Esref, my best friend and hero, was ordered by a magistrate to live in an Istanbul children's home. His angry mother and deviant step-father are trying to stop him from changing the world. Will he remain a lonely and troubled little boy? Will Istanbul devour him or nurture him? Another small question that's been nagging me for the past fifty or so years... was my best

friend a serial murderer? Come with me on a magical flying carpet ride over, in and under Istanbul as I try to discover Esref's fate. You believe in fate, don't you? Come with me and explore your deeper and darker self. Can you taste the vanilla in the air? Can you feel cinnamon? Esref, Tarsin and I promise you a magical adventure for the good of the rest of your life. You do believe in magic, don't you? And serial murder? *Storyboard Sketchbook PRO* Createspace Independent Publishing Platform

A series of illustrations made from original photos taken of Canadian women in glamorous poses featuring retro pinup, tasteful bondage, and light nudity. Definitely NSFW and targeted at mature readers who enjoy looking at illustrations of modern women in glamorous retro pinup poses with a hint of naughtiness attached. The original photos were taken for a website that closed it's doors a few years back. Stored in an archive, the photos had languished without interest or use. I converted each photo into a digital image, then pencil sketched them using various tools including a Wacom tablet and produced each image as you see between these covers. This sort of artistic beauty does not deserve to languish and rot, it deserves to be seen for what it is, Canadian retro pinup style girls.

Technology bombards us with new inventions and innovations almost daily. But when presented with a new gizmo or gadget, an artist's first thought (even if not spoken aloud) is usually: "Yeah that's nice...but can I make art with it?" The personal computer was co-opted almost immediately by wily artists painting one pixel at a time or even drawing with text in the form of ASCII art. The computer has advanced quickly as a tool that artists use to express and create. In fact, many modern illustrators and comic artists work almost exclusively in digital form. So it is no surprise that the advent of the smartphone and the tablet quickly developed the capabilities to create on the go. Many software packages have thrown their hat into this arena, but one has managed to bridge the gap between the different platforms almost seamlessly; Autodesk SketchBook. In this book we will explore the PC/Mac, Tablet, and Mobile versions of Autodesk SketchBook. We will talk about what is similar and what is different about each platform and how it can serve artists in the office, at home, or on the move. But most importantly we will talk about how artists can use it to create art.

Always wanted to learn how to draw? Now's your chance. Kean University Teacher of the Year Robin Landa has cleverly disguised an entire college-level course on drawing in this fun, hands-on, begging-to-be-drawn-in sketchbook.

Even if you're one of the four people on this planet who have never picked up a pencil before, you will learn how to transform your doodles into realistic drawings that actually resemble what you're picturing in your head. In this book, you will learn how to use all of the formal elements of drawing—line, shape, value, color, pattern, and texture—to create well-composed still lifes, landscapes, human figures, and faces.

Keep your pencils handy while you're reading because you're going to get plenty of drawing breaks— and you can do most of them right in the book while the techniques are fresh in your mind. To keep you inspired, Landa breaks up the step-by-step instruction with drawing suggestions and examples from a host of creative contributors including designers Stefan G. Bucher and Jennifer Sterling, artist Greg Leshé, illustrator Mary Ann Smith, animator Hsinping Pan, and more.
