Locals and travelers looking for great places to eat reach for the MICHELIN Guide Chicago 2014 where they'll find meticulously researched, objective recommendations to approximately 400 restaurants, covering 40+ different cuisines. The MICHELIN Guide, updated annually, pleases all palates and pocketbooks. Recession-proof dining options can be found among the Under \$25 restaurants and those with the Bib Gourmand designation—a distinction that highlights inspectors' favorites for good food at reasonable prices. Local, anonymous, professional inspectors use the renowned Michelin food star rating system to create the restaurant selection, with its famed Michelin stars indicating culinary excellence. Readers will find a wealth of helpful information on their restaurant choices: time-tested Michelin symbols describe such features as cash-only, wheelchair-accessible and valet parking establishments. Newer symbols include restaurants offering notable beer, wine, sake and cocktail lists. The guide's organization makes fast work of deciding where and what to eat: grouping by neighborhood facilitates spur-of-the-moment decision-making while multiple, user-friendly indexes inspire more specific dining choices. Readers can consult an alphabetical list of restaurants, as well as lists of starred, Bib Gourmand and Under \$25 restaurants. Lists also include cuisine by category, cuisine by neighborhood, brunch and late-night dining. As a final step, 18 colorful city and neighborhood maps quickly locate restaurants so diners can find their way. Since only the best make the cut, and all establishments are recommended, readers can feel confident in their choices.

 Is your website project out of control? Every website project needs a manager. Developing Effective Websites describes Internet technologies in plain language and helps you see beyond your expertise to the big picture. It does this by drawing on established software project and

management principles. Like any project, effective management of website development starts by understanding and balancing the constraints of time, resources, and tasks. You can deliver your project on time and on budget, by following a process that includes:

- Analyzing the requirements of users and your market
- Developing a workplan for the site and breaking it down to tasks
- Scheduling with Gantt and PERT charts and measuring slippage for more accurate revisions
- Estimating cost by the budget-first or design-first methods
- Using the team development process and covering all the necessary roles
- Aligning contractor and client interests to create a win-win relationship
- Following an iterative development process for designing, prototyping, and building out
- Applying software testing principles to website development
- Making hosting decisions and planning for maintenance

WALNECK'S CLASSIC CYCLE TRADER, MAY 1999 Michelin Travel & Lifestyle
 Ski Europe takes skiers step by step through planning the winter vacation of their dreams in the Alps in Austria, Italy, Switzerland or France as well as major resorts in Spain and Andorra. Just like here in the United States or Canada, every European resort has its quirks and specialties, notes Leocha. Seasoned skiers know that some resorts are better for singles, others better for families. Some offer cozy chalets, others feature modern hotels right on the slopes. And while one resort may be heaven for beginning skiers it may be boring for the expert. Ski Europe organizes all the necessary information to make intelligent choices and provides the phone numbers to make reservations and plans. Over more than a decade Ski Europe has become known for its no-holds-barred, brutally honest reports on reality at ski resorts. Ski Europe takes no advertising, has no axe to grind, and, like Ski America and Canada, is written by Leocha together with an international team of prize-winning ski and snowboard journalists.
