 Co Producing Knowledge For Sustainable
 It is written for academic and professional audiences
 working with urban planning and
 sustainable cities around the world. Co-
 producing Knowledge is presented, by
 way of introduction, as a non-linear,
 collaborative approach to knowledge
 production which combines
 interdisciplinary, transdisciplinary, cross
 sector and policy approaches to societal
 problem solving. Examples are taken
 from Cape Town, Gothenburg, Kisumu,
 Manchester, Melbourne and a selection
 of cities in Southeast Asia. Co-producing

 The first announcement of the training was
 done at the RES4Africa conference in

January 2018, where the Director of Enel Foundation, Dr. Carlo Papa, presented the academic cooperation venture reiterating that “education is one of the most powerful and proven tool of sustainable development. Sharing knowledge on all aspects of sustainable electricity production and distribution, from technology to policy and regulation, we will win the race to a clean energy future for Africa”. Sharing Knowledge for Sustainable Electricity Production ... The new book Co-producing knowledge for sustainable cities – Joining Forces for Change is about producing knowledge in urban areas. More specifically, it focuses on how decision-makers, civil servants, private actors and civil society come together with researchers to co-produce knowledge that can be used to contribute to creating more sustainable urban futures. New book Co-producing knowledge for sustainable cities ... By providing a co-produced definition of the concept of ‘sustainable upland estate management’, which centred around the five sustainable estate principles and 12 sustainability actions, the need for behavioural change to embrace the aspects of ‘proactive’ practice was signposted, along with the need for more collaborative attitudes that would enhance accountability and connectivity ...
