 osmosis diffusion Flashcards and Study Sets ...The purpose of the lab was to test out osmosis. No,
 my results did not exactly support my hypothesis because the bag with 0.0 M of sucrose should
 have a change of mass of 0, but instead, there was still a change in mass (4.9%). What can be
 concluded from this lab though, is water does follow higher concentration of "salts" for balance
 purposes.Diffusion & Osmosis Lab - AP BioThese concepts can be very difficult for students to

understand. In order to give them a view of how diffusion works with a semipermeable membrane,
 I like to do a lab that uses a plastic bag to model the cell (membrane). It is a simple lab where
 students do very little except watch the process and record data and information.Diffusion Lab -
