## ERNESTO KARTER

---

### Is Equality for Women an Impossible Dream?

Wolters Kluwer

For many Americans, the word "constitution" means just one thing: the national Constitution. According to a recent survey, almost half do not know that individual states also have constitutions. Scholars have also paid little attention to state constitutions, favoring the apparently more dynamic and significant federal scene. G. Alan Tarr seeks to change that in this landmark book. A leading authority on state legal issues, he combines history, law, and political science to present a thorough and long-needed account of the distinct and important role of state constitutions in American life. Tarr shows that state constitutional politics are dominated by three crucial issues with little salience at the national level: the distribution of power among groups and

regions within states, the scope of state and local governmental authority, and the relation of the state to economic activity. He explains how state constitutions differ from the national Constitution in treating not only matters of high principle but also such mundane subjects as ski trails and motor vehicle revenues. He also explores why state constitutions, unlike their federal counterpart, have been so frequently amended and replaced. Tarr concludes that the United States not only has a system of dual constitutionalism but also has dual constitutional cultures. Powerfully argued and meticulously researched, the book fills an important gap in political and legal studies and finally gives state constitutions the scholarly attention they richly deserve.

Suffragists recognized that the media played an essential role in the women's suffrage movement and the public's understanding of it. From parades to going to jail for voting, activists played to the mass media of their day. They also created an energetic niche media of suffragist journalism and publications. This collection offers new research on media issues related to the women's suffrage movement. Contributors incorporate media theory, historiography, and innovative approaches to social movements while discussing the vexed relationship between the media and debates over suffrage. Aiming to correct past oversights, the essays explore overlooked topics such as coverage by African American and Mormon-oriented media, media portrayals of black women in the movement, suffragist rhetorical strategies, elites within the movement, suffrage as part of broader campaigns for social transformation, and the

influence views of white masculinity had on press coverage. Contributors: Maurine H. Beasley, Sherilyn Cox Bennion, Jinx C. Broussard, Teri Finneman, Kathy Roberts Forde, Linda M. Grasso, Carolyn Kitch, Brooke Kroeger, Linda J. Lumsden, Jane Marcellus, Jane Rhodes, Linda Steiner, and Robin Sundaramoorthy

*American Elections Since Suffrage* Pearson Prentice Hall (High School) Hailed as a stellar educational resource for nearly a century, Magruder's American Government is updated annually to meet the changing needs of today's high school students and teachers. The program's engaging narrative is enhanced with numerous primary sources, political cartoons, charts, graphs, and photos, making the structure and principals of government accessible and motivating to students of all abilities.

Casenotes published today in all key areas, ranging from Administrative Law to Wills, Trusts, and Estates each and every Casenote offers: professionally written briefs of the cases in your casebook coverage that is accurate and up-to-date editor's analysis explaining the relevance of each case to the course coverage built on decades of experience the highest commitment to quality And don't forget Aspen's other popular study aids: Click here to buy all your study aids

**The Politics of Women's Suffrage**

Oxford University Press Provides a detailed account of the events that led to the Voting Rights Act of 1965. Explores both the racial discrimination and violence that pervaded the South and the civil rights protests that changed American voting rights. Includes a narrative overview, biographical profiles, primary source documents, and other helpful features.

*Trust Territory of the Pacific Islands* The Woman Suffrage Movement in AmericaA Reassessment "For as long as American women have battled for equitable political

representation, those battles have been defined by images--whether drawn, etched, photographed, or filmed. Some of these have been flattering, many of them have been condescending, and some have been scabrous. They have drawn upon prevailing cultural tropes about the perceived nature of women's roles and abilities, and they have circulated both with and without conscious political objectives. Allison K. Lange takes a systematic look at American women's efforts to control the production and dissemination of images of them in the long battle for representation, from the mid-nineteenth-century onward"--

*International Organization and Conference Series* Emerald Group Publishing Originally published in 2000, *The Right to Vote* was widely hailed as a magisterial account of the evolution of suffrage from the American Revolution to the end of the twentieth century. In this revised and updated edition, Keyssar carries the story forward, from the disputed presidential contest of 2000 through the 2008 campaign and the election of Barack

Obama. The Right to Vote is a sweeping reinterpretation of American political history as well as a meditation on the meaning of democracy in contemporary American life.

**Blue Book Basic Books**

This book tells the story of woman suffrage as one involving the diverse politics of women across the country.

**The Contested History of Democracy in the United States**

ABDO

A history of the early twentieth-century movement for women's suffrage in the United Kingdom and the Commonwealth. In the United Kingdom, the question of women's suffrage represented the most substantial challenge to the constitution since 1832, seeking not only to expand but to redefine definitions of citizenship and power. At the same time, it was inseparable from other urgent contemporary political debates--the Irish question, the decline of the British Empire, the Great War, and the increasing demand for workers' rights. This collection positions women's suffrage as central to, rather than

separate from, these broader political discussions, demonstrating how they intersected and were mutually constitutive. In particular, this collection pays close attention to the issues of class and Empire which shaped this era. It demonstrates how campaigns for women's rights were consciously and unconsciously played out, impacting attitudes to motherhood, spurring the radical "birth-strike" movement, and burgeoning communist sympathies in working-class communities around Britain and beyond.

State of Wisconsin Blue Book Legislative Reference Bureau  
Looks at the history of the women's suffrage movement in the United States, highlighting major events and players.

International Organization and Conference Series  
Prentice Hall  
The advocates of woman suffrage and black suffrage came to a bitter falling-out in the midst of Reconstruction, when Elizabeth Cady Stanton opposed the 15th Amendment for granting black men the right to vote but not women. How did these two causes, so long allied, come to this? In a lively narrative of

insider politics, betrayal, deception, and personal conflict, *Fighting Chance* offers fresh answers to this question and reveals that racism was not the only cause, but that the outcome also depended heavily on money and political maneuver. Historian Faye Dudden shows that Stanton and Susan B. Anthony, believing they had a fighting chance to win woman suffrage after the Civil War, tried but failed to exploit windows of political opportunity, especially in Kansas. When they became most desperate, they succeeded only in selling out their long-held commitment to black rights and their invaluable friendship and alliance with Frederick Douglass. Based on extensive research, *Fighting Chance* is a major contribution to women's history and to 19th-century political history.--From <http://www.booktopia.com.au> (Sep. 30, 2013).

Eighth Annual Report on the Administration of the Trust Territory of the Pacific Islands, July 1, 1954 to June 30, 1955  
Columbia University Press  
Ewa Ziarek fully articulates a feminist aesthetics, focusing on the struggle for freedom

in women's literary and political modernism and the devastating impact of racist violence and sexism. She examines the contradiction between women's transformative literary and political practices and the oppressive realities of racist violence and sexism, and she situates these tensions within the entrenched opposition between revolt and melancholia in studies of modernity and within the friction between material injuries and experimental aesthetic forms. Ziarek's political and aesthetic investigations concern the exclusion and destruction of women in politics and literary production and the transformation of this oppression into the inaugural possibilities of writing and action. Her

study is one of the first to combine an in-depth engagement with philosophical aesthetics, especially the work of Theodor W. Adorno, with women's literary modernism, particularly the writing of Virginia Woolf and Nella Larsen, along with feminist theories on the politics of race and gender. By bringing seemingly apolitical, gender-neutral debates about modernism's experimental forms together with an analysis of violence and destroyed materialities, Ziarek challenges both the anti-aesthetic subordination of modern literature to its political uses and the appreciation of art's emancipatory potential at the expense of feminist

and anti-racist political struggles.
