3 in 1: The Art of How to Read, Influence and Win People Using Subliminal Manipulation, Persuasion, Body Language Analysis & NLP-Effective Brainwashing Techniques Mooncat Publications

The New York Times bestseller that gives readers a paradigm-

shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Rein over your subconscious mind, reprogram it and take conscious control over it such that it does everything you consciously want to do. Did you know that over 80% of the decisions we make stem from our subconscious mind, at an emotional level? While we make decisions consciously, the truth is that the subconscious mind runs the show for most of us. In fact, it is as if we just run on autopilot and our conscious part of the brain just 'rubber stamps' the decisions or preferences from our subconscious mind. In simple terms, we (our conscious self) are our subconscious mind's 'bitch' because we do everything it says or wants! Here an interesting fact when you let your subconscious mind operate with no semblance of conscious control of what it concentrates on and makes habitual, the probability of your life being desirable (to you and others) is slim. When your subconscious mind rules you, you operate on impulse, which translates to lack of self discipline, chronic procrastination, low productivity, you having bad habits, you not having high emotional intelligence and much more. If all this sounds familiar and you want to change all that, here is good news for you; you can turn the tables such that you make your subconscious mind your bitch instead of you being its bitch. How then can you turn the tables to your favor? This book will walk you by the hand to ensure you succeed at it.
