakens and dissolves traditional spiritualities, after which the 'counter-tradition' sets up a counterfeit in their place. Since Guénon's time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well-known that counter-traditional movements have also made great strides, and now stand closer to the centers of global political and religious power than ever before. The 'counter-tradition' is making

inroads on the political and cultural Right, as much as it is doing on the Left. *False Dawn* painstakingly documents these trends, and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy, and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here; all of it unsettling, disquieting, occasionally downright scary. 'William Murchison, Radford Distinguished Professor, Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions.' 'Douglas LeBlanc, Editor, GetReligion.org
