More Happy Than Not (Deluxe Edition) Penguin Group
With a focus on fostering democratic, equitable education for young people, Ginsberg and Glenn's engaging text showcases a wide variety of innovative, critical classroom approaches that extend beyond traditional literary theories commonly used in K-12 and higher education classrooms and provides opportunities to explore young adult (YA) texts in new and essential ways. The chapters pair YA texts with critical practices and perspectives for culturally affirming and sustaining teaching and include resources, suggested titles, and classroom strategies. Following a

consistent structure, each chapter provides foundational background on a key critical approach, applies the approach to a focal YA text, and connects the approach to classroom strategies designed to encourage students to think deeply and critically about texts, themselves, and the world. Offering a wealth of innovative pedagogical tools, this comprehensive volume offers opportunities for students and their teachers to explore key and emerging topics, including culture, (dis)ability, ethnicity, gender, immigration, race, sexual orientation, and social class.

The Little Snake Simon and Schuster

Our unconscious thought patterns determine our relationships, our spiritual life and our connection to God to a much greater extent than we know. That's an alarming thought, because the subconscious mind is a mysterious realm that is really difficult to

access and influence...right? No. It's really not! And it's the most urgent and impactful thing we can do. This book will show you how. How do I choose faith over fear when my loved ones are making poor choices? Why don't I feel happier if I'm reading and praying like I've been taught? How can I stop feeling like I'm just not good enough? What am I to do when my spouse is judgmental of me? How do I trust in Christ when everything seems to be falling apart? Get answers to these and other tough questions in the context of Christ-centered principles throughout this book. Jody Moore is a Master Certified Life Coach who has taught and coached tens of thousands of women through her in-person and online workshops and podcast. She brings her characteristic clarity, wisdom, humor and disarming honesty to this groundbreaking book. In *Better Than Happy*, Jody shows how a simple 5-step model she uses in every session with her clients can reveal the unconscious patterns of thoughts that keep us from deeper and healthier connection with ourselves, with our loved ones and with God. Jody then shows how, once we clear the debris of our unconscious patterns of thought, new streams of understanding of Christ's teachings begin to flow. I am a mother of 4, a member of The Church of Jesus Christ of Latter-Day Saints, and a woman trying to figure out how to minimize resentment, overwhelm and guilt, and replace them with happiness, gratitude and joy. Three years after getting married I found myself with two kids under age 2, a loving husband, and a lot of self-loathing. I struggled with the duties associated with being a mom and wife and then I felt guilty for feeling that way. After all, this was the life I thought I'd always wanted. I have a BA in Communications and an MA in Adult Education along with 15 years of experience

as a Corporate Trainer and Leadership Coach, but what has helped me the most to overcome my struggles and to conquer all of my goals, are the tools I use now to coach my clients. Thanks to my extensive training with Brooke Castillo of The Life Coach School, I am now a Certified Life Coach, and I couldn't be more proud of the work I get to do in the world.

"Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back. • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.
