A groundbreaking study that distinguishes the

natural time of the cosmos from artificial mechanistic time. • Reveals September 11 as the signal of the end of artificial time according to the Law of Time. • Long awaited sequel to the author's bestselling book *The Mayan Factor*. • Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity. In *Time and the Technosphere*, José Argüelles presents a groundbreaking study that distinguishes the natural time of the

cosmos from the artificial mechanistic time under which we currently live. Argüelles defines the actual nature of time as the frequency of synchronization. Applying this Law of Time to an understanding of the entire system of life on Earth, he shows that in order to not destroy Earth's ability to sustain life, we must change our definition of time and adopt a natural harmonic calendar based on the 13-moon 28-day cycle. Until the creation of the Gregorian calendar and

the 60-minute hour, most of humanity lived by the 28-day cycle of natural time. The adoption of artificial time has subjected us to a 12:60 time frequency that governs the entire global industrialized civilization--the technosphere. With the collapse of the Twin Towers on September 11, a fissure was created in this artificial technosphere, opening up the noosphere (Earth's mental envelope). Humanity has a golden opportunity to leave the strife of the past and

enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time. Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004, a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor*. In *Time and the Technosphere*, Argüelles

reveals the clear distinction between third-dimensional astronomical time and the fourth-dimensional synchronic order of the Law of Time, which holds enormous potential for the future of humanity.

A channeled spirit communication reveals the challenges and opportunities facing mankind in the days to come.

Tomorrow's God Rudolf Steiner Press

In the year 2000--and beyond--what will the church be like? What challenges will it face? Will the church be able to provide a strong sense of community? Will it be an ethical force in the lives of Americans? And what role

will religion play in politics and in the marketplace?

In Christianity in the 21st Century Robert Wuthnow reflects on these provocative questions as he seeks to identify changes that are taking place now in American society that churches must address if they are to remain vital in the future. He foresees five critical areas--institutional, ethical, doctrinal, political, and cultural--in which major challenges will arise, then meets the thorny issues head-on. How will

churches' resource bases, their very identity, and their capacity to carry on their spiritual traditions be altered? Will they continue to function as sources of caring in a needy world? What impact will the resurgence of fundamentalism have, and how will moderate and liberal congregations react? How will the political activities of churches influence their capacity to be heard in the public arena, and what will the impact be of pluralism and the prevailing materialism of

our society? Drawing on a wide range of first-hand observations and research, Wuthnow demonstrates that in each of these five areas people of faith have strong reasons to enter the next century with confidence in their religious institutions. But he also highlights worrisome signs, and points to specific areas that need to be addressed to ensure the continuing vitality for Christianity in America--not least among these are the rampant individualism that erodes spiritual communities and

the religious infighting that diminishes the Christian sense of unity. The onset of a new millennium affords a historic opportunity to take stock of the present situation and to plan for the future--in the years ahead, much reflection is likely to occur about all our major institutions. Christianity in the 21st Century aims to contribute to those reflections by offering a sobering, realistic, and ultimately hopeful assessment of where the church is now, and where

the church is headed. **Forget About It** Helbling Languages Gmbh Helbling Essentials is a series of practice books providing a basic level of specific language and communication skills needed for a chosen career.  The 1980s saw the emergence of New Age and neo-paganism as major new religious movements. In the first book-length study of

these movements, Michael York describes their rituals and beliefs and examines the similarities, differences and relationships between them. He profiles particular groups, including the Church Universal Triumphant, Nordic pagans, and the Covenant of Unitarian Pagans, and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena.

 Modern scholarship knows little of the mystery schools of antiquity, offering only hypothetical explanations and external details. In these expansive lectures based on his personal spiritual insights, Rudolf Steiner offers a vivid description of the esoteric experiences gained by

people in the ancient mystery schools, from the mysteries of Artemis in Ephesus, of Hibernia, Eleusis and Samothrace, to the Middle Ages. He also discusses the conditions under which initiation can be achieved today. Following preliminary lectures on the nature and function of the soul, Steiner presents a panoramic view of human and earthly evolution, including the roles of plants and animals. He also discusses the various metals, their curative

properties and their connections with the planets.

It's All in the Playing

Simon and Schuster
The four Mystery Dramas were created, produced and printed one each year, one after the other, from 1910-1913. They took place in different theatres in Munich but always in the month of August. The writing of the dramas, the creating of the scenery, the making of the costumes, the learning of roles, the general directing, the organization of the printing and all the other innumerable things connected with such a major production

happened within a matter of weeks before the main performance. There was a literal whirlwind of activity, and it is reported that often the scenes were written during the night before a scheduled rehearsal, and that at five or six in the morning a boy would come from the press to pick up the manuscript for the printing of the scene for that day's rehearsal. All this activity centered around Rudolf Steiner who gave directions or advice on every aspect of the production down to the

smallest details. He not only wrote the dramas themselves, but also indicated how such soul and spiritual pictures could be presented and played on stage. A fifth drama was also planned, which was to include scenes from Ancient Greece and its mystery centers, but the outbreak of the First World War in August 1914 meant that it had to be postponed. Rudolf Steiner's early death in 1925 resulted in it never coming to production, nor ever being written down. The First

Mystery Drama For ten years, Johannes has been working with Maria on art and on spiritual understanding. They both have the intention to make available the spiritual truths, which she is trying to research, in an artistic way, which he is trying to carry out, to the general public. Johannes has already had a relationship with a woman previously when he was younger, but he left her in order to work with Maria. She and Johannes had no intimate love relationship to begin with, but as time

passed, Johannes has fallen in love with Maria and wishes to have such a relationship. She, however, wishes it to remain a platonic working partnership, since her main interest is in his art and in spiritual development. As Johannes reaches the crisis point where he has to admit to himself that the relationship he wishes with Maria will not come about, he is also thrown into uncertainty about the whole purpose and significance of his artistic development and the

spiritual knowledge that he has also striven to master. Yet these two areas of crisis in his life do not, significantly, cause his complete emotional/ personal break down. At the key moment when these two crisis reach a peak, Johannes hears an address by Benedictus that illuminates very significant aspects of his soul life. This also causes him to be able to see other people in a new light, and on the basis of this, to be able to painfully reassess himself and his path in life. One

consequence is that Johannes recognises that he is responsible for the moral failures that he has committed in the past, and the other consequence is that he recognises that how he acts with regard to other human beings now, will have consequences for their and his own soul-spiritual development in the future. This in turn allows him to see further into the realm of soul and spirit where he is able to understand that spiritual beings can and will act through us if we do not

fully comprehend and lead ourselves. He sees how Maria is possessed by a certain being which takes advantage of something in her she is not aware of. When Benedictus, through his words, makes her aware of it, that being must leave Maria, and she is able to make a major step in her development. Johannes is also able to see how other characters meet certain spiritual beings, whether fully consciously or only partly consciously, and these perceptions then allow

further progress in his development. Thus he enters right into the soul-spiritual realm and eventually can perceive those who have full consciousness in that realm and their activities. He ca

 Sarah Pike traces the history of New Age and Neopagan religions in the United States from their origins in the nineteenth century to their reemergence in the 1960s counterculture. She also considers the differences and similarities between the New Age and Neopagan movements as well as the antagonistic relationship between these two practices and other religions in America, particularly Christianity. Covering such topics as healing, gender and

sexuality, millennialism, and ritual experience, she offers a sympathetic yet critical treatment of religious practices often marginalized yet soaring in popularity. Her book is a rich analysis of these spiritual worlds and social networks and questions why these faiths are flourishing at this point in American history.
