 Manifesto: PRAISE FOR AFRICAN INTERNET BUSINESS  
 MANIFESTO The book is both immensely informative and

strangely evocative. It is worth the curriculum texts list of any secondary or tertiary institution seeking to impart vocational, lucrative and life-changing skills. It should become any intending Netpreneur's companion, an internet Bible, Lexicon or Handbook. I recommend this piece of revelation for just about anyone who wishes to succeed in turning their online experience to a business empire or conglomerate. Dotun Ajegbile, Founder, 1960BET & Project Director, Lagos Business SchoolWow! This is a wonderful step-by-step guide on how anybody can actually start an online business. I wish I had the opportunity to get this insightful and well

detailed book on how to start internet businesses when I started internet business newly. This material is recommended for new and old internet marketers. Kakue Gbenegbura, Ceo/Md Trimas Business Concepts,It is time to do online business the right way just like Ope Banwo has exposed in this e-Report. I was actually blown away when I read the draft copy, all I can say right now is "Thank you Doctor "for helping our people to make real money online. Emmanuel Adegbola,President - Hidden Riches UniversityVery insightful, straight to the point and the writer Dr. Ope Banwo hit the nail on the head. I was amazed

with the kind of information I saw when I was going through it . Dennis Isong , CEO, DBI Impact LimitedI have read his new book Africa Internet Manifesto, and i can confidently tell you this Book is mind-blowing and an eye opener. Its a must read for everyone who is involved or wants to get involved in Internet business as it touches every aspect of Internet Marketing. Again Dr Ope Banwo has proven himself as the Africa Internet Visioneer. Followers of Jesus need not fear hard questions or objections against Christian belief. In *A Reasonable Response*, renowned Christian philosopher and apologist William Lane Craig offers dozens of examples of how some of the most common challenges to Christian thought can be addressed, including: Why does God allow evil? How can I be sure God exists? Why should I believe that the Bible is trustworthy? How does

modern science relate to the Christian worldview? What evidence do we have that Jesus rose from the dead? Utilizing real questions submitted to his popular website ReasonableFaith.org, Dr. Craig models well-reasoned, skillful, and biblically informed interaction with his inquirers. *A Reasonable Response* goes beyond merely talking about apologetics; it shows it in action. With cowriter Joseph E. Gorra, this book also offers advice about envisioning and practicing the ministry of answering people's questions through the local church, workplace, and in online environments. Whether you're struggling to respond to tough objections or looking for answers to your own intellectual

questions, A Reasonable Response will equip you with sound reasoning and biblical truth.

This book offers you a

brief, but very involved look into the operations in the exploitation of Oil & Gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the production process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore production platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration

and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations. Solutions Lampo From New York Times bestselling author and nationally syndicated talk radio host Dave Ramsey comes the secret to how he grew a multimillion dollar company from a card table in his living room. If you're at all responsible for your

company's success, you can't just be a hard-charging entrepreneur or a motivating, encouraging leader. You have to be both! Dave Ramsey, America's trusted voice on money and business, reveals the keys that grew his company from a one-man show to a multimillion-dollar business—with no debt, low turnover, and a company culture that earns it the "Best Place to Work" award year after year. This book presents Dave's playbook for creating work that matters; building an incredible group of passionate, empowered team members; and winning the race with steady momentum that will roll over any obstacle. Regardless of your

business goals, you'll discover that anyone can lead any venture to unbelievable growth and prosperity through Dave's common sense, counterculture, EntreLeadership principles!

Simon & Schuster  
 Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity - How to stop overthinking -Why comparison kills love - How to use your fear - Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why

kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his

parents. Shetty reconnected with old school friends—many working for some of the world’s largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world’s most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8

billion views, and his podcast, On Purpose, is consistently ranked the world’s #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think

like a monk.

Is your church prepared to care for individuals who have experienced various forms of abuse? As we continue to learn of more individuals experiencing sexual abuse, domestic violence, and other forms of abuse, it's clear that resources are needed to help ministries and leaders care for these individuals with love, support, and in cooperation with civil authorities. This handbook seeks to help the church take a significant step forward in its care for those who have been abused. Working in tandem with the Church Cares resources and videos,

this handbook brings together leading evangelical trauma counselors, victim advocates, social workers, attorneys, batterer interventionists, and survivors to equip pastors and ministry leaders for the appropriate initial responses to a variety of abuse scenarios in churches, schools, or ministries. Though the most comprehensive training is experienced by using this handbook and the videos together, readers who may be unable to access the videos can use this handbook as a stand-alone resource. • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-

by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of

practical wisdom.”

—David Roberts, Vox  
 “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA  
 In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull

carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.
